

COUNCIL POLICY MANUAL

Version 15

(June 2025)

The contents of this document are as resolved by Council.

BACKGROUND TO POLICY MANUAL

The purpose of policy documents is to enable the effective and efficient management of Council resources and to assist staff and Council achieve an equitable decision-making process. Written policies also enable the community to be aware of the reasoning behind administrative and Council decisions, and to be familiar with the philosophy behind individual decisions. Policy statements enable much of the day-to-day business of Council to be handled by the Administration, freeing up the time of the Elected Members in determining major policy and strategic direction.

It is important to note that this manual contains the policy statements of the Council and does not contain procedural matters.

The policies contained within this manual are those that project a corporate image and are not controlled by individual directorates. The development of the policies involves input from staff across the organisation and elected members. A current policy manual proves to be a valuable tool in improving the decision-making process.

A policy statement is not binding on Council but provides a guideline for Elected Members and staff in determining individual applications or requests. Generally, policies evolve as issues that have come before Council and should continue to evolve through a process of review and refinement. For this reason, it is important that a review process is in place. It is also possible for members of the community to seek an early review of a specific policy.

This Policy Manual forms part of Shire's public documentation. The policy manual is available for public inspection during office hours, at the Council office, on request.

POLICY FRAMEWORK

Each policy is developed in order to address specific matters. They relate to objectives to the Shire of Wongan-Ballidu, and, in some instances, as required by legislation. The principles behind the policies are directly related to the Shire's values as an organisation. These are that the Shire:

- will work with the community in a way which is friendly, helpful, professional and inspires confidence;
- believes it is essential that the Council and Council staff are honest, dedicated and show respect for others;
- will aim for equity and fairness in all we do; we will focus on the needs of the customer; and strive for continuous improvement;
- wants the Council to be a dynamic organisation, flexible and innovative, with strong team spirit – a great place to work and a welcoming place for the community to visit;
- is committed to the principles of Freedom of Information.

Essentially, policies developed by the Shire of Wongan-Ballidu are aimed at ensuring and encouraging equity, fairness, access to information and decision making and effective management of community resources.

Each policy includes:

- an objective statement (what the policy aims to achieve);
- a policy statement (what the policy is);
- a nominated person responsible for the policies implementation; and
- the date of commencement, including Council resolution number.

POLICY REVIEW PROCESS

If at the time of review, or at any other time, a policy is found to require amendment, a report is to be prepared for Council consideration detailing the required variation, the reason behind that variation and any recommendations for amendment.

At least triennially, the entire Policy Manual will be reviewed. The Chief Executive Officer will coordinate the review process.

When a Policy is repealed, it is removed from this Policy Manual and saved securely within the Council Repeal Vault document.

1.7 Wongan Hills Doctors Practice & Medical Centre

Policy Owner	Administration
Person Responsible	Chief Executive Officer
Date of Adoption	23 February 2022 – Resolution 040222
Date of Last Review	23 August 2022 – Resolution 02082022

OBJECTIVE:

That Council recognise the value of retaining freehold ownership of its Wongan Hills Medical Centre and control of the Doctor's Practice.

POLICY:

Notwithstanding that a third party might wish to seek permanent ownership of the Medical Centre freehold and or control of the Wongan Hills Doctors Practice, Council is of the view that the current and future interests of its communities are best dealt with by retaining an involvement in the selection of any replacement GP, owning the practice and premises provides this involvement.

Previous experience has demonstrated that Council and the Community can be powerless to influence the continuation or closing of the practice or the timely installation of a Doctor where the practice is privately owned.

To overcome this potential, it is Councils policy to retain ownership of the freehold of the Wongan Hills Medical Centre and control of the Doctors Practice to ensure that there is continuity of GP and general medical services through a service agreement to give Council some influence in the delivery of General Practitioner services to the community.

Council will continue to offer use of the practice and all of its' records and equipment to a GP chosen by a committee of Council on the basis that the Doctor is not asked to make any financial contribution in order to access use of the practice and Council has no financial commitment to the outgoing Doctor at the end of his or her term in the practice.

An agreement to provide that outcome will be signed by all parties involved.

The intent of this policy is that an incoming Doctor comes in to an equipped and working consulting rooms, runs the business as his or her own and on leaving hands back the business, including all records, to Council in order that Council may offer it to a new Doctor.

RESPONSIBILITY FOR IMPLEMENTATION

The Chief Executive Officer is responsible for implementation of this policy.

1.9 Recordkeeping

Policy Owner	Administration
Person Responsible	Deputy Chief Executive Officer
Date of Adoption	23 February 2022
Date of Last Review	28 February 2024

OBJECTIVE

Good documents and records support effective business practice and improves organisational accountability and efficiency. As such, documents and records are a vital organisational asset and a cornerstone of the Shire of Wongan Ballidu's (the Shire) governance.

The Shire has a legislative obligation, under the *State Records Act 2000* (the Act) to create, capture, retain and manage documents and records that support the Shire's business functions, corporate decisions and activities.

This policy sets out the requirements, roles, and responsibilities to ensure:

- The electronic documents and records management system (EDRMS) is the mandated records system.
- Official documents and records are captured into the EDRMS or line-of-business systems.
- Access and dissemination are appropriate.
- Information integrity is maintained.
- Vital documents and records are identified and managed in accordance with relevant legislation to ensure business continuity.
- Unauthorised tampering or destruction of documents and records is an offence under the Act and severe penalties may be applied for a breach of the Act.

This policy will support the Shire in meeting its strategic plan directions and priorities and adapt to changing business environments and promote efficiencies.

The policy reflects the legislated document and records management requirements under the *State Records Act 2000*, *Local Government Act 1995*, and *Freedom of Information Act 1992*.

SCOPE

The Shire will ensure that corporate documents and records are created, captured, retained, and managed in accordance with legislative and operational requirements; and are authentic, reliable,

useable, and capable of supporting business functions and activities for as long as they are required.

This policy applies to the official corporate documents and records of the Shire.

This policy applies to all corporate information, records, and data regardless of media and format (including but not limited to hard copy documents, electronic documents or file, email, handwritten notes, digital data, and multimedia) received or created in the conduct of Shire business.

POLICY

CREATION

Documents and records are created as part of day-to-day business activities of the Shire. The purpose of the record is to document evidence of business transactions, to comply with legal requirements, to record decisions made and actions taken and to maintain a record of communications sent or received.

Documents and records need to be complete, suitable, and meaningful to the purpose for which they are created and kept.

Content to be published on the Shire of Wongan Ballidu website and Facebook page will be created and approved (where required by the Chief Executive Officer) in a document external to the platform before publication.

CAPTURE

Every document or record relating to Shire business activities and transactions that is received, created, or held in any form (voice recordings, physical or electronic) will be registered into the EDRMS unless an exemption is in place. Exemptions may be sort from the Deputy Chief Executive Officer.

All documents and records must be accessible and unencrypted (i.e., not password or copy protected or converted into a code that would prevent access), as soon as practicable after the event. This includes business emails, attachments, calendar/diary appointments, tasks and notes relating to Shire

business activity which are received, created, sent, or held in an email messaging system.

The Shire's website and Facebook content, including the approval to post (where required by the Chief Executive Officer), must be captured to the EDRMS before it is uploaded. In addition, all documents published on the Shire's Facebook page or website must be copied, and the original documents must be saved to the Shire's EDRMS.

VALIDATION

Shire documents and records created, received, or held will be capable of being validated as accurate, complete, and reliable. An audit trail will be maintained to track and verify all changes to, and activities performed on Shire documents and records.

OWNERSHIP AND INTELLECTUAL PROPERTY

Documents and records created or received by employees, elected members, contractors, consultants, and providers of outsourced services during the conduct of Shire business activities will be managed as information assets owned by the Shire (except where otherwise agreed in contracts or copyright agreements).

CLASSIFICATION AND NAMING CONVENTIONS

The Shire has adopted a pragmatic approach to naming records. The information architecture imposed in the EDRMS solution supports efficient and effective records use supporting quick, easy retrieval of information assets to support accurate, timely reporting.

METADATA

Documents and records created, received, or held in the Shire's EDRMS will contain appropriate recordkeeping metadata describing their context, content, and structure in accordance with the State Records Commission Standard 8. This metadata will facilitate and control the creation, capture, identification, classification, access, security, storage, preservation, retention and disposal of documents and records.

ACCESS CONTROLS AND SECURITY

Shire access controls and security are applied to documents and records at the time of creation, receipt and capture. This is to ensure that they - and any related confidential, private, sensitive, or intellectual property information - are protected from inappropriate access, usage, disclosure, or alteration. Multifactor authentication on all environments is in place to prevent unauthorised access.

The controls and protocols applied will also need to comply with legally enforceable rights of access to information embodied in the *Freedom of Information Act 1992* to support openness and accountability.

Public access rights determinations will also be made when archival documents and records are transferred to State Records of WA or approved records storage providers for storage or permanent archiving in accordance with the State Records Commission Standard 7.

STORAGE, LOCATION, AND SPACE MANAGEMENT

Documents and records will be stored in an unencrypted, open and enduring format in the EDRMS, on appropriate media or in managed storage locations that ensure their preservation, security, accessibility, and integrity over time.

This policy outlines seven principles to be considered when storing physical records in a facility under the direct control of the Shire or by a third-party:

- Location: sites, facilities and areas for records storage should be located away from known hazards and be convenient to user needs.
- Environmental control: records should be stored in environmental conditions that are appropriate to their format and retention period.
- Shelving and packaging: the shelving, equipment and containers for records storage should ensure that records are secure, accessible, and protected from deterioration.
- Maintenance and security: records storage facilities, areas and records should be maintained to safeguard their security, condition, and accessibility.
- Protection from disaster: disaster management programs should be established and maintained to ensure that risks to records are minimised and managed appropriately.
- Careful handling: the retrieval and use of records in storage areas should be subject to controls that prevent damage and deterioration.
- Accessibility: records should be stored and controlled in facilities where they can be identified, located, and retrieved easily.

RETENTION, DISPOSAL, AND DESTRUCTION

Documents and records will be systematically retained, stored, and archived for at least the minimum length of time stipulated by the relevant current records disposal authority approved by the State Records Office of Western Australia.

Documents and records will only be altered, destroyed, or deleted in accordance with the provisions of the Act. Sentencing of records must be actioned by a trained records officer and disposal of records must be authorised by Executive management before disposal takes place.

Records subject to a Freedom of Information request, legal action or State Records disposal freeze must not be destroyed even if the minimum retention period has been reached.

DIGITISATION

Physical documents converted to digitised electronic record versions will be:

- digitised via a multi-function device or document scanner connected to the Shire network which meets Shire minimum digitisation specification requirements; and
- managed and disposed of in accordance with the State Records Office Guideline Records Retention and Disposal Instructions and General Disposal Authority for Source Records (RD 2016002).
- Digitised electronic record versions of source physical documents will be captured, managed, archived, and disposed of within the EDRMS as electronic records in accordance with this policy, and the minimum length of time stipulated by the relevant current disposal authority approved by the State Records Office.

SEARCH AND RETRIEVAL

Documents and records will be created, captured, named, classified, appropriately secured, version controlled and managed in the EDRMS to enable them to be quickly and easily searched and retrieved, via EDRMS search and retrieval tools, to improve business processes and service delivery unless an exemption is approved.

This includes tracking the movement, transfer and current location of all documents and records in the EDRMS, including those stored offsite, at State Records of WA and at approved temporary records storage providers.

VITAL RECORDS AND RECORDS DISASTER MANAGEMENT PLAN

Vital documents and records created, received, or held will be identified, managed, and protected by the development and implementation of a vital records plan.

Business continuity plans for electronic and physical documents and records will also be developed, regularly tested, and implemented in the event of a disaster to minimise the loss of Shire information assets and ensure business continuity.

DESIGN OF BUSINESS INFORMATION SYSTEMS.

Document and records management requirements and controls documented in this policy and State Records Commission Standards will be considered and built into the specifications, design, development, modification, upgrade, documentation, and implementation of all new or modified business systems and information and communication technology (ICT) processes relating to documents, records, and information assets.

Document and records management processes related to the design of business systems and ICT processes will include the analysis of business activities, assessments of existing systems and business processes, identification of recordkeeping and metadata standard requirements and controls, migration strategies, and requirements for integration with the EDRMS.

All new line of business systems will consider the State Records Commission Standards and Guidelines, and the Act.

CONTRACTING AND RECORDS MANAGEMENT REQUIREMENTS.

Where contractors or external service providers are engaged by the Shire, the Shire's Records Management Policy requirements, roles and responsibilities will be addressed in the contract or agreement provided to engage the service.

INDUCTION AND TRAINING.

All new employees and elected members are required to complete records management training. Records handling training will be completed by all users as appropriate to their role and responsibilities. A record of training completed must be retained.

Shire managers are required to provide access to records management training to employees, contractors, consultants, and elected members appropriate to their role in document and records management responsibilities.

Policy Owner	Community Development
Person Responsible	Manager of Community Services
Date of Adoption	24 June 2020 – Resolution 030620
Date of Last Review	24 June 2020 – New Policy

OBJECTIVE

The objectives of this policy are to:

- Provide a clear statement of Council's commitment to best-practice community and stakeholder engagement as it applies to decision making;
- Define the guiding principles that will ensure appropriate, effective and inclusive community and stakeholder engagement is achieved consistently across the Shire; and
- Outline the required mechanisms to be established and continually reviewed to ensure best-practice engagement practices are integrated into strategic and operational planning

SCOPE

This policy applies to all Shire of Wongan-Ballidu (Shire) staff and contractors that manage projects, plans and initiatives that impact stakeholders in our community, as well as consultants appointed to manage these on the Shire's behalf.

This policy applies to the engagement strategies managed through the Shire's traditional methods, and increasingly online engagement as the Shire continues to develop this platform.

This policy is not intended to replace legal and statutory obligations. It should, however, guide business unit specific practices and procedures.

BACKGROUND

The Shire is committed to openly and inclusively communicating and engaging with our community to make sure they have the opportunity to participate in decision-making processes that impact them. We recognise that this commitment helps us to help our community, shape the future of the Shire.

The Shire supports public participation as a process to make better decisions. Good decisions incorporate both the interests and concerns of affected stakeholders, and the needs of the Shire. While there are many technical, financial and legislative requirements that the Shire must consider when making decisions, every effort will be made to involve affected stakeholders in the decision-

making process.

The Shire has adapted the International Association of Public Participation (IAP2) Core Values to shape our commitment to community and stakeholder engagement. Our approach to engagement will build on these principles and will support the development and implementation of engagement processes consistent with recognised international best practice.

THE PRINCIPLES GUIDING THE SHIRE'S APPROACH TO COMMUNITY AND STAKEHOLDER ENGAGEMENT

1. We believe that those affected by a decision have the right to be involved in the decision-making process
2. We will be clear about how participants' feedback and contributions will influence the decision
3. We believe that the best decisions are the ones that recognise and communicate the needs and interests of both the Shire and the stakeholders in our community
4. We will actively identify those affected by or interested in a decision and make every effort to support and encourage participation in the decision-making process
5. We are committed to providing equal access and inclusion for all members of our diverse community. We will understand the diverse range of needs that stakeholders in our community have and choose the methods of engagement within our means that will best support their participation in the decision-making process
6. We will ensure we give the stakeholders in our community the information they need, at the right time and communicated in the best way to support their understanding, so that they can participate in a meaningful way
7. We will keep the stakeholders in our community updated on the progress and let them know how their input affected the decision

The Shire recognises the importance of integrating best practice engagement practices into strategic and operational planning, including business case decision making and project management. We will work towards continual improvement in this area.

WHEN THE SHIRE MAY ENGAGE

Community and stakeholder engagement may occur:

- On developments or changes with potential to impact residents and ratepayers
- When required by Legislative requirements
- To obtain input into long-term and strategic plans of the Shire
- On major projects and strategic issues
- When requested by the community or Council

HOW THE SHIRE MAY ENGAGE

The Shire will take a planned and purposeful approach when engaging with stakeholders and the community and will use tools such as the IAP2 Spectrum (Appendix 1) and internal guidelines and frameworks.

Methods will be appropriate to the purpose, level of engagement, resources available and stakeholders impacted.

WHEN FEEDBACK MAY NOT BE SOUGHT

There are some situations when it may not be effective or appropriate to seek feedback from the community and stakeholders, for example when:

- Legal constraints exist (e.g. confidentiality)
- The Shire is required to act in a timeframe which prevents consultation
- The matter is delivering a policy-driven decision where previous engagement with the community and stakeholders has occurred
- A decision has already been made
- The Shire is not the decision-maker and has no ability to influence the decision
- The matter concerns public safety or is an emergency.

Where it is determined that seeking feedback will not occur, the Shire will provide clear communication to impacted stakeholders explaining why feedback was not sought.

ENGAGING WITH AND SUPPORTING GOVERNMENT DEPARTMENTS

The Shire understands that government agencies such as schools, hospitals and police are fully funded core business units of state and federal government and as such are not a fundamental responsibility of local government. The Shire does, however, believe that we have a social and community responsibility to assist and engage with government departments in a manner congruent with facilitating delivery of services for which we are responsible under legislation.

The manner in which the Shire would offer support to government departments is further prescribed in the Shire Council Policy "State Government Department Support".

The Shire recognises that government departments would be considered a stakeholder in numerous Shire projects and initiatives, and as such will be engaged with pursuant to the operationally appropriate level on the engagement spectrum (Appendix 1).

RESPONSIBILITY OF BUSINESS UNITS

Embedding the principles outlined in this policy will be supported by processes and practices based on the IAP2 Quality Assurance Standard for Community and Stakeholder Engagement and the AA1000 Stakeholder Engagement Standard (SES) 2015.

To provide consistency and ensure that the Shire engages at a level considered as being best practice, Community and Stakeholder Engagement Procedures will be developed for Shire issues that require engagement.

These issues include, but are not limited to, the following:

- Strategic Plans, Frameworks etc. (e.g. Community Strategic Plan)
- Scheduled roadworks, right-of-way construction
- Road closures, traffic calming proposals
- Local Laws
- Changes to services (e.g. changes to service provision i.e. Swimming Pool Operating Hours, closure of services)

- Reactive building maintenance and minor building works
- Public or other building demolitions
- Building upgrades, internal or external building refurbishments
- Playground and park upgrades, replacement and renewal
- Major projects (new regional facilities, parklands etc.)

As a minimum, these Community and Stakeholder Engagement Procedures will include the following areas:

- Legislative requirements, if applicable
- When engagement is to occur
- Situations where feedback may not be sought
- Processes of engagement that will be used
- Minimum requirements for engagement
- How feedback will be used to inform the final decision, and who the decision-maker is
- Method and timing of feedback and communication
- Reporting requirements and format
- How the engagement process will be reviewed and improved on an ongoing basis.

All Community and Stakeholder Engagement Procedures are to be developed within one (1) year of this policy's adoption.

Several resources have been developed, and will continue to be developed, to assist Shire staff to implement this policy.

2.6 Community Resource Centre and Wonga-Balli Boomer Community Support Provision Policy

Policy Owner	Community Development
Person Responsible	Manager of Community Services
Date of Adoption	08 July 2020 – Resolution 060720
Date of Last Review	08 July 2020 – New Policy

OBJECTIVE

The objective of this policy is to provide a clear statement of the instances in which Council will consider providing the support of the Wongan Hills Community Resource Centre to community groups, and to what extent such support may be provided.

SCOPE

This policy applies to the business unit of Community Services and all Shire of Wongan-Ballidu (Shire) staff and contractors that manage projects, plans and initiatives, as well as consultants appointed to manage these on the Shire's behalf.

This policy is not intended to replace legal and statutory obligations. It should, however, guide business unit specific practices and procedures.

The Wongan Hills Community Resource Centre (CRC) currently receives funding by way of an annual agreement with the Department of Primary Industries and Regional Development (DPIRD).

Part of this agreement requires the CRC to deliver a prescribed number of activities, projects and initiatives within the Shire.

One of the ways that the CRC works in community to achieve these service delivery outcomes, is to collaborate and partner with various community groups and external stakeholders. This has the additional benefit of building capacity in community groups and empowering grass roots community development.

The 'Wonga-Balli Boomer' is a 40 to 44-page weekly publication with a circulation of 140; self-published by the CRC on average 43 editions per year. The 'Boomer' is delivered against the service delivery outcome of an 'Annual Local Initiative' in the DPIRD funding agreement.

The 'Boomer' has historically provided some space within the publication free of charge, and this policy seeks to formalise those guidelines.

POLICY – COMMUNITY PARTNERSHIPS

When partnering with a community group or external stakeholder to deliver an event, project or initiative that meets the prescribed outcomes contained in the DPIRD contract, or delivering the CRC has the discretion to not charge a set Council fee and charge up to and including the following limits:

- A total of two pages of editorial content, to be provided by the group, to promote the project prior to commencement - \$114.00 value as at 30 June 2020;
- A total of two pages of editorial content, to be provided by the group, to report on the project after completion - \$114.00 value as at 30 June 2020;
- A total of three separate instances of Boomer advertising up to one A4 colour advert specifically related to the project. This is not transferrable to other sizes (for example 3 x A4 will not be equated to 12 x quarter page) - \$171.00 value as at 30 June 2020;
- A total of two hours of desktop publishing services provided by CRC staff - \$90.00 value as at 30 June 2020;
- A total of \$50.00 of printing and/or photocopying services;
- A total of four instances of promotion on the CRC's Facebook page;
- Assistance in the form of venue hire is subject to formal Council approval as per the Shire's Delegated Authority Register and will be negotiated on a case by case basis;
- Assistance in the form of staff hours is subject to formal CEO approval as per the Shire's Delegated Authority Register and will be negotiated on a case by case basis.

POLICY – THE WONGA-BALLI BOOMER

Historically the Wonga-Balli Boomer, as a community-based publication, has provided a level of community content free of charge. The current prescribed advertising rates for commercial interests are as stated in the current Council Fees and Charges.

The Wonga-Balli Boomer has the discretion to not charge a set Council fee and charge up to and including the following limits:

- All local community notices, sporting results, thank you notices, birthday greetings and news items of community interest are published free of charge;
- Free community notices can be included for a maximum of 3 editions;
- Sport notices (including photographs) are published in black and white, if colour is required, standard advertising rates apply;
- Church notices (including photographs) are published in black and white, if colour is required, standard advertising rates apply;
- Articles will be published dependent on space, content and local interest. Articles without local content are to be a maximum of 2 pages and authors will be limited to one such article per month. Authors are however strongly encouraged to incorporate information relevant to the community in all articles. Local content pertains to place, person or events in the Shire, past or present;
- Any Community items that include ticket prices or the selling of products or services will incur the standard advertising rates;
- Raffle results are free of charge if the original raffle was advertised in the Boomer;
- The Front Cover is reserved for lifestyle images that are generally representative of our Shire and that do not depict specific links to community or sporting groups. However, the first double page opening (ie pages 2 and 3) is available to any recognised community or

sporting group within our Shire wishing to promote a project, event or achievement, and will be printed in colour free of charge.

2.8 Public Art Policy

Policy Owner	Community Services
Person Responsible	Manager Community and Customer Services
Date of Adoption	20 August 2025 – Resolution 230825
Date of Last Review	20 August 2025 – New Policy
Date next due for Review	August 2028

OBJECTIVE

To establish a framework for the commissioning, approval, installation, and management of public art within the Shire of Wongan-Ballidu. This policy outlines the principles and processes guiding both Shire-led and externally proposed public artworks to ensure alignment with community values, cultural identity, public safety, and sustainable asset management.

DEFINITION

Public art refers to any visual artwork installed in a public space and intended to enrich the community's experience of that place. Public art may include, but is not limited to:

- Freestanding works such as sculptures
- Integrated pieces embedded into buildings or infrastructure
- Murals, painted surfaces, or artistic treatments
- Digital or interactive installations
- Temporary or ephemeral exhibitions

POLICY

This policy aims to celebrate and reflect the Shire's identity, culture, environment, and heritage by encouraging high-quality, original, and site-appropriate public art. It supports meaningful participation and collaboration between artists, community members, and cultural organisations, while establishing clear and consistent processes for external applicants wishing to propose public artworks.

Public art must consider public safety, environmental sustainability, and be practical to maintain. It also plays a role in supporting tourism, local economic development, and creative place-making that strengthens community pride and cultural expression.

This policy applies to:

- All public artworks located in public spaces under the Shire's care and control (e.g., parks,

- town centres, community facilities, and road reserves).
- Proposals submitted by external individuals, artists, or organisations, including community groups, arts collectives, and businesses.
- Temporary, permanent, and ephemeral public artworks, including sculptures, murals, installations, and architectural/artistic integrations.

All public artworks must align with the goals of the Shire's Strategic Community Plan, particularly in areas such as tourism, cultural enrichment, and community identity. Artworks must respect the region's Aboriginal heritage, local history, and distinct character. They are expected to demonstrate quality design and creativity, and avoid content that is political, offensive, or discriminatory. All installations must also consider public safety, accessibility, and the practicalities of long-term maintenance.

PUBLIC ART PROPOSAL BY EXTERNAL ARTIST OR GROUP

Any external artist, organisation, or community group wishing to install public art in the Shire must submit a Public Art Proposal Form, available on the Shire's website or by request. The proposal must include a project plan, concept designs, the proposed location, and a clear outline of the artwork's purpose and theme. It should describe how the artwork complements the surrounding environment, and provide details on materials, scale, and anticipated lifespan.

Applicants must also outline maintenance requirements, public safety considerations, and where relevant, a community engagement plan. A full budget breakdown and identified funding sources must be provided.

Once submitted, proposals will be reviewed by the Shire in consultation with relevant stakeholders such as local arts organisations or heritage advisors, as appropriate. Proposals will be assessed against criteria including:

- Artistic merit and originality
- Alignment with the Shire's objectives and community values
- Suitability to the selected site and local environment
- Community benefit and potential engagement opportunities
- Maintenance requirements and public safety implications
- Impact on Shire resources or ongoing commitments

Council approval is required for significant or permanent artworks. Temporary works, such as exhibitions or ephemeral pieces, may be approved under delegated authority by the Chief Executive Officer. Where an artwork is especially prominent or potentially sensitive in nature, the Shire may initiate public consultation before making a final decision.

Following approval, a Public Art Agreement will be established between the Shire and the applicant. This will outline each party's roles and responsibilities, ownership arrangements, installation timeframes and requirements, insurance and liability obligations, and expectations around future maintenance and potential decommissioning.

OWNERSHIP AND MAINTENANCE OF PUBLIC ART

Public artworks installed within the Shire remain the property and responsibility of the artist or commissioning group unless otherwise agreed in writing by the Shire. The artist or owner is fully responsible for maintaining the artwork's condition, including repair and restoration where required. The artist or group must also hold and maintain appropriate public liability insurance to cover any risks associated with the artwork's installation and presence in a public space. If the artist or group does not have the appropriate public liability insurance, Council may exercise discretion and accept that the artwork will be subject to the Shire's public liability insurance.

The Shire reserves the right to relocate, modify, or remove public artworks if they pose safety concerns, become significantly damaged, obstruct future development, or if public interest or amenity requires their removal. Where possible, reasonable notice will be given to the artist or owner before any such action is taken.

POLICY REVIEW FREQUENCY

Every 3 years, or as required.

RESPONSIBILITY FOR IMPLEMENTATION

The Chief Executive Officer is responsible for implementing this policy.

4. FINANCE

4.1 Accounting Policy

Policy Owner	Administration and Financial Services
Person Responsible	Deputy Chief Executive Officer
Date of Adoption	June 2009 – Resolution 060609
Date of Last Review	24 August 2022 – Resolution 08082022 - Amendment

OBJECTIVE

To ensure that all Financial Reports and Budgets are prepared in accordance with the relevant statutory requirements.

POLICY

This policy will apply to the presentation of the Shire's:

- Management Accounts
- Monthly Financial Reports
- Annual Financial Reports
- Annual Budgets
- Annual Budget Reviews
- Long Term Financial Plan

The significant accounting policies are detailed below.

1. Basis of preparation

All financial reports will be prepared in accordance with the Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying regulations take precedence over Australian Accounting Standards where they are inconsistent.

2. The Local Government Reporting Entity

All funds through which the Council controls resources to carry on its functions will be included in the financial statements.

In the process of reporting on the Local Government as a single unit, all transactions and balances between those Funds (for example loans and transfers between funds) will be eliminated.

All monies held in the Trust Fund are to be excluded from the Financial Statements, but a separate statement of those monies should appear as a Note to the Statements.

3. Actual Balances

The year-to-date actual balances that are presented in the annual budget are figures based on the accounts as at the time of budget preparation, they will include forecasts where appropriate, but are subject to change between time of budget adoption and the production of the Annual Financial Report.

4. Rounding Off Figures

All figures shown in the financial reports (other than the rates in the dollar), are to be rounded to the nearest whole dollar.

5. Comparative Figures

Where required, comparative figures are adjusted to conform to changes in presentation for the current financial year.

When the Shire applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statement, a statement of financial position as at the beginning of the earliest period is disclosed.

Unless otherwise stated, the budget comparative figures shown in the financial statements is the original budget for the relevant item of disclosure.

6. Critical Accounting Estimates

The preparation of financial reports in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets, liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which forms the basis of making judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

7. Goods and Services Tax ("GST")

Revenues, expenses and assets capitalised are stated net of any GST recoverable. Receivables and payables in the Statement of Financial Position are stated as inclusive of applicable GST.

8. Cash and Cash Equivalents

Cash and cash equivalents in the Statement of Financial Position comprise cash at bank and on hand and short-term deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included as short-term borrowings in current liabilities on the Statement of Financial Position.

9. Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that the debt will not be collectible.

10. Inventories

(i) Raw materials and stores (fuel stock), work in progress and finished goods

Raw materials and stores (fuel stock), work in progress and finished goods are stated at the lower of cost and net realisable value. Cost comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Costs are assigned to individual items of inventory on the basis of weighted average costs. Net realisable value is the established selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

11. Land held for resale/capitalisation of borrowing costs

(i) Land held for resale is stated at the lower of cost and net realisable value. Cost is assigned by specific identification and includes the cost of acquisition, development and borrowing costs during development. When development is completed, borrowing costs and other holding charges are expensed as incurred. Borrowing costs included in the cost of land held for resale are those costs that would have been avoided if the expenditure on the acquisition and development of the land had not been made. Borrowing costs incurred while active development is interrupted for extended periods are recognised as expenses.

Revenue arising from the sale of property is recognised in the operating statement as at the time when the conditions of a binding contract of sale are met. Land held for resale is classified as current except where it is held as non-current based on the Shire's intentions to release for sale.

12. Non-Current Assets

Each class of fixed assets within either property, plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

13. Low Value Assets

Expenditure on items of equipment under \$5,000 are not capitalised but, where applicable, are placed on the "Minor Assets Register" for reference and maintenance.

14. Revaluation

(i) Mandatory requirement to revalue certain non-current assets

Each asset class is revalued in accordance with the Regulations and the Australian Accounting Standards. The Shire applies a process of rolling revaluations by asset class, providing all assets in a class are valued within the same financial year before the reporting date.

The following is the Shire's non-current asset revaluation cycle:

Financial Year	Asset Group/Class
2021/22	Land, Buildings and Other Infrastructure
2022/23	Infrastructure – Roads, footpaths, drainage, parks & ovals, signage
2023/24	Nil
2024/25	Nil
2025/26	Nil
2026/27	5-year cycle recommences

The *Local Government (Financial Management) Regulations 1996* state that the maximum period of time between revaluations of non-current assets is five (5) years. All plant and equipment type assets are to be held at cost.

Relevant disclosures, in accordance with the requirements of the Australian Accounting Standards, are made in the financial statements as necessary.

(ii) Accounting for revaluations

The fair value of land, buildings, infrastructure and investment properties (including vested improvements) is determined at least every five years in accordance with the regulatory framework. At the end of each period the valuation is reviewed and where appropriate the fair value is updated to reflect current market conditions. This process is in accordance with *Local Government (Financial Management) Regulation 17A (2)(a)* which requires land, buildings, infrastructure, investment properties and invested improvements to be shown at fair value.

Individual assets that are plant and equipment type assets and right-of-use assets are measured using the cost model in accordance with *Local Government (Financial Management) Regulation 17A (2)(b)* and *17A (2)(c)*.

Increases in the carrying amount arising on revaluation of asset classes are credited to a revaluation reserve. Decreases in the carrying amount that offset previous increases of the same asset classes are recognised against revaluation reserve, all other decreases are recognised in the Statement of Comprehensive Income.

15. Depreciation of Non-Current Assets

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner, which reflects the consumption of the future economic benefits embodied in those assets. Assets are depreciated from the date of acquisition, or in respect of internally constructed assets, from the time the asset is completed and held ready for use. Assets are written off when they fall below the capitalisation threshold in the Asset Register.

Depreciation is recognised on a straight-line basis, using rates which are calculated based on useful life and residual values; these are illustrated below and reviewed each reporting period.

Asset Class	Useful life
Buildings – non-specialised	20 – 80 years
Buildings – Specialised	20 – 80 years
Furniture and equipment	5 – 10 years
Plant and equipment	4 – 8 years
Motor Vehicles	3 – 5 years
Infrastructure – Roads – Surface (sealed)	27 years
Infrastructure – Roads – Surface (unsealed)	10 years
Infrastructure – Roads – Pavement	55 years
Infrastructure – Roads (Subgrade)	Not depreciated
Infrastructure – Footpaths	30 years
Infrastructure - Drainage	70 years
Infrastructure – Parks and ovals	18 – 63 years
Infrastructure – Signs	125 years
Infrastructure - Other	8 – 100 years

16. Land under Control and Land under Roads

As a result of amendments to the Regulations, effective from 1 July 2019, vested land, including land under roads, is treated as right-of-use assets measured at zero cost. Therefore, the previous inconsistency with AASB 1051 in respect of non-recognition of land under roads acquired on or after 1 July 2008 has been removed, even though measurement at zero cost means that land under roads is still not included in the statement of financial position.

17. Vested improvements

The measurement of vested improvements at fair value in accordance with *Local Government (Financial Management) Regulations 1996 17A (2)(iv)* is a departure from AASB 16 which would have required the Shire to measure the vested improvements as part of the related right-of-use asset at zero cost.

18. Gains and losses on disposal of non-current assets

Gains and losses on disposals are determined by comparing proceeds with the carrying amount (written-down value). These gains and losses are included in the Statement of Comprehensive Income. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

19. Financial Instruments

(i) Recognition and derecognition

Financial Instruments, financial assets and financial liabilities are recognised when the Shire becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

(ii) Classification and initial measurement of financial assets

Except for those trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with AASB 15, all financial assets are initially measured

at fair value adjusted for transaction costs (where applicable).

Financial assets, other than those designated and effective as hedging instruments, are classified into the following categories:

- amortised cost;
- fair value through profit or loss (FVTPL); and
- fair value through other comprehensive income (FVOCI).

The classification is determined by both:

- the Shire's business model for managing the financial asset; and
- the contractual cash flow characteristics of the financial asset.

All income and expenses relating to financial assets that are recognised in profit or loss are presented within finance costs, finance income or other financial items, except for impairment of trade receivables which is presented within other expenses.

(iii) Subsequent measurement of financial assets Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows; and
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category includes non-derivative financial assets like loans and receivables with fixed or determinable payments that are not quoted in an active market. After initial recognition, these are measured at amortised cost using the effective interest method.

Discounting is omitted where the effect of discounting is immaterial. The Shire's cash and cash equivalents, trade and most other receivables fall into this category of financial instruments.

Financial assets at fair value through profit or loss (FVTPL)

Financial assets that are held within a different business model than 'hold to collect' or 'hold to collect and sell', and financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVTPL. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply.

Assets in this category are measured at fair value with gains or losses recognised in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Financial assets at fair value through other comprehensive income (FVOCI)

Financial assets are accounted for at FVOCI if the assets meet the following conditions:

- they are held under a business model whose objective is to collect the associated cash flows and sell; and
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Any gains or losses recognised in Other Comprehensive Income are reclassified upon recognition of the asset. This category includes listed securities and debentures.

20. Classification and measurement of financial liabilities

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Shire designated a financial liability at fair value through profit or loss.

Subsequently, financial liabilities are measured at amortised cost using the effective interest method except for derivatives and financial liabilities designated at FVTPL, which are carried subsequently at fair value with gains or losses recognised in profit or loss (other than derivative financial instruments that are designated and effective as hedging instruments).

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

21. Impairment of financial assets

The Shire considers a broad range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

Measurement of the expected credit losses is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

22. Fair Value Estimation of financial instruments

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes. The fair value of financial instruments traded in active markets is determined using various valuation techniques. The Shire uses valuation methods and make assumptions that are based on market conditions existing at each balance date. Quoted market prices or dealer quotes for similar instruments are used for long-term debt instruments. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting future contractual cash flows at the current market interest rate that is available to the Shire for similar financial instruments.

23. Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation as a result of past events for which it is probable that an outflow of economic benefits will result, and that outflow

can be reliably measured. Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow, with respect to any one item included in the same class of obligations, may be small.

24. Leases

All Leases, excluding Peppercorn Leases (concessionary leases), are recognised in the Balance Sheet as a liability by capitalising the present value of the minimum lease payments and showing a 'right-of-use' asset, while future lease payments are recognised as depreciation on the 'right-of-use' asset, and interest is charged on the lease liability.

Right-of-use assets are measured using the cost model in accordance with *Local Government (Financial Management) Regulation 17A (2)(c)*. This means that all right-of-use assets (other than vested improvements) under zero-cost concessionary leases are measured at zero cost.

25. Impairment

The Shire's assets, other than inventories, are tested annually for impairment. Where impairment exists, an estimate of the recoverable amount of the asset is made in accordance with AASB 136 Impairment of Assets and appropriate adjustments made. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Impairment losses are recognised in the Statement of Comprehensive Income.

For non-cash generating assets such as roads, drains and public buildings value in use is represented by the asset's written down replacement cost.

26. Trade and Other Payables

Trade and other payables reflect obligations to make future payments in respect of the purchase of goods and services and are carried at amortised cost. The amounts are unsecured and are usually paid within 30 days from the date of receipt of the invoice unless otherwise agreed.

27. Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid for the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Shire has an unconditional right to defer settlement of the liability for at least 12 months after the Statement of Financial Position date.

Borrowing costs are recognised as an expense when incurred, except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

28. Employee Benefits

Provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave and rostered days off and are calculated as follows:

Annual Leave, Long Service Leave and Rostered Days off (Short-term benefits)

The provision for employees' benefits including; annual leave, long service leave and rostered days off expected to be settled within 12 months represents the amount the Shire has a present obligation to pay resulting from employees' services provided to balance date. The provision is calculated at nominal amounts based on remuneration rates the Shire expects to pay and includes related on-costs.

Long Service Leave (Long-term benefits)

The liability for long service leave is recognised as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date, using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on state government bonds with terms to maturity and currency that match as closely as possible the estimated future cash outflows.

Where the Shire does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

29. Superannuation

Contributions to employee defined contribution plans are recognised as an expense as they become payable. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

30. Interests in Joint Arrangements/Joint Ventures

Joint arrangements represent the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required.

Separate joint venture entities providing joint venturers with an interest to net assets are classified as a joint venture and accounted for using the equity method.

Joint operations represent arrangements whereby joint operators maintain direct interests in each asset and exposure to each liability of the arrangement. The Shire's interests in the assets, liabilities, revenue and expenses of joint operations are included in the respective line items of the financial statements

31. Rates, Grants, Donations and Other Contributions

Revenue recognition is determined based on what the customer expects to be entitled to (rights and obligations), while measurement encompasses estimation by the entity of the amount expected to be entitled for performing under the contract or in the case of Rates, when the relevant rateable year commences.

AASB 1058 Income of Not-for-Profit Entities is considered where AASB 15 does not apply to a transaction. The timing of income recognition will depend on whether a transaction gives rise to a performance obligation, liability or contribution by owners.

32. Contract Liabilities (Prepaid Income)

When an amount of consideration is received from a customer / fund provider prior to the Shire transferring a good or service to the customer, the Shire presents the funds which exceed revenue recognised as a contract liability. The contract liability remains until the Shire's obligations have been met.

33. Contract Assets

When a performance obligation is satisfied by transferring a promised good or service to the customer before the customer pays consideration or before payment is due, the Shire presents this as a contract asset, unless the rights to that amounts of consideration are conditional, in which case the Shire recognises a receivable.

34. Current and non-current classifications

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operation cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months. An exception exists for land held for resale, where it is held as non-current based on the Shire's intentions to release for sale.

35. Intangible assets

Costs associated with maintaining computer software programs are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Shire are recognised as intangible assets where the following criteria are met:

- It is technically feasible to complete the software so that it will be available for use;
- Management intends to complete the software and use or sell it;
- There is an ability to use or sell the software;
- It can be demonstrated how the software will generate probable future economic benefits;
- Adequate technical, financial and other resources to complete the development and to use or sell the software are available; and
- The expenditure attributable to the software during its development can be reliably measured
- Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.
- Capitalised development costs are recorded as intangible assets and amortised from the point which the asset is ready for use.

36. Materiality

The Shire has adopted the amendment to AASB 2018-7. The change includes additional explanation to expand the definition of what information may be considered material in nature and how

presentation may also be an influence. Information is material if omitting, misstating or “obscuring” it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.

RESPONSIBILITY FOR IMPLEMENTATION

The Deputy Chief Executive Officer is responsible for the implementation and operation of this Policy.

4.3 Asset Management

Policy Owner	Corporate Services
Person Responsible	Chief Executive Officer
Date of Adoption	26 June 2014 – Resolution 040614
Date of Last Review	25 September 2025 – Resolution 060925
Date Next Due for Review	September 2028 (or earlier if required)

PURPOSE

To provide the Shire with a framework to sustainably manage its asset portfolio to ensure a continuity of service delivery. To ensure a corporate approach to asset management and ensure adequate provision is made for the long-term replacement of major assets.

SCOPE

This policy describes the way in which the Shire will approach the management of its property, plant and equipment and infrastructure assets to ensure maximum return on investment, and maximum level of service is provided.

OBJECTIVE

The key objective of this policy is to ensure that services delivered by the Shire of Wongan-Ballidu continue to be delivered in a sustainable way by ensuring that the assets used to support the service delivery continue to function to the level of service determined by Council.

The policy will also provide clear direction as to how Council, as custodians of community assets, will manage those assets within an Asset Management Framework.

POLICY STATEMENT

The Shire delivers a variety of services to the community and must ensure the assets supporting these services are managed to promote maximum performance for the most cost-effective 'whole of life' cost.

The Shire is committed to the responsible management of its assets and to deliver services that meet community expectations of time, quality, and value for money.

The Shire's assets include physical features or items within the Shire and include items such as roads, drainage, buildings, land, parks and ovals, footpaths, playgrounds, swimming pool and represent a substantial investment to support modern living in our community. It is imperative the Shire employs best

practice management skills and practices to ensure Shire services are delivered economically and in a sustainable manner.

This policy applies to the Council, Committees, all employees of the Shire and the Community involved in the operation, maintenance, refurbishment, renewal, upgrading and development of the Shire's existing and new assets.

POLICY DEFINITIONS

"Asset" means a physical item that is owned or controlled by the Shire in which:

- a) It is probable that future economic benefits associated with the item will flow to the Shire; and
- b) The cost of the item can be measured reliably.

In this context, an asset excludes financial, intellectual, and non-tangible assets.

In the context of this Policy, an asset, or a component of an asset, must have a cost greater than \$5,000 (ex. GST).

Assets may include buildings, carparks, drainage, footpaths, furniture and equipment, parks and ovals, plant, motor vehicles, and roads.

"Asset Class" in this Policy, the term class has the same meaning as category.

"Asset Management" means the processes applied to assets from their planning, acquisition, operation, maintenance, replacement and disposal, to ensure that the assets meet Council's priorities for service delivery.

"Asset Management Plan" means a plan developed for the management of an infrastructure asset or asset class that combines multi-disciplinary management techniques (including technical and financial) over the lifecycle of the asset.

The Asset Management Plan will establish for each Asset Class:

1. Levels of Service
2. Future Demand
3. Risk register
4. Life Cycle Management Plan
5. Financial Projections;
6. Asset Management Practices
7. Performance Monitoring and Improvement.

"Asset Register" means a record of asset information, including, but not limited to, inventory, historical, financial, condition, construction, and technical.

"Component" means a part or element of a whole. For example, a roof is a component of a building.

“Level of Service” means the combination function, design and presentation of an asset. The higher the Level of Service, the greater the cost to deliver the service. The aim of asset management is to match the asset and level of service of the asset to the community expectation, need and level of affordability.

“Useful Life” means the period over which an asset is expected to be used.

POLICY

To achieve the policy objective, the Shire is committed to ensuring that Asset Management is recognised as a major corporate function within Council and staff committed to supporting the function in line with this policy.

The Shire is committed to making informed decisions in relation to its assets. To achieve this, the Shire will prepare an Asset Management Plan for the major classes of assets.

Asset Management Plans will form part of the Shire’s strategic planning and will be used to make informed decisions in relation to service delivery when considering the need to acquire new assets, renew existing assets, upgrade existing assets or dispose of existing assets to support service delivery.

In making informed decisions in relation to assets, the Shire will consider the following key principles:

- Philosophy of renewing assets before acquiring new assets and where possible, rationalising assets that are no longer used or do not provide the necessary level of service required to sustainably deliver the intended service for which the asset was originally acquired.
- Prior to consideration of any major refurbishment or improvement to an asset, a critical review of the following shall occur as part of the evaluation process:
- Need for facility (short and long term);
 - Legislative requirements;
 - Opportunities for rationalisation;
 - Future liability including ultimate retention/disposal;
 - Opportunities for multiple use;
- All capital projects will be evaluated in accordance with a capital evaluation model and take into account capital cost, ongoing cost of maintenance, refurbishment, replacement and operating cost (“whole of life” cost assessment).
- Manage its assets utilising a cross functional approach through consultation with the executive management team and council.
- Developing and implementing a Long-term Financial Plan that incorporates asset renewal requirements as identified within various Asset Management Plans.

The Shire is committed to determining the Level of Service required for assets in a collaborative manner with the community and other stakeholders.

- Ensure assets are reviewed on a regular basis for ongoing relevance and community need. Where no need is identified, assets will be rationalised.

As part of the Shire's consideration of asset management, we will undertake the following key steps:

- Develop and maintain industry standard Asset Management Plans for all major asset classes and incorporate the results into the Shire's Long-Term Financial Plan (LTFP).
- Prior to consideration of any major works for renewal or improvement to an asset, undertake a critical review of the need for that asset.
- Consider the "whole of life" cost for all new assets and for any major renewal or improvements and ensure those costs are incorporated in the Shire's LTFP.
- Where appropriate, involve and consult with the community and key stakeholders on determining levels of service.
- Ensure the Asset Register is maintained, enabling informed decision making.
- Allocate resources to ensure appropriate asset management practices are undertaken including the timely maintenance and renewal or upgrade of assets so that "life cycle" costs are optimised.

OBJECTIVE:

To invest the Shire's surplus funds with consideration of risk and at the most favourable rate of interest available to it at the time, for that investment type, whilst ensuring that liquidity requirements are being met.

The objectives of the policy are threefold in terms of preservation of capital, liquidity and the return on investment.

- The preservation of capital is the primary objective of the Shire's investment to ensure the safety and security of the investment made in relation to the credit risk of the borrowers and interest rate on offer.
- The investment of the Shire's funds will ensure there is sufficient liquidity to meet the operational cash flow requirements, as and when they fall due without incurring unnecessary additional costs due to the sale of an investment.
- The investment made is expected to achieve a predetermined return on investment taking into account the market condition and the Shire's risk tolerance.

LEGISLATIVE REQUIREMENTS

All investments are to comply with the following:

- *Local Government Act 1995* - Section 6.14
- *The Trustees Act 1962* - Part III Investments
- *Local Government (Financial Management) Regulations 1996* - Regulations 19 and 19C
- Australian Accounting Standards

SCOPE

This policy applies to all officers involved in the investment of Council funds.

POLICY

Delegation of Authority

Authority for implementation of the Investment Policy is delegated by Council to the CEO in accordance with the *Local Government Act 1995*. The CEO may in turn delegate the day-to-day management of Council's investment to senior finance staff subject to regular reviews.

Prudent Person Standard

Investments are to be managed with the care, diligence and skill that a "prudent person" (as derived by legislation, *Trustees Act 1962*, and case law) would exercise. Officers are to manage investments to safeguard the portfolio in accordance with the spirit of this investment Policy, and not for speculative purposes.

Ethics and Conflicts of Interest

Officers shall refrain from personal activities that could conflict with the proper execution and management of Council's investments. Where an officer has a conflict of interest, it should be disclosed to the CEO, and the CEO is to disclose to the Council as soon as possible.

Approved Investments

All investment must be denominated in Australian dollars, and where a delegation from Council exists, the CEO and/or delegated officers may invest funds within authorised investment parameters of this policy and legislative requirements. Investment of the Shire funds is limited to:

- Cash / Bank Deposits invested with an authorised deposit-taking institution as defined in the *Banking Act 1959* (Commonwealth) section 5; or
- The Western Australian Treasury Corporation established by the *Western Australian Treasury Corporation Act 1986*.

Prohibited Investments

This policy prohibits any investment carried out for speculative purposes including:

- Derivative based instruments
- Principal only investments or securities that provide potentially nil or negative cash flow; and
- Standalone securities issued that have underlying futures, options, forwards contracts and swaps of any kind.

This policy also prohibits the use of leveraging (borrowing to invest) of an investment.

Risk Management Guidelines

Investments obtained are to comply with the portfolio limits based on the S&P credit ratings.

Overall Portfolio Limits

To control quality on the entire portfolio, the following framework limits the percentage of the portfolio exposed to a particular credit rating category:

S & P Long Term Rating	S & P Short Term Rating	Direct Investment Maximum %	Managed Funds Maximum %
AAA	A-1+	100%	100%
AA	A-1	100%	100%
A	A-2	60%	80%

Reporting and Review

A monthly report must be provided to Council detailing the investment portfolio in terms of performance, percentage exposure of total portfolio, maturity date and changes in market value (if applicable). The report will also detail investment income earned against budget.

Documentary evidence must be held for each investment and details thereof maintained in an investment register. For audit purposes, certificates will be obtained from financial institutions confirming the amounts of investments held on Council's behalf as at 30 June each year and reconciled to the Investment Register.

This policy should be reviewed if there is a marked change in the economic landscape affecting financial markets and interests and / or if there are state or federal legislative changes affecting the movement and investment of Council funds.

REVIEW

Reviews of this policy are to be undertaken every three years or earlier if required.

RESPONSIBILITY FOR IMPLEMENTATION

The Deputy Chief Executive Officer is responsible for implementing this policy.

1. ETHICS & INTEGRITY

All officers and employees of the Local Government must have regard for the Code of Conduct and shall observe the highest standards of ethics and integrity in undertaking purchasing activity and act in an honest and professional manner that supports the standing of the Local Government.

The following principles, standards and behaviours must be observed and enforced through all stages of the purchasing process to ensure the fair and equitable treatment of all parties:

Value for money is an overarching principle governing purchasing that is the difference between the total benefit derived from a good or a service against its total cost, when assessed over the period the goods or services are to be used.

An assessment of the best value for money outcome for any purchasing should consider:

- An initial needs assessment to determine the ongoing relevance and necessity for the procurement and mode of delivery.
- All relevant whole-of-life costs and benefits including transaction costs associated with acquisition, delivery, distribution, as well as other costs such as but not limited to holding costs, consumables, deployment, maintenance and disposal.
- The technical merits of the goods or services being offered in terms of compliance with specifications, contractual terms and conditions and any relevant methods of assuring quality.
- Financial sustainability and viability of the supplier(s) to ensure risk of default is as low as possible.

- Competency of supplier(s) to provide the goods and/or services (technical, managerial, compliance).
- A strong element of competition in the allocation of orders or the awarding of contracts. This is achieved by obtaining a sufficient number of competitive quotations wherever practicable.
- Providing opportunities for local businesses within the shire to provide quotations for goods and services wherever possible.
- The safety requirements associated with both the product design and specification offered by suppliers and the evaluation of risk when considering purchasing goods and services from suppliers;
- Purchasing of goods and services from suppliers that demonstrate sustainable benefits and good corporate social responsibility.

3. SUSTAINABLE PROCUREMENT

Sustainable Procurement is defined as the procurement of goods and services that have less environmental and social impacts than competing goods and services.

The Shire is committed to sustainable procurement and where appropriate shall endeavour to design quotations and tenders to provide an advantage to goods, services and/or processes that minimise environmental and negative social impacts. Sustainable considerations must be balanced against value for money outcomes in accordance with the Shire's sustainability objectives.

Practically, sustainable procurement means the Shire shall always endeavour to identify and procure products and services that:

- Demonstrate environmental best practice in energy efficiency and/or consumption which can be demonstrated through suitable rating systems and eco-labelling.
- Demonstrate environmental best practice in water efficiency.
- Are environmentally sound in manufacture, use, and disposal with a specific preference for products made using the minimum amount of raw materials from a sustainable resource, that are free of toxic or polluting materials and that consume minimal energy during the production stage.
- Products that can be refurbished, reused, recycled or reclaimed shall be given priority, and those that are designed for ease of recycling, re-manufacture or otherwise to minimise waste.
- For motor vehicles – select vehicles featuring the highest fuel efficiency available, based on vehicle type and where feasible within the designated price range, consider non-combustible engines
- For new buildings and refurbishments – where available use renewable energy technologies.

4. LOCAL SUPPLY

Where the supply of goods or services can be undertaken by a business that has a registered address in the Shire of Wongan-Ballidu or in an adjoining district and it is for the supply of goods and/or services where in the opinion of the Manager (must have delegated purchasing authority) it is not practical to obtain the required quotations as outlined under section 7.4 of this Policy, the Manager may approve the purchase.

5. ABORIGINAL AND TORRES STRAIT ISLANDER BUSINESSES

The Shire is committed to ensuring that all Aboriginal and Torres Strait Islander businesses have full, fair, and reasonable access to procurement opportunities. To achieve better outcomes in attracting, supporting, and procuring Aboriginal and Torres Strait Islander businesses and to increase contracting opportunities, therefore supporting employment and business opportunities for the Aboriginal community, where a value for money assessment of multiple offers has an equal result, then preference will be given to procure goods and/or services from Aboriginal and Torres Strait Islander businesses.

6. DISABILITY ENTERPRISES

The Shire is committed to working toward equity for all community members including people with disability, their family members and carers. The Shire values diversity and believes that supporting participation and inclusion for all makes a stronger, more vibrant community. In recognition of the potential for procurement processes to assist in supporting this vision, the Shire, where practicable, where a value for money assessment of multiple offers has an equal result, then preference will be given to procure goods and/or services from Disability Enterprises and Disability owned or run businesses. Such businesses include Charities and Not for Profits whose core business is providing services for people with a Disability.

7. GENDER EQUALITY

In recognition of the Shire's commitment to promoting workplace gender equality, the Shire, where practicable, will not procure any goods and/or services from employer's listed on the Workplace Gender Equality Agency's Non-Compliant List.

8. PURCHASING REQUIREMENTS

8.2 PURCHASING VALUE DEFINITION

Determining purchasing value is to be based on the following considerations:

- Exclusive of Goods and Services Tax (GST).
- The actual or expected value of the contract over the full contract period, including all options to extend, or the extent to which it could be reasonable expected that the Shire will continue to purchase a particular category of good and/or service and what total value is or could be reasonably expected to be purchased.
- If a purchasing threshold would be reached within three years for a particular contract for procurement, then the purchasing requirement under the relevant threshold (including the tender threshold) would need to be considered.

8.3 PURCHASING FROM EXISTING CONTRACTS

Where the Shire has an existing contract in place, it must ensure that goods and services required are purchased under these contracts to the extent that the scope of the contract allows.

8.4 PURCHASING THRESHOLDS

The below table prescribes the purchasing process to be complied with based on each purchasing value bracket, and this includes contracts that are to deliver goods and/or services over an extended period.

8.5 SOLE SOURCE OF SUPPLY

The procurement of goods and/or services available from only one private sector source of supply, (i.e. manufacturer, supplier or agency) is permitted without the need to call competitive quotations provided that there must genuinely be only one source of supply. Every endeavour to find alternative sources must be made. Written confirmation of this must be kept on file for later audit.

Once determined, the justification for a sole source of supply must be endorsed by the Chief Executive Officer or Manager, prior to a contract being entered into, or a purchase order raised.

Note: The application of provision "sole source of supply" should only occur in limited cases and procurement experience indicates that generally more than one supplier is able to provide the requirements.

8.6 TENDERING EXEMPTIONS

The Shire limits the discretion from the requirements to call for public tenders as provided under Regulation 11(2) of the *Local Government (Functions and General) Regulations 1996*, to the values of \$250,000. Accordingly, tenders do not have to be publicly invited for contracts over \$250,000 if the following exemptions can be evidenced:

- The supply of the goods or services is to be obtained from expenditure authorised in an emergency under section 6.8(1)(c) of the *Local Government Act 1995*; or
- The supply of goods or services is associated with a state of emergency or a COVID-19 declaration; or
- The supply of the goods or services is to be obtained through the WALGA Preferred Supplier Program; or
- The supply of the goods or services is to be obtained through the State Government Common Use Arrangement (CUA); or
- The supply of the goods or services is to be obtained from a Regional Council or another Local Government; or
- The purchase is from a pre-qualified supplier under a Panel established by the Shire; or

- Any of the other exclusions under Regulation 11(2) of the *Local Government (Functions and General) Regulations 1996* apply.

8.7 QUOTATION EXEMPTIONS

The Shire limits the discretion from the requirement to call for quotations to all purchasing threshold (excluding over \$250,000) for the following goods/services:

- Subscriptions;
- Association and professional memberships;
- Conferences, seminars and training programs;
- Government gazette advertising (regulatory requirement – local government act section 3.12);
- Government rates;
- Non-contestable utility services;
- Banking fees and costs;
- Insurance premiums with LGISWA;
- Proprietary consumables, parts and maintenance for existing equipment where there is no substitute or warranty is voided if a substitute is used;

8.8 ACCEPTING TENDERS/QUOTATIONS

For any tenders publicly invited as per Regulation 11(1) of the *Local Government (Functions and General) Regulations 1996*, an agenda item will be presented to Council to seek formal approval of accepting the tender and awarding the contract for goods and services.

In all other cases, either whereby the value is under \$250,000 or whereby an exemption to public tender was evidenced as per Regulation 11(2) of the *Local Government (Functions and General) Regulations 1996*, the local government employee(s) can accept the quotation and award contracts for goods and services. Notwithstanding that the individual employee delegated purchasing authority limits still apply. The expenditure must also be authorised through the annual budget or approved in accordance with section 6.8(1) of the *Local Government Act 1995*.

8.9 TENDER PROCESS

The Shire of Wongan-Ballidu shall comply with the complete tender process, as legislated through Regulations 14 to 24 of the *Local Government (Functions and General) Regulations 1996*.

9.0 ANTI-AVOIDANCE

The Shire of Wongan-Ballidu shall not enter two or more contracts of a similar nature for the purpose of splitting the value of the contracts to take the value of consideration below the level of \$250,000, thereby avoiding the need to publicly tender.

10.1 VARIATIONS TO SCOPE OF GOODS OR SERVICES REQUIRED PRIOR TO ENTERING CONTRACT

As per Regulation 20 of the *Local Government (Functions and General) Regulations 1996*:

- (1) If, after it has invited tenders for the supply of goods or services and chosen a successful tenderer but before it has entered into a contract for the supply of the goods or services required, the local government wishes to make a minor variation in the goods or services required, it may, without again inviting tenders, enter into a contract with the chosen tenderer for the supply of the varied requirement subject to such variations in the tender as may be agreed with the tenderer.
- (2) If –
 - a. The chosen tenderer is unable or unwilling to enter into a contract to supply the varied requirement; or
 - b. The local government and the chosen tenderer cannot agree on any other variation to be included in the contract as a result of the varied requirement,

That the tenderer ceases to be the chosen tenderer and the local government may, instead of again inviting tenders, choose the tenderer, if any, whose tender the local government considered it would be the next most advantageous to it to accept.

- (3) In subregulation (1) –
Minor variation means a variation that the local government is satisfied is minor having regard to the total goods or services that tenderers were invited to supply.

10.2 VARIATIONS TO AWARDED CONTRACTS FOR THE SUPPLY OF GOODS AND SERVICES

As per Regulation 21A of the *Local Government (Functions and General) Regulations 1996*:

If a local government has entered into a contract for the supply of goods or services with a successful tenderer, the contract must not be varied unless –

- (a) The variation is necessary in order for the goods or services to be supplied and does not change the scope of the contract; or
- (b) The variation is a renewal or extension of the term of the contract as described in regulation 11(2)(j), (ja) or (jb).

10.3 COST VARIATIONS

Contract variations that would result in the procurement of additional goods or services where the value of those additional goods or services would exceed the initial contract price by more than 10% to a maximum of \$50,000 may, in exceptional circumstances, be approved by the Chief Executive Officer, subject to the variation not being contrary to the requirements of clause 10.2 above, and the reasons for the variation being documented and registered as a corporate record.

When approving an invoice for payment, if the amount of the invoice exceeds the amount of the corresponding purchase order for the goods or services by more than 10% to a maximum of \$50,000, payment of the invoice is to be authorised by the Chief Executive Officer.

11.0 RECORDS MANAGEMENT

Records of all purchasing activity must be retained in compliance with the *State Records Act 2000* (WA), the Shire's Recordkeeping Policy and associated procurement procedures.

OBJECTIVE

The purpose of this policy is to outline the Shire of Wongan-Ballidu's process for efficient and effective management of outstanding Rates and Sundry Debtor Accounts.

POLICY SCOPE

The Shire of Wongan-Ballidu will exercise its debt recovery powers, as outlined in Part 6 of the Local Government Act 1995, in order to reduce the overall debt burden on ratepayers. It will be guided by the principles of:

- ensuring that debt collection procedures are carried out in a fair and equitable manner;
- making the processes used to recover outstanding debt clear, simple to administer and cost effective;
- transparency by making clear the obligations of its ratepayers and sundry debtors to the processes used by Council in ensuring that they meet their financial obligations;
- equity by having regard to providing the same treatment for ratepayers and sundry debtors with similar circumstances;
- flexibility by responding where necessary to changes in the local economy;
- ensuring the Shire of Wongan-Ballidu is compliant with all regulatory obligations;
- promoting effective governance and definition of roles and responsibilities;
- upholding recognition from the public and industry for the Shire of Wongan-Ballidu practices that withstand probity.

Definitions

Debtor an individual, organisation or other party that transacts with the Shire where goods or services are provided, use of facilities are made available, fines and license fees are levied and any other transaction that results in an expected future payment to the Shire.

General Procedure Claim (GPC) means the claim lodged with the Magistrates Court where the value of the claim or the relief claimed does not exceed \$75,000.

Property Seizure and Sale Order (PSSO) is a court order that authorises a bailiff to seize and sell as much of the judgment debtor's real or personal property as necessary to satisfy the judgment debt wholly or partially.

Financial Hardship A person in a situation of vulnerability may have low income or, as a result of their circumstances, be experiencing a financial shock, leading to difficulties in paying rates by the due date. This can take the form of 'payment difficulties' or 'financial hardship'.

POLICY

1. Recovery of Sundry Debtor Accounts

The recovery of outstanding sundry debtors will be collected in a fair and timely manner. Sundry debts are due for payments 21 days from date of issue. The process for sundry debt collection is as follows:

- (a) Sundry debtors will be issued an invoice as soon as possible after the amount is known, providing 21-day payment terms.
- (b) Statements will be issued to all sundry debtors within five (5) working days of the start of each month, as a reminder for all outstanding amounts owing to the Shire.
- (c) At the end of each month, invoices that are overdue will be followed up by a phone call and email to the sundry debtor, requesting immediate payment is made.
- (d) If, after 14 days no payment has been received, a statement with final notice of account and a copy of the outstanding invoices will be sent by post to the debtor.
- (e) If, after 7 days no payment has been received, communication will be issued advising that legal action may be taken without further warning should the debt remain outstanding for a further 7 days.

Where the customer fails to pay in full by the expiry of the period defined above, credit may be suspended, or services limited, and legal action may be commenced.

2. Recovery of Rate and Service Charges

The recovery of outstanding rates will be collected in a fair and timely manner. Rate notices are due for payment 35 days from date of issue in accordance with the *Local Government Act 1995*.

Amounts that remain outstanding past the prescribed due date may have interest applied, up to a maximum interest rate as legislated and imposed annually by Council as part of the Annual Budget. Interest is calculated on the number of days from the due date of payment until the day the payment is received by the Shire of Wongan-Ballidu. This includes overdue amounts where the rate payer has elected to pay by an instalment option.

Accounts unpaid by the due date shown on the Rate Notice

Where accounts remain outstanding after the prescribed due date, a Final Notice shall be issued requesting full payment within fourteen (14) days (this to be commenced within two weeks of accounts falling due).

If payment has not been received after the 14-day period prescribed on the Final Notice, the rates debtor will be contacted, and requested to make payment in full.

Accounts that remain outstanding after the above process has been carried out will be issued with a Final Demand Letter requesting full payment within seven (7) days (to be commenced within a week of accounts falling due).

Accounts with eligible persons registered to receive a pensioner or senior rebate under the Rates and Charges (Rebates and Deferments) Act 1992 will not be subjected to the above recovery process, however those accounts with service charges or rates that are unable to be deferred (Seniors) from the previous year will be subject to a communicate requesting payment of overdue charges.

Accounts unpaid after the expiry date shown on the Final Demand

Where amounts remain outstanding after the expiry date shown on the Final Demand and no communication has been entered into, recovery action will commence.

Accounts will be sent to the Shire's debt collection agency for issuance of a Final Demand (Agency Letterhead) with a due date of fourteen (14) days. The demand is to be issued by mail and email (if an email exists). Those accounts with existing action carried over from the previous year will receive a demand from the Shire's solicitors.

Seizure of Rent for Non-Payment of Rates

Where the property owner of a leased or rented property on which Rates and Service Charges are outstanding cannot be located or refuses to settle Rates and Service Charges owed, a Notice may be served on the lessee or tenant under the provisions of Section 6.60 of the Local Government Act 1995 requiring the lessee or tenant to pay to the Shire the rent due that they would otherwise pay under the lease/tenancy agreement as it becomes due, until the amount in arrears has been paid. The Shire will not be liable for the maintenance and repairs of the property whilst seizing the rent from the property owner.

Options to recover rates debt where rates remain unpaid

Under the guidance of the Shire's debt collection service provider, legal action may be undertaken to recover outstanding rates and charges. This action may include General Procedure Claims and Property Seizure and Sale Orders (Goods). Any costs incurred in undertaking legal action in a Court of competent jurisdiction are recoverable from ratepayers under section 6.56 of the Local Government Act 1995.

Options to recover rates debt where rates are in arrears for in excess of three (3) years.

Lodging a Caveat on the Title for Land

If rates and service charges which are due to Council in respect of any rateable land have been unpaid for at least three (3) years a caveat may be registered on the title for the land, under the provisions of Section 6.64 (3) of the Local Government Act 1995. The approval of Council is required before this course of action is undertaken.

Sale of Property

If rates and service charges which are due to Council in respect of any rateable land have been unpaid for at least three (3) years, Council may take possession of the land under the provisions of Section 6.64 of the Local Government Act 1995. The approval of Council is required to be obtained before this course of action is undertaken.

3. Write off Debts

The power to write off debt is contained in the Local Government Act 1995, under section 6.12(1)(c). The local government may write off any amount of money which is owed to the local government. This requires a resolution of Council. All debt write offs will be presented to Council prior to writing the debt off.

4. Financial Hardship

While evidence of hardship will be required, the Shire recognises that not all circumstances are alike. The Shire will consider a range of individual circumstances including, but not limited to, the following situations:

- Recent unemployment or under-employment.
- Sickness or recovery from sickness.
- Low income or loss of income.
- Unanticipated circumstances such as caring for and supporting extended family.

Ratepayers will be required to provide information about their individual circumstances that may be relevant. This includes demonstrating a capacity to make some payment where possible and entering into a formal payment arrangement. The Shire will consider all circumstances, applying the principles of fairness, integrity and confidentiality whilst complying with all statutory responsibilities.

Where a ratepayer meets the Financial Hardship Criteria, payment arrangements will incur a \$0 administration fee and the Shire reserves the right to waive late penalty interest, excluding the late payment interest and Service Charges applicable to the Emergency Services Levy.

The Shire will suspend debt recovery processes whilst negotiating a suitable payment arrangement with a debtor. Where a debtor is unable to make payments in accordance with the agreed payment plan and the debtor advises the Shire and makes an alternative plan before defaulting on the 3rd due payment, then the debt recovery process will continue to be suspended.

5. Payment Arrangements

Payment arrangements are facilitated in accordance with Section 6.49 of The Local Government Act 1995 and will be offered to rate payers in circumstances evident of financial hardship. A payment arrangement must be negotiated to reflect a ratepayer's capacity to repay outstanding rates and contain the details of the agreed repayment schedule.

These payment arrangements will include the following:

1. It is the responsibility of the ratepayer to ensure that the agreed payment amounts are paid on or before the agreed due date.
2. The Shire of Wongan-Ballidu requires full payment of the outstanding rates by the end of the financial year.
3. If a ratepayer requires an extension on this timeframe an end date must be negotiated and approved by the Deputy Chief Executive Officer.

4. The ratepayer will be responsible for informing the Shire of any change in circumstance that jeopardizes the agreed repayment schedule.

For the purpose of recovering rates and service charges, where a ratepayer defaults on more than two repayments, the payment arrangement will become void and be subject to the Shire's debt recovery procedures outlined in this policy.

6. Supplementary Provisions

- a. All costs involved in recovery actions (including legal proceedings) will be charged against the property and deemed recoverable;
- b. At the end of each month, any amount owing less than \$1.00 will be classified as a small balance and subsequently written off;
- c. Overpayments are to be credited against future years rates accounts, ratepayers can only pay up to a maximum of one financial year of rates billing in advance;
- d. Any interim rates that are calculated at less than \$15.00 is not to be charged to the assessment.

RESPONSIBILITY FOR IMPLEMENTATION

The Deputy Chief Executive Officer is responsible for the implementation and operation of this policy.

4.10 Regional Purchasing

Policy Owner	Finance, Audit and Review Committee
Person Responsible	Chief Executive Officer
Date of Adoption	19 February 2004 – Resolution 9.4.1
Date of Last Review	26 October 2022 – Resolution 061022 – No change

OBJECTIVE

The Shire is committed to maximising opportunities for the economic development of business and industry in the Shire.

The Shire has a responsibility to achieve value for money in its procurement of goods and services.

POLICY

Preamble

The Local Government (Functions and General) Regulations 1996 provide opportunity for local government to establish Regional Price Preference.

This policy should be considered and is related to the Purchasing & Procurement policy.

This preference provides the opportunity for local authorities to apply a percentage reduction to tenderers for goods and/or services as follows:

- Up to 10% - where the contract is for goods or services, up to a maximum price reduction of \$50,000;
- Up to 5% - where the contract is for construction (building) services, up to a maximum price reduction of \$50,000; or
- Up to 10% - where the contact is for goods or services (including construction (building) services), up to a maximum price reduction of \$500,000, if the local government is seeking tenders for the provision of those goods and services for the first time, due to those goods or services having been, until then, undertaken by the local government.

Regional Preference can include any area but must include the entire district of the local government and cannot include a part of the Metropolitan Area.

Statement of Intent

The Shire of Wongan-Ballidu intends to utilise this policy to be known as the 'Shire of Wongan- Ballidu Regional Price Preference Policy' for the acquisition of goods and services where deemed possible.

The purpose of this policy is to maximise potential expenditure arising from the Shire of Wongan- Ballidu to the community and to businesses located in the Shire, and in other areas as defined as the region, for the purposes of this policy.

In undertaking the development of this policy, the Shire is attempting to maximize the commercial viability of businesses with its' community and to provide maximum opportunity for the creation of locally or regionally based employment.

The Shire is committed to increasing and promoting a sustainable community. To achieve this, where practical, the Shire will endeavour to support business and industry within the Shire.

Issues

Value for money is an important consideration in the determining of contracts and purchasing of goods and services. Purchasing decisions will be based on the total cost of the product over its serviced life, considering factors such as quality, service standards, timely delivery, local back up, benefits and risk.

Suppliers within the Shire can actively seek business with the Shire by:

- Actively promoting goods and services to the Shire of Wongan-Ballidu;
- Offering competitive prices, the first time;
- Supplying quality goods and services; and
- Seeking information about proposed purchases to be made by the Shire of Wongan-Ballidu.

Where practical, the Shire shall seek to support business and industry within the Shire. The Shire will ensure that businesses and industry within the Shire have every opportunity to bid for and where competitive, supply the required needs. As part of considering value for money decisions, the benefits of purchasing goods and services from local suppliers shall be considered.

In considering a value for money decision, the following considerations will be included when analysing purchasing from local business and industry:

- *Local Government Act 1995* tender regulations;
- National Competition Policy principles;
- *Trade Practices Act*;
- The social and economic impact of major contract decisions on local businesses;
- Possible flow on effect to local businesses;
- The potential for local product demonstrations and references, with consequently reduced risk in the decision-making process;
- More convenient communications and liaison;
- Local backup, spare parts, warranty and quality of servicing;
- Ability of local businesses to meet specified time frame;
- Benefits in attracting more business to the Shire, thereby increasing economic activity;
- Assists in increasing employment in the region;
- Conformity with tender bid requirements; and

- Ability to meet the Shire needs.

The Shire will support and assist local business and industry by:

- Recognising the benefits of purchasing from local business and industry;
- Advertising all tenders and expressions of interest locally; and
- Where requested, provide feedback to unsuccessful tenderers highlighting how bids can be improved to be more competitive.

Definitions

Region A – is to be understood as that area defined as the Shire of Wongan-Ballidu.

Region B – is to be understood as that area as identified by the local authority boundaries of Goomalling, Koorda, Moora, Dalwallinu, Dowerin and Victoria Plains.

Application

Whilst the Local Government (Functions and General) Regulations 1996, provide specific powers for local government to create Regional Preference for tenderers, the Shire has chosen to expand this application to include the provision of as many services as possible, where such services are supplied by regional organisations or individuals. These additional services, supplied direct to the Shire, will be coordinated through the use of short-term contractual arrangements.

This policy will be referred to within the body of this contract and any advertising undertaken seeking expressions of interest for this supply of service, and all suppliers will be made aware of the existence of this policy and the manner in which it will applied.

This policy whilst being used to assess Regional Tendering or supply of goods or services, will not necessarily determine the outcome of any tender or expression of interest. The Shire of Wongan- Ballidu advises that price is to be only one of the factors by which the Shire will assess tenders and expressions of interest as received.

Statement of Policy

In accordance with the Local Government (Functions and General) Regulations 1996, the Shire of Wongan-Ballidu has created a policy to provide Regional Purchasing Preference to regional and local suppliers of goods and services.

This policy has been created to maximise the commercial viability of businesses within its' community and to provide maximum opportunity for the creation of locally or regionally based employment.

This policy will be applied as follows for the provision of all goods and services to the Shire (when so indicated in advertising or contract documentation):

Tenders Region A Only

Regional Preference will be provided to tenderers by assessing the tender from that regional tenderer as if the bids were reduced by: -

Part 1:

- 10% - where the contract is for goods or services, up to a maximum price reduction of \$10,000.
- 5% - where the contract is for construction (building) services, up to a maximum price reduction of \$5,000.
- 10% - where the contract is for goods or services (including construction (building) services), up to a maximum price reduction of \$50,000, if the local government is seeking tenders for the provision of those goods and services for the first time, due to those goods or services having been, until then, undertaken by the local government.

Part 2:

Although goods or services that form a part of a tender submitted by a tenderer (as per definitions on page 2 of this policy) may be:

- Wholly supplied from regional source; or
- Partially supplied from regional sources, and partly supplied from non-regional sources.

Only those goods or services identified in the tender as being from regional sources may be included in the discounted calculations that form part of the assessments of a tender when a regional price preference policy is in operation.

Region B Only

Regional Preference will be provided to tenderers by assessing the tender from that regional tenderer as if the price bids were reduced by: -

Part 1:

- 5% - where the contract is for goods or services, up to a maximum price reduction of \$5,000.

In utilising this Regional Price Preference, the Shire will refer to the existence of this policy and its method of application within the body of any contract or expression of interest documentation and any advertising undertaken seeking expressions of interest.

GOVERNANCE FRAMEWORK

1. Introduction

While good governance doesn't guarantee success, poor governance guarantees failure.
John McKechnie QC, CCC Commissioner

Good governance is about the processes for making and implementing decisions. It is not about making "correct" decisions, but about the best possible process for making those decisions.

Good decision-making processes have a positive effect on various aspects of local government including consultation policies and practices, meeting procedures, service quality processes, elected member and employee conduct, role clarification and good working relationships.

Good governance leads to good management, good performance, good stewardship of public money, good public engagement and ultimately good outcomes for residents and service users. Good governance enables Shire of Wongan-Ballidu to pursue its vision effectively as well as underpinning that vision with mechanisms for control and the management of risk.

This Governance Framework examines the principles and practices of good governance at the Shire of Wongan-Ballidu.

3. Local Government Defined

Local government in Western Australia is established under the Act and is the third sphere of government in Australia. Local government has legislative responsibility for many functions and activities that are relevant to a local community. As the level of government often seen as the 'closest' to the community, local government activities relate to matters that are fundamental to people's lives and impact strongly on their quality of life.

Under section 2.5 of the Act each local government throughout the state is established as a corporate body, with perpetual succession and a Common Seal. It has the legal capacity of a natural person which means that it can sue and be sued. However, the State government may dissolve, suspend or amalgamate local governments and may override Council decisions.

2.5. Local governments created as bodies corporate

- (1) When an area of the State becomes a district, a local government is established for the district.
- (2) The local government is a body corporate with perpetual succession and a common seal.
- (3) The local government has the legal capacity of a natural person.
- (4) The corporate name of the local government is the combination of the district's designation and name.

Example:

City of (*name of district*)

- (5) If the district's name incorporates its designation, the designation is not repeated in the corporate name of the local government.

Example:

district's name : Albany (Town)

corporate name : Town of Albany

- (6) Proceedings may be taken by or against the local government in its corporate name.

A local government consists of a Council – the Shire President and Councillors are the Shire's elected members and form the Council, and an organisation – consisting of the CEO and employees.

In accordance section 2.7 of the Act, Council's role is to govern the local government's affairs and be responsible for the performance of the local government's functions. Council must oversee the allocation of the local government's finances and resources and determine the local government's policies.

The following principles apply:

- Elected Members are able to exercise decision-making authority as a member of Council after they are elected and formally sworn in and when they meet as a Council.
- All lawful decisions are made at Council meetings or through delegations that are formally made by Council to the CEO (or a committee). The CEO can also sub-delegate his/her decision-making authority to other employees.

2.7. Role of council

- (1) The council —
 - (a) governs the local government's affairs; and
 - (b) is responsible for the performance of the local government's functions.
- (2) Without limiting subsection (1), the council is to —
 - (a) oversee the allocation of the local government's finances and resources; and
 - (b) determine the local government's policies.

[Section 2.7 amended: No. 17 of 2009 s. 4.]

The CEO is the only employee appointed by Council and is therefore ultimately accountable to Council. The role of the CEO is detailed in section 5.41 of the Act.

All Shire employees are accountable to the CEO.

5.41 . Functions of CEO

The CEO's functions are to —

- (a) *advise the council in relation to the functions of a local government under this Act and other written laws; and*
- (b) *ensure that advice and information is available to the council so that informed decisions can be made; and*
- (c) *cause council decisions to be implemented; and*
- (d) *manage the day to day operations of the local government; and*
- (e) *liaise with the mayor or president on the local government's affairs and the performance of the local government's functions; and*
- (f) *speak on behalf of the local government if the mayor or president agrees; and*
- (g) *be responsible for the employment, management supervision, direction and dismissal of other employees (subject to section 5.37(2) in relation to senior employees); and*
- (h) *ensure that records and documents of the local government are properly kept for the purposes of this Act and any other written law; and*
- (i) *perform any other function specified or delegated by the local government or imposed under this Act or any other written law as a function to be performed by the CEO*

3.1 Functions of Local Government

In order to understand good governance in the context of local government, it is necessary to understand the functions of local government, including the following:

Strategic Planning

Planning for the development and wellbeing of the community is a critical role for a local government. The Act requires local governments to develop and adopt a “plan for the future”, consisting of two key documents - Strategic Community Plan and Corporate Business Plan – which are informed by resourcing and delivery strategies such as the Long-Term Financial Plan, the Workforce Plan and Asset Management Plan. These plans drive the development of the local government’s annual budget and provide the direction for the ongoing management of Shire activities.

Lawmaking and enforcement

Local government makes decisions in areas over which it has legislative authority but cannot duplicate or contradict state or federal law. Laws made by local governments are called local laws and cover such issues as the activities permitted on public land, animal management and use of local government infrastructure. Local laws are enforced by Shire employees.

Local government is also responsible for administering and enforcing state legislation under which it has authority, such as the *Local Government Act 1995*, *Building Act 2011*, *Planning and Development Act 2005*, *Dog Act 1976*, *Cemeteries Act 1986*, *Bush Fires Act 1954*, *Cat Act 2011*, *Caravan Parks and Camping Grounds Act 1995* etc. and associated regulations.

Decisions made by local government must be based on relevant considerations and facts, be procedurally fair and follow the principles of natural justice.

Stewardship of public assets

Effective stewardship of public assets is a key element in ensuring that local government optimises the use of its financial, physical and intellectual resources for the benefit of its residents and ratepayers.

Policy development

An important role of Council is to make policy decisions on behalf of the community, in accordance with its role of providing strategic direction. An essential element of policy making is identifying community needs, setting objectives to meet those needs, establishing priorities between competing needs and allocating appropriate resources. A policy is a decision of Council and sets out agreed views and direction concerning a particular area of responsibility.

Representation

Elected members represent the interests of and are accountable to all electors, which encompasses ratepayers and residents of the Shire.

Advocacy

Local governments have a role advocating on behalf of their community to state and federal levels of government, statutory authorities and private interests whose activities may have an impact on the community.

Service delivery

Local governments must ensure that services are delivered in the most efficient and effective manner. The Act provides a degree of autonomy to local governments to determine policies, in consultation with their community, about the nature and level of services provided. A local government should ensure the equitable delivery of quality services for which it has responsibility.

3.2 Community Defined

When discussed in connection with good governance the term “community” is often used as if it is a homogenous entity and assumes that there is a single community interest, community demand or community need.

The population of the Shire of Wongan-Ballidu consists of a diverse range of communities, for example, the resident community, the business community, the visitor community, the seniors community, youth community, indigenous community etc.

Often these various communities do not share the same aspirations, goals and interests. One of the challenges for local government is how to govern so that different and often competing interests are recognised, addressed and managed.

When “community” is referred to in this Framework, it means all groups, individuals and interests represented within the Shire of Wongan-Ballidu.

4. Governance in Local Government

4.1 Definition of Governance

Whilst the definitions of governance can vary between the public and private sector, CPA Australia in its publication *“Excellence in Governance for Local Government”* defines governance as follows:

“Governance is the process by which decisions are made and implemented; the process by which organisations go about achieving their goals and producing their outputs and the process by which organisations are directed, controlled and held to account. It encompasses authority, accountability, stewardship, leadership, ethics, values and culture within the organisation.”

Excellence in governance occurs when it is underpinned by accountability, integrity and openness. It involves a focus on clarity of roles and responsibilities, robust systems which support both internal and external accountability and public access to decision-making and information" (CPA 2005).

4.2 Good Governance in Local Government

Shire of Wongan-Ballidu plays a key role in leading its community as well as ensuring the delivery of high quality services to its community. Good governance is important for several reasons: it not only gives the local community confidence in its Council, but it also improves the faith that elected members and employees have in their own local government and its decision-making processes.

Characteristics of Good Governance

Accountable

Local government has an obligation to report, explain and be answerable for the consequences of decisions it makes on behalf of the community it represents.

Transparent

The community should be able to follow and understand the decision-making process and the reasons for the decision.

Follows the Rule of The Law

Decisions are consistent with legislation and are within the powers of Council.

Responsive

Local government should always try to serve the needs of the entire community while balancing competing interests in a timely, appropriate and responsive manner.

Equitable and Inclusive

Community members should be satisfied that their interests have been considered with opportunities provided for all to participate.

Effective and Efficient

Includes developing the capacity and capability of elected members to be effective and ensuring employees have the capacity and capability and are provided the opportunity to deliver effectively.

Participatory

Anyone affected by or interested in a decision should have the opportunity to participate in the process for making that decision.

Benefits of Good Governance:

- Promotes community trust and confidence;
- Leads to better decisions for the benefit of the community;
- Encourages elected members and Shire officers to be confident;
- Helps the Shire to meet its legislative responsibilities;
- Supports ethical decision making.

5. Governance Principles

For the purposes of the Shire of Wongan-Ballidu's *Governance Framework*, the principles contained in the '*Excellence in Governance in Local Government*' developed by CPA Australia have been adopted. The principles provide the foundation for good governance and a means for assessing the extent to which good governance is applied at the Shire.

Principle 1 - Culture and Vision

There is a clear **vision** and a *Strategic Community Plan* that is produced through a comprehensive and inclusive process, which is owned by all sectors of the community.

There is a positive **culture** and value system in place that promotes trust, openness and honesty, in which constructive and respectful questioning is encouraged and accountability is clear.

Principle 2 - Roles and Relationships

There is clarity about the roles of local government and there exists a sophisticated approach to defining and implementing these.

There are effective working relationships that are promoted and supported within and between the Shire President, Councillors, Chief Executive Officer and employees.

Principle 3 - Decision-Making and Management

There are effective **decision-making processes** in place that reflect the transparency and accountability which underpin excellence in governance.

There should be robust and transparent **financial management** established and maintained to meet Shire's accountability to its stakeholders, particularly in terms of stewardship of community assets, both now and into the future.

An effective approach to the identification, assessment, monitoring and **management of risks** should be established and maintained.

Effective **delegations** should be implemented and maintained to enable Council to focus on strategic issues.

Principle 4 - Accountability

Local government must account for its activities and have systems and processes that support this **accountability**.

There should be an active **performance management** system in place that enables elected members and the administration to be openly accountable for their performance.

Local governments should establish internal structures that provide for **independent review** of processes and decision-making to assist the Council to meet its accountability to stakeholders.

Consultation should be undertaken that is appropriate to the scope and potential impact of the matter. It should respect the position and opinion of all stakeholders. The outcomes of the consultation should be taken into account when the decision is made and feedback should be provided to those who participated.

6. Principle 1 – Culture and Vision

6.1 Vision

In accordance with section 5.56 of the Act and regulations 19C – 19D of the *Local Government (Administration) Regulations 1996*, the Shire is required to implement an Integrated Planning and Reporting Framework. The Shire of Wongan-Ballidu Plans contain the following:

Vision: Inclusive communities and thriving places, offering a vibrant future for all.

Mission: To provide the foundations for community and business to lead and flourish into the future.

Community Values: We value highly:

- Professionalism
- Empowerment
- Resourcefulness
- Integrity
- Diversity

6.2 Culture

A positive culture promotes openness and honesty, makes accountability and responsibility clear and encourages debate on important issues. It assists the organisation to retain high calibre employees who want to work and participate in the activities of the Shire.

6.2.1 Organisational Values

The following values are characteristic of a positive culture:

Professionalism	<ul style="list-style-type: none"> • We get things done in a timely and thorough manner. • We maintain a positive attitude and demeanour. • We are flexible and cooperative. • We are organised and punctual. • We listen diligently. • We respect the privacy and boundaries of others. • We communicate and share information ineffectively, openly and thoroughly.

6.2.2 Ethical Behaviour and The Code of Conduct

For people to have faith in those who govern and participate in the governance process, they must have trust that governments are acting for the common good. They must believe that governance is characterised by honesty and integrity and that those in government will behave accordingly.

In June 2020, a review of the *Local Government Act 1995* resulted in the introduction of priority reforms under the *Local Government Amendment Act 2019*. On 2 February 2021, as part of these reforms, the *Model Code of Conduct Regulations 2021* were gazetted prescribing a Model Code of Conduct for Council Members, Committee members and candidates, with effect from 3 February 2021.

The purpose of the Model Code is to guide the decisions, actions and behaviours of members, both in council and on council committees, and of candidates running for election as a council member.

The *Shire of Wongan-Ballidu Code of Conduct for Council Members, Committee Members and Candidates 2021* outlines the principles, values and behaviours that the community is entitled to expect of all elected members, committee members and candidates for election. These are to:

- act with reasonable care and diligence
- act with honesty and integrity
- act lawfully
- identify and appropriately manage any conflict of interest
- avoid damage to the reputation of the Shire
- be open and accountable to the public
- base decisions on relevant and factually correct information
- treat others with respect and fairness
- not be impaired by mind affecting substances.

This should be read in conjunction with the *Shire of Wongan-Ballidu Standing Orders Local Laws (2010)*.

Council has adopted policy *5.27 Complaints of alleged breach of the Code of Conduct for Council Members, Committee Members and Candidates* which outlines the Shire's approach to the management of such complaints.

6.2.3 Reporting serious misconduct to the Corruption and Crime Commission

Both elected members and the CEO have a mandatory duty under section 28 of the *Corruption Crime and Misconduct Act 2003* to report to the CCC any reasonable suspicion of serious misconduct on the part of elected members or employees. Serious misconduct is the type of conduct which involves the misuse of an elected member's or employee's position to obtain a financial advantage; bribery and corruption where money or gifts are provided to coerce an elected member or employee to make a decision in a certain way; stealing from the Shire, lying, fraudulent behaviour and other criminal type behaviours.

28. Certain officers obliged to notify serious misconduct

- (1) *This section applies to the following persons —*
- (a) the Parliamentary Commissioner;*
 - (b) the Inspector of Custodial Services;*
 - (c) the principal officer of a notifying authority;*
 - (d) an officer who constitutes a notifying authority.*
- (2) *Subject to subsections (4), (5) and (6), a person to whom this section applies must notify the Commission in writing of any matter —*
- (a) which that person suspects on reasonable grounds concerns or may concern serious misconduct; and*
 - (b) which, in the case of a person referred to in subsection (1)(c) or (d), is of relevance or concern to that person in his or her official capacity.*
- (3) *The Commission must be notified under subsection (2) as soon as is reasonably practicable after the person becomes aware of the matter.*

6.2.4 Comprehensive Induction Programs

The Shire 's positive culture is passed on to new elected members and employees through effective induction programs.

New elected members come from a variety of backgrounds and may not have experience in governance, local government, organisational behaviour or other fields that are relevant to their roles as elected members. Induction should help elected members to operate in the unique environment of local government to produce good outcomes for their communities.

The Shire's induction programs for elected members and employees focus on:

- the differing and complementary roles and functions of elected members and employees
- communication and working relationships between elected members and employees
- decision-making processes
- responsibility, accountability and delegations
- Code of Conduct, including organisational values and culture
- access to information and confidentiality.
- Council shall ensure adequate resources are allocated in each Council Election year in the Shire Budget to provide for external qualified organisation/persons to undertake the formal induction process of Elected Members.

The Shire of Wongan-Ballidu also invests in and actively encourages training for both elected members and employees to assist in the development of skills required to fulfil their roles.

7. Principle 2 – Roles and Relationships

7.1 Roles

An understanding and acceptance of the different roles of Council, the Shire President, Councillors, the Chief Executive Officer and employees, together with strong cooperation between all parties, underpins good governance at the Shire of Wongan-Ballidu. While elected members are responsible for strategy and policy, the administration (Chief Executive Officer and employees) is responsible for advice, implementation and operations. This separation of roles is essential for local governments to govern effectively.

While each element of local government has its own role, each may also have a legitimate interest in the role of the others. For instance, while the management structure is the responsibility of the Chief Executive Officer, elected members will have an interest in the management structure and whether it achieves the Council's goals. While the Chief Executive Officer takes the ultimate decision, an astute Chief Executive Officer will always consult the Council before establishing or making significant changes to the management structure.

Similarly, while policy and strategy are elected members' roles, the Chief Executive Officer and employees should be consulted and offer advice when policy or strategy is being developed.

7.1.1 Shire President

At the Shire of Wongan-Ballidu, Council elects the Shire President by secret ballot immediately after local government elections held every two (2) years.

Section 2.8 of the Act outlines the responsibilities of the Shire President which recognises the role of Shire president to represent the Shire at civic and ceremonial functions and to preside at Council meetings.

2.8. Role of mayor or president

- (3) *The mayor or president —*
- (a) *presides at meetings in accordance with this Act; and*
 - (b) *provides leadership and guidance to the community in the district; and*
 - (c) *carries out civic and ceremonial duties on behalf of the local government; and*
 - (d) *speaks on behalf of the local government; and*
 - (e) *performs such other functions as are given to the mayor or president by this Act or any other written law; and*
 - (f) *liaises with the CEO on the local government's affairs and the performance of its functions.*
- (4) *Section 2.10 applies to a councillor who is also the mayor or president and extends to a mayor or president who is not a councillor.*

A very specific role for the Shire President is to represent and advocate the decisions of Council and speak on behalf of the Shire. The position of Shire President is pre-eminent and when speaking on behalf of the Shire, the Shire President should set aside personal views and articulate the views and decisions of Council.

The Shire places great importance on the role of the Shire President as the Presiding Member of Council to facilitate good decision-making. It is therefore important that the Shire President has a good knowledge of the *Shire of Wongan-Ballidu's Standing Orders Local Law*.

The Shire President's leadership role is very important when it comes to good governance. While the Shire President has no statutory authority over other elected members in such areas as behaviour or adherence to Council policy, the Shire President is to ensure that all elected members are part of the decision-making process and are well and equally informed. The Shire President must reinforce the need for elected members to represent the interests of the whole community, not just the constituents in specific areas or interest groups.

The Shire President should also facilitate good relationships between elected members and the administration and help to create an environment where good communication thrives.

Section 5.34 of the Act states that the Deputy Shire President may perform the functions of the Shire President if that office is vacant or the Shire President is not available or unwilling to perform the functions of Shire President.

5.34. When deputy mayors and deputy presidents can act

If —

- (a) the office of mayor or president is vacant; or
- (b) the mayor or president is not available or is unable or unwilling to perform the functions of the mayor or president,

then the deputy mayor may perform the functions of mayor and the deputy president may perform the functions of president, as the case requires.

7.1.2 Council and Elected Members

As outlined in Part 3 above, Section 2.7 stipulates the role of the Council.

While these powers include responsibility for defining the policy and setting the overall strategic direction of the Shire, Council is not responsible for the day-to-day running of the business of the Shire. Such operational matters are the responsibility of the CHIEF EXECUTIVE OFFICER.

The role of elected members is defined the Act as follows:

2.10. Role of councillors

A councillor —

- (a) represents the interests of electors, ratepayers and residents of the district; and*
- (b) provides leadership and guidance to the community in the district; and*
- (c) facilitates communication between the community and the council; and*
- (d) participates in the local government's decision-making processes at council and committee meetings; and*
- (e) performs such other functions as are given to a councillor by this Act or any other written law.*

Elected members are elected for a four (4) year term at elections held every two (2) years. There is no limit on the number of times they can be re-elected.

Elected members sitting formally as Council make and are accountable for all decisions taken at Council level.

Decisions are made through formal Council meetings.

Individual elected members do not have any powers to make decisions.

7.13 Chief Executive Officer (CEO)

The Chief Executive Officer has a statutory responsibility to manage the organisation through the implementation of the goals and strategies that have been endorsed by Council. The Chief Executive Officer plays a critical role in achieving excellence in governance through the development of a culture that sees Council as the peak decision-making body, supported and advised by the administration.

The Chief Executive Officer's promotion and personal adoption of the Shire's culture and vision set the standards which permeate the whole organisation.

A key accountability of the Chief Executive Officer is financial management: ensuring that the Shire is soundly managed from a financial perspective and regularly reporting the results and performance to Council.

The functions of the Chief Executive Officer are outlined in section 5.4.1 of the Act:

5.41. Functions of CEO

The CEO's functions are to —

- (a) advise the council in relation to the functions of a local government under this Act and other written laws; and*
- (b) ensure that advice and information is available to the council so that informed decisions can be made; and*
- (c) cause council decisions to be implemented; and*
- (d) manage the day to day operations of the local government; and*
- (e) liaise with the mayor or president on the local government's affairs and the performance of the local government's functions; and*
- (f) speak on behalf of the local government if the mayor or president agrees; and*
- (g) be responsible for the employment, management supervision, direction and dismissal of other employees (subject to section 5.37(2) in relation to senior employees); and*
- (h) ensure that records and documents of the local government are properly kept for the purposes of this Act and any other written law; and*
- (i) perform any other function specified or delegated by the local government or imposed under this Act or any written law as a function to be performed by the CEO.*

7.2 Working Relationships

Effective working relationships are an important part of good governance and decision-making and should be promoted and supported within and between Shire President, Councillors, Chief Executive Officer and employees. At times, the very nature of local government business leads to conflict. How this conflict is addressed has implications for good governance and should be underpinned by principles of respect, courtesy and goodwill.

7.2.1 Relationship between Shire President and Councillors

The important aspects of this relationship are summarised as follows:

- the relationship needs to be based on mutual respect;
- the Shire President should facilitate an inclusive approach to decision-making and involvement in Council activities, ensuring that each elected member has access to the same information prior to making their decision;
- the Shire President should assist Councillors to have their issues considered by Council;
- the Shire President should take some responsibility for elected member training and development and should work with the CHIEF EXECUTIVE OFFICER (CEO) to ensure that elected members receive appropriate training opportunities; and
- the Shire President is responsible for facilitating resolution of any conflict between elected

members.

7.2.2 Relationship between Shire President and Chief Executive Officer

The Shire President as leader of the Council, and the Chief Executive Officer as leader of the administration, are required to work closely together, often dealing with pressing and potentially controversial issues, when they may not have known each other before they were drawn together to lead the Shire.

The Act requires each to liaise with the other on the Council's activities and its performance. However, the relationship between both roles is much more complicated than this, involving an inevitable intersection of roles.

The essential principles for an effective Shire President / Chief Executive Officer relationship are:

Communication

- Both parties brief and inform the other about information each is privy to and which would assist the other in their job. Agreement about what information is important and what should be passed on to each other is well understood and constantly negotiated.
- Regular meetings and electronic communications, as well as meetings called to progress unexpected and important matters, will enhance planning and communication.
- The "no surprises" principle ensures that neither the Shire President nor the Chief Executive Officer is caught off guard in any circumstance.

Role clarity

- The Shire President and Chief Executive Officer understand and respect one another's role.
- The Shire President and Chief Executive Officer work within the bounds of their authority. The Shire President has status and leadership capacity at Council and in the district. The CHIEF EXECUTIVE OFFICER (CEO) has statutory authority under the Act and leadership of the Shire workforce.

Effective relationship

- The relationship is symbiotic. The Shire President and the Chief Executive Officer put conscientious effort into making the relationship successful for the good of the Shire.
- The relationship between the Shire President and the Chief Executive Officer aims to facilitate involvement and inclusion amongst elected members and administration rather than concentrating power in the relationship.

At Shire of Wongan-Ballidu, the Shire President and Chief Executive Officer communicate on a regular basis, at least monthly but more frequently depending on emerging issues, either in person, by phone or email.

7.2.3 Relationship between elected members

Elected members need each other to achieve their individual and collective goals. Effective relationships between elected members help to promote a successful Council, a pleasant working environment and a Council with public credibility.

Features of an effective relationship are:

- While they may have different views, elected members treat each other with respect and courtesy.
- Disagreements are expressed in ways that are not personal attacks and do not cause detriment to individual elected members or Council as a whole.
- Elected members are not to undermine each other, either within the Shire or in public.
- Elected members have effective working relationships in order to succeed individually and collectively.

7.2.4 Relationship between elected members and Chief Executive Officer

The relationship between elected members and Chief Executive Officer is critical to good governance.

Elected members need support to manage pressures in such a way that their constituents feel their issues or concerns are being heard but appreciate that their demands cannot always be met. Advice and support on consultation and engagement, good systems that refer complaints and queries to the relevant area for resolution, and responsive services and processes all assist in furthering good governance.

Elected members must have a clear understanding that the role of the Chief Executive Officer is to implement Council's goals, policies, strategies and services and to advise and support Council.

The Chief Executive Officer is accountable to elected members when they sit as Council. Elected members, sitting as Council, are responsible for the performance management of the Chief Executive Officer.

Features of an effective relationship are as follows:

- goodwill and trust
- a good understanding of each other's role
- good communication
- agreed processes and protocols
- an appreciation of legislative requirements
- clear delegations.

7.2.5 Relationship between elected members and employees

The fundamental role difference between Council and the administration underpins this relationship. Elected members should focus on strategy, policy and outcomes, while the administration's role is to

focus on advice, implementation and operations.

In light of these role differences, the features of an effective relationship are highlighted below:

- the role of elected members is one of strategic leadership, not management or administration;
- the Chief Executive Officer is responsible for implementing the decisions and policies of Council;
- employees are responsible to the Chief Executive Officer and the Chief Executive Officer is responsible to Council;
- elected members do not direct or instruct employees;
- elected members do not undertake a task that contributes to the administration of the Shire, unless the activities are undertaken in relation to a meeting or the express authority of Council or the Chief Executive Officer has been obtained prior to undertaking the task;
- elected members undertake their day-to-day communications with the Shire directly through the Chief Executive Officer, unless the Chief Executive Officer has established a protocol for communications on particular matters to occur directly with specified employees;
- when entering a Shire business location, elected members seek approval from the Chief Executive Officer before engaging in discussion with employees; and
- an employee undertakes direct communication with an elected member only when the employee is acting within the functions and responsibilities of their position or is acting under the direction of the Chief Executive Officer.

8. Principle 3 – Decision-Making and Management

8.1 Effective Decision-Making

Decision-making is the most important activity undertaken by the Shire, both by Council and by employees. Effective decision-making processes increase the likelihood that the decisions themselves will be in the best interests of the entire community.

Good processes will also mean that decisions will be owned and that individual elected members, even though they may be on the losing side of an issue, should not be able to find fault with the way in which the decision was made.

Good decision-making requires that:

- decisions must be those which the local government can lawfully make;
- decisions must be consistent with and in accordance with legislation;
- relevant Council policy/policies should be considered during the decision-making process;
- elected members should have all the relevant information before them in order to make a considered and informed decision;
- elected members should be impartial, objective, free from bias and act in the public interest of Shire residents;
- decisions should be made on a reasonable basis.

Decisions made at meetings are recorded in the form of resolutions which are binding on the Council until they are formally amended or repealed. Resolutions, once recorded, take effect immediately.

8.2 Decision-Making Meetings and Processes

8.2.1 Council Meetings

The Council meeting is the formal debating and decision-making forum of Council. Elected members, Chief Executive Officer and Managers attend all Council meetings. Under section 5.23(1) of the Act, Council meetings are required to be open to the public.

5.23. Meetings generally open to public

- (1) Subject to subsection (2), the following are to be open to members of the public—
- (a) all council meetings; and
 - (b) all meetings of any committee to which a local government power or duty has been delegated.

However, when any of the matters listed in section 5.23(2) of the Act are to be considered, Council may resolve to close the meeting and proceed behind closed doors. In order to promote the transparency and accountability required for good governance, the closure of meetings should be applied prudently and as infrequently as possible.

5.23

- (2) *If a meeting is being held by a council or by a committee referred to in subsection (1)(b), the council or committee may close to members of the public the meeting, or part of the meeting, if the meeting or the part of the meeting deals with any of the following—*
- (a) a matter affecting an employee or employees; and*
 - (b) the personal affairs of any person; and*
 - (c) a contract entered into, or which may be entered into, by the local government and which relates to a matter to be discussed at the meeting; and*
 - (d) legal advice obtained, or which may be obtained, by the local government and which relates to a matter to be discussed at the meeting; and*
 - (e) a matter that if disclosed, would reveal —*
 - (i) a trade secret; or*
 - (ii) information that has a commercial value to a person; or*
 - (iii) information about the business, professional, commercial or financial affairs of a person,*
where the trade secret or information is held by, or is about, a person other than the local government; and
 - (f) a matter that if disclosed, could be reasonably expected to —*
 - (i) impair the effectiveness of any lawful method or procedure for preventing, detecting, investigating or dealing with any contravention or possible contravention of the law; or*
 - (ii) endanger the security of the local government's property; or*
 - (iii) prejudice the maintenance or enforcement of a lawful measure for protecting public safety;*
- and*
- (g) information which is the subject of a direction given under section 23(1a) of the Parliamentary Commissioner Act 1971; and*
 - (h) such other matters as may be prescribed.*
- (3) *A decision to close a meeting or part of a meeting and the reason for the decision are to be recorded in the minutes of the meeting.*

Examples of matters that may require the meeting to be closed to the public:

- Chief Executive Officer annual performance reviews, contract renewals, remuneration reviews, (s.5.23(2)(a)) a matter affecting an employee or employees);
- Reports discussing legal advice obtained or to be obtained in relation to the subject of the report (s.5.23(2)(d)) legal advice obtained, or which may be obtained, by the local government and which relates to a matter to be discussed at the meeting);
- Nomination of elected members eligible for WALGA Honours (s.5.23(2)(b)) the personal

affairs of any person);

- Planning reports that could affect the value of neighbouring properties (s.5.23(2)(e)(ii)) a matter that if disclosed would reveal information that has a commercial value to a person).

Good decision-making at a Council meeting is enhanced when the meeting is well run. This requires a clear and informative agenda, good chairing and facilitation and adherence to meeting procedures and to statutory requirements. It is the fundamental statutory obligation and duty of an elected member to vote on every item of business discussed at a Council meeting.

At Council meetings and where Council has granted a Committee delegated authority, Council can make a decision or pass a resolution.

Council has adopted the *Standing Orders Local Law (2010)* which provides a set of enforceable meeting procedures and rules to –

- ensure better decision-making processes during Council and committee meetings;
- assist in the orderly conduct of meetings dealing with Council business;
- provide a better understanding of the process of conducting meetings; and
- allow a more effective and efficient use of time at meetings.

Shire of Wongan-Ballidu Council meetings are not livestreamed or recorded. The written agenda and minutes can be accessed from the Shire website a few days after each Council meeting.

8.2.2 Council Meeting Schedule

Council operates the following monthly meeting cycle:

- fourth Wednesday of the month: ordinary council meeting;
- third Friday of the month: agenda is released
- Councillors may submit requests for further information or clarification to Chief Executive Officer

In December, the Ordinary Council Meeting is held on the third Wednesday with the Councillor request for more information moves forward accordingly.

No Ordinary Council meeting is held in January.

8.23 Councillor Requests for More Information or Clarification

For proper decision making, Councillors must have the opportunity to fully understand any issue that is being presented for decision. While officers' reports should contain all of the relevant information, the complexity of some issues means that Councillors need to be given the opportunity to ask questions, request information and seek further clarity regarding an agenda item.

Councillors are at liberty to submit written requests to Chief Executive Officer for further information or clarification of an agenda item prior to the Ordinary Council Meeting.

8.24 Council Forum/Workshop

Council forums provide an opportunity for two-way communication between elected members and the Chief Executive Officer on strategic or complex issues. Forums are open to all elected members, the Chief Executive Officer, Managers and other employees designated by the Chief Executive Officer as required. No decisions are made at Forums, which are relatively informal and are not open to the public.

At Council Forums elected members and staff can propose, discuss, and formulate philosophies, ideas, strategies and concepts for the development of the Shire.

Forums often involve projects that are in the early planning stage and are some time away from being presented to Council for decision.

Matters listed on the agenda of the Council meeting are not to be discussed during a Council Forum.

In discussing such issues, employees are looking for guidance from elected members to assist in researching the matter and drafting the report. Elected members and employees are also looking to present ideas and concepts for future consideration.

Council forums are held every fourth Wednesday of each month directly after the Ordinary Council Meeting.

Council workshops are held as and when required as agreed between Chief Executive Officer and Elected Members.

8.25 Committee Meetings

To assist with its decision-making responsibilities, Council may establish committees in accordance with section 5.8 of the Act. When Council establishes a committee, it must determine in clear terms of reference the purpose, reporting and other accountability requirements that will apply in relation to that committee. Committees report to Council and are subject to the requirements of the Act.

5.8. Establishment of committees

A local government may establish committees of 3 or more persons to assist the council and to exercise the powers and discharge the duties of the local government that can be delegated to committees.*

** Absolute majority required.*

Current committees of Council are listed below:

- Audit and Risk Committee (a requirement under section 7.1A of the *Local Government Act 1995*)
- Bush Fire Advisory Committee (as described under section 67 of the *Bush Fires Act 1954*)
- Local Emergency Management Committee (a requirement under section 38 of the *Emergency Management Act 2005*)
- The Regional Road Group (RRG) – Wheatbelt North Moora Subgroup
- Doctors Agreement Committee
- Works and Services Committee
- Sports Ground Management Agreement Committee

Committees meet as and when required and make recommendations to Council. However, where a committee has delegated authority for some of its functions, it is able to make a decision in its own right:

Note: Council has not delegated any authority to any Committee.

8.26 Council Representatives to Government/Local Government Organisations

Following local elections Council is required to renominate representatives to each of the organisations and committees that it has representation on.

These organisations and groups include:

Innovation Central Midlands Incorporated

An organisation formed by the Shires of Dalwallinu, Moora and Wongan-Ballidu for the purpose of Economic Development. Its members are made up of Councillors and/or community members who may provide expertise and guidance in local government. Usually one or two Councillors may be appointed from each Shire.

Avon Midland Zone of The Western Australia Local Government Association

The WA Local Government Association (WALGA) is the peak industry body for Local Government in Western Australia, advocating on behalf of WA's 139 Local Governments. WALGA is not a government department or agency.

The WALGA governance structure comprises of the State Council and Zones. Zones are groups of geographically aligned Member Councils who are responsible for direct elections of State Councillors, providing input into policy formulation and providing advice on various matters.

The Avon-Midland Country Zone of WALGA represents the Shires of Chittering, Dalwallinu, Dandaragan, Gingin, Goomalling, Moora, Northam, Toodyay, Victoria Plains, Wongan-Ballidu and York.

The nominated Councillors attend Zone meetings which are held quarterly.

Regional Road Group – Wheatbelt North Subgroup

There are 10 Regional Road Groups (RRG) in WA, established under the State Road Funds to Local Government Agreement which is overseen by a State Advisory Committee (SAC). The RRGs make recommendations to the SAC regarding the Annual Local Government Roads Program for their Region and any other relevant issues.

The RRGs are comprised of elected representatives from each Local Government within the road group. Most groups are supported by a sub-group or technical committee comprised of Local Government staff. Administrative support is provided by Main Roads WA. RRGs importantly provide Local Government with a voice in how the State Government's contribution to local roads is spent. RRG members serve a vital and valuable role in ensuring road funding decisions maximise community benefits and preserve and improve the public road network across Western Australia.

Council nominates two elected members as representatives to Regional Road Group – Wheatbelt Subgroup.

8.27 Agendas and Minutes

The most important records produced by a local government are the agendas that drive council meetings and the minutes that record the decision-making process and the actual decisions.

Matters to be considered at meetings of Council or Committees are presented in a formal agenda prepared by the Chief Executive Officer.

Agendas comprise of reports prepared by officers. Reports are structured to include information on the background, financial, strategic, legislative, policy, risk and workforce implications of the proposal under consideration. All reports include the professional advice of the officer who has authored the report and contain recommendations as to the most appropriate course of action to take, based on the information presented.

Managers are responsible for authorising the reports from their department. Once finalised, all reports are reviewed by the Chief Executive Officer. The Chief Executive Officer should be satisfied and confident that all aspects of the matter which is the subject of a report have been suitably covered in such a way that the report can be included in the agenda and released to elected members and the public.

The agenda and supporting documents are distributed five (5) days before the Council meeting date. Distribution includes posting on Shires' website, emailing to elected members and Executive Team, emailing to registered members of public and display at Administration Building, Ballidu and Cadoux.

The minutes of a meeting comprise all reports considered at the meeting and also include attendance, all motions, movers and seconders, the results of the motions and the decisions that have been made.

5.33. Decisions made at electors' meetings

(1) All decisions made at an electors' meeting are to be considered at the next ordinary council meeting or, if that is not practicable —

(a) at the first ordinary council meeting after that meeting; or

(b) at a special meeting called for that purpose, whichever happens first. (2) If at a meeting of the council a local government makes a decision in response to a decision made at an electors' meeting, the reasons for the decision are to be recorded in the minutes of the council meeting.

Unconfirmed Ordinary Council Minutes must be made available for public inspection no later than ten working days after the meeting (five working days for committee meeting minutes). At the next meeting of Council or a committee these minutes will be confirmed as a correct and accurate record of the proceedings. Minutes may be amended to correct any identified inaccuracy prior to being confirmed.

8.28 Information Bulletin

An Information Bulletin is to be distributed to Elected Members of Council prior to the Ordinary Council Meeting. The information bulletin will contain:

1. Chief Executive Officers Report
2. Council Calendar - Ordinary Council Meetings, Compliance Deadlines and Council Events.
3. Policy Review Timetable
4. Finance and Administration - Deputy Chief Executive Officer Report
5. Regulatory Services - Manager of Regulatory Service Report
6. Works and Services – Manager of Works and Services
7. Community Services – Manager of Community Services

8.29 Elected Members' Meeting Preparation

Preparation before attending a meeting is critical: all reports should be read thoroughly, and the main points well understood. If anything is not clear, the elected member may seek further clarification and raise any concerns with the Chief Executive Officer or the responsible Manager, preferably well in advance of a meeting. Asking questions of a complex or technical nature at a Council meeting is to be avoided, as employees present may not be able to respond adequately off the cuff, there is a risk of a factually incorrect answer being given or the question may have to be taken on notice.

Reports affecting Shire planning, finance or legal matters can be quite complex and clarification of points prior to the meeting is essential. The Chief Executive Officer or relevant Manager should be emailed at the earliest opportunity to enable a written reply to be provided in advance of the meeting. This reply will be provided to all elected members, not just to the enquiring elected member.

The decision to adopt, amend or reject a recommendation rest with Council. Where a Council decision is different to the recommendation, reasons for that decision must be stated and recorded in the minutes in accordance with Local Government Act 1995 Administration Regulation 11(da)

A decision to defer a matter should be seen as a last resort and occur only where it is clear that additional information is required or where circumstances have come to light after the agenda was distributed. A failure to consult with the community or key stakeholders may also give cause to defer a matter.

8.3 Local Government Rules of Conduct

The Local Government (Rules of Conduct) Regulations 2007 (Rules of Conduct) provide a disciplinary framework to deal with individual misconduct by Elected Members. The Rules of Conduct provide a mechanism to take action against individual Elected Members where they do not comply with the 'rules' or they contravene particular laws applying to them in legislation.

The Rules of Conduct prescribe uniform rules of conduct for Elected Members in relation to:

- Standards of general behaviour
- Use of confidential information
- Securing personal advantage of advantaging/disadvantaging others
- Misuse of local government resources
- Prohibition against involvement with the organisation
- Relations with employees
- Disclosing interests that may affect impartiality
- Receipt and disclosure of gifts of a prescribed value

The Rules of Conduct do not limit the provisions within the Shire's Code of Conduct, however, the Rules of Conduct, the Regulations as well as the Shire's Local Law relating to meeting procedures are enforceable and disciplinary action can be taken for any breach.

8.4 Decisions on Land Use Planning and Development

8.4.1 Quasi-Judicial Role

Quasi-judicial functions are those which involve the making of a decision by Council in the exercise of a discretionary power. Elected members (and employees when acting under delegated authority) perform quasi-judicial functions when deciding to approve or refuse applications for planning or development approval and for other approvals, licences, consents and permits. They must therefore act in a judicial manner ("judge-like").

To act in a quasi-judicial manner, elected members must apply the principles of natural justice and without bias or conflict of interest make decisions in a judicial manner based on:

- The law and the relevant Shire policies as they exist, specifically the Shire's Local Planning Scheme and Planning Policies; and
- The facts and merits of the case.

Applicants submitting documents for approval may attempt to persuade individual elected members in favour of their proposals; however elected members must remain objective and deal impartially with applicants or affected persons.

Determining applications must be based on sound legislative rationale and not on specific public perception. The role of an elected member in the decision-making process is to determine the application on the information and recommendation provided by the Shire's employees. The role of the employee is to assess the application and provide an impartial, professional opinion and recommendation to elected members. To avoid prejudicing the eventual decision, elected members must not make up their minds about a development application until they have read the employee's report, clearly understood the relevant facts and law, and heard all the meeting debate.

Elected members must not lose sight of the fact that when making decisions on development applications they have to apply the rules and discretions as they exist, not as they might want them to be.

Elected members must be aware of the Shire's adopted procedures for dealing with a development application to ensure a clear distinction between the role of the employee assessing the application and the role of Council determining the application. There should be no opportunity for the two roles to be confused and no opportunity for those determining applications to unduly influence those carrying out the assessment and viceversa.

An elected member acting when biased and without disclosing an interest affecting impartiality may breach the Rules of Conduct Regulations. Non-compliance with quasi-judicial principles could result in Council decisions being invalidated.

8.4.2 Conflict of Interest

Conflict of interest is about being transparent. Understanding what this means in the context of local government is essential to good governance.

The Act defines the specific circumstances that lead to a conflict of interest and describes what elected members and employees must do if they believe there is a conflict. This includes direct and indirect interests, disclosure requirements, exemptions, provision of advice and registers of interest.

8.4.3 Conflict of Interest in Local Government

Elected members and employees should always be aware of the potential for conflict of interest. They have been entrusted to govern on behalf of the community and as such they must ensure that they do not gain personal benefit from their position with the Shire.

If they have personal interests in any of the decisions that they are part of, they must declare their interests and withdraw, if necessary, from the decision-making process. It is very important for elected members and employees to understand and adhere to the legislative requirements (sections 5.59 to 5.73 of the Act).

8.4.4 Good Governance and Conflict of Interest

The following points are important for good governance.

Individuals must make their own decisions.

Elected members and employees must individually take responsibility for assessing whether they have conflicts of interest in any matter relating to their formal roles. If the answer is yes, then they must act appropriately. This includes making a proper disclosure and not participating in the relevant decision-making process.

Seeking advice is appropriate.

Elected members and employees should seek assistance or advice from the CHEIF EXECUTIVE OFFICER (CEO), Shire President or fellow elected members when they think they may have a conflict of interest. In some circumstances elected members may need to obtain their own independent legal advice.

Individuals are accountable.

Elected members or employees must ultimately assess whether they have a conflict of interest. Each elected member or employee is accountable for that assessment and the obligation to make the relevant declaration. This is regardless of any assistance or advice they may have received.

Conflict of interest is not a political weapon.

Elected members should not use conflict of interest as a weapon against each other. No elected member can determine that another elected member has a conflict of interest. That is for the individual alone to decide. Using conflict of interest inappropriately compromises its importance as a principle of good conduct and natural justice.

8.4.5 Conflict of Interest and Community Representation

Sometimes elected members will be in a position where they are required to declare a conflict of interest even though their community expects them to participate in a decision. For example, an elected member may have a conflict of interest in a local planning decision which the community feels strongly about.

Because conflict of interest can impact on governance and perceptions of governance, it is important that –

- elected members ensure they thoroughly analyse the situation (and seek appropriate advice) to determine what is required by the legislation;
- elected members clearly explain the situation to their community; and
- Council and administration provide support to elected members, when required, to explain conflict of interest requirements to the community.

Elected members should not, however, hide behind conflict of interest as a way of avoiding a vote on difficult issues in which they don't have a conflict.

8.4.6 Protection from Liability

Elected members, unlike state and federal members of parliament do not have parliamentary privilege. An elected member can be subject to civil action by a person who considers that the elected member has defamed them or has acted in a way that improperly harms them, whether this occurs in the council chamber or not.

Section 9.56 of the Act protects elected members, committee members and employees for any actions that they have, in good faith, done in the performance or purported performance of a function under the Act or under any other written law. This however does not relieve the Shire of liability for the actions of elected members, committee members and employees.

Elected members should be careful, especially in the heat of a Council debate, not to make defamatory statements which could give rise to a civil action.

If an elected member is subject to civil action, they will have to deal with the matter as an individual, even if the Shire is paying the legal costs. In some cases, the Shire's insurers may refuse to provide indemnity for the elected member's actions or statement if it is considered not to have occurred in the course of performing a council duty or to be done in good faith.

For further guidance, please refer to Shire's policy [5.28 – Legal Representation Costs Indemnification](#).

8.4.7 Decisions by Delegation

Delegations form part of the Shire's decision-making approach. Delegations entrust certain types of decisions to the Chief Executive Officer. The Chief Executive Officer may on-delegate certain types of decisions to officers. Delegates exercise the delegated decision-making function in their own right; in other words, they have discretionary decision-making powers.

The use of delegated authority means that a large volume of routine work can be effectively managed and acted on promptly, which in turn facilitates efficient service delivery to the community. Delegated authority allows Council to concentrate on policy development, representation, strategic planning and community leadership.

The Shire's Delegations Register contains all current delegations from Council to the Chief Executive Officer and committees and from the Chief Executive Officer to employees. It sets out unequivocally which statutory power and functions are delegated, which part of the legislation allows such delegation and what the conditions and policy compliance requirements are.

Section 5.43 of the Act outlines those powers or duties that may not be delegated to the Chief Executive Officer (CEO). The Shire's Delegations Register is reviewed by Council on an annual basis.

5.43. Limits on delegations to CEO 28

A local government cannot delegate to a CEO any of the following powers or duties —

- (a) any power or duty that requires a decision of an absolute majority of the council;*
- (b) accepting a tender which exceeds an amount determined by the local government for the purpose of this paragraph;*
- (c) appointing an auditor;*
- (d) acquiring or disposing of any property valued at an amount exceeding an amount determined by the local government for the purpose of this paragraph;*
- (e) any of the local government's powers under section 5.98, 5.98A, 5.99, 5.99A or 5.100;*
- (f) borrowing money on behalf of the local government;*
- (g) hearing or determining an objection of a kind referred to in section 9.5;*
- (ha) the power under section 9.49A(4) to authorise a person to sign documents on behalf of the local government;*
- (h) any power or duty that requires the approval of the Minister or the Governor;*
- (i) such other powers or duties as may be prescribed.*

8.5 Financial Management

8.5.1 Role of The Chief Executive Officer

The Chief Executive Officer is accountable to Council for the financial performance of the Shire and must ensure that certain fundamentals are in place, including but not limited to:

- appropriate financial systems, plans, strategies and protocols;
- adequate resources to support the Shire's activities and financial monitoring and performance;
- suitable internal review and audit mechanisms;
- an organisational culture where responsibility and accountability are clearly delineated and understood; and
- adherence to and compliance with legislative provisions.

8.5.2 Financial Management Planning and Principles

Council is ultimately responsible for the financial management of the Shire. Good financial management requires both Council and the administration to play their role.

As part of the Integrated Planning Framework, the Shire has developed its Long Term Financial Plan (LTFP). The Plan is consistent with the strategic initiatives in the Strategic Community Plan (SCP) and includes:

- projected income and expenditure, balance sheet and cash flow statements;
- planning assumptions underlying the plan;
- an analysis of the factors and/or assumptions that are most likely to affect the plan;
- modelling for alternative financial scenarios; and
- methods of monitoring financial performance.

The Plan outlines the Shire's approach to delivering infrastructure and services to the community in a financially sustainable way that minimises the financial impact on the Shire's ratepayers. It is the primary planning tool for future Shire budgets.

8.5.3 Annual Budget

One of the responsibilities of Council under section 6.2 of the Act is to prepare, set and adopt the Shire's Annual Budget. Based on the leadership of Council, it determines the Shire's priorities for the year ahead and the allocation of resources to achieve those priorities.

The annual budget must be reviewed before 31 March each year, taking into account changes in the operating environment since the beginning of the financial year with a view to forecasting the financial impacts likely to arise for the remainder of the year.

6.2. Local government to prepare annual budget

(1) During the period from 1 June in a financial year to 31 August in the next financial year, or such extended time as the Minister allows, each local government is to prepare and adopt, in the form and manner prescribed, a budget for its municipal fund for the financial year ending on the 30 June next following that 31 August.*

** Absolute majority required.*

(2) In the preparation of the annual budget the local government is to have regard to the contents of the plan for the future of the district made in accordance with section 5.56 and to prepare a detailed estimate for the current year of $\frac{3}{4}$

(a) the expenditure by the local government;

(b) the revenue and income, independent of general rates, of the local government; and

(c) the amount required to make up the deficiency, if any, shown by comparing the estimated expenditure with the estimated revenue and income.

8.5.4 Other Management Plans

Asset Management Plans provide strategic direction in the management of Shire assets. Good governance requires the Shire to manage its assets in a financially viable, efficient and sustainable manner.

The **Workforce Management Plan** was developed to provide a strategic framework for organisational workforce planning and management. It guides the Shire in attracting and retaining a suitable, committed and professional labour force that is structured to achieve the priorities of the Strategic Community Plan and to deliver quality services to the community.

The **Recordkeeping Plan** sets out the matters about which records are to be created and how the Shire must keep and maintain its records in accordance with the *State Records Act 2000*. It applies to elected members, employees and contractors.

The **Risk Management Policy and Procedure** contains practical guidelines to develop the Shire's capacity to appropriately manage risk. Risk management is critical to the organisation's ability to achieve the strategic objectives contained in its Strategic Community Plan and Corporate Business Plan. By fostering a dynamic risk management culture that encourages all employees to systematically apply the procedures outlined in this framework, the Shire seeks to minimise resource waste and ensure that all Shire events, activities and projects are undertaken with properly managed risk to employees and the general community.

Principle 4 - Accountability

9.1 Accountability

Excellence in governance is based on the principle that those who are involved in governance, both elected members and employees, are held to account for what they do, the decisions they make and their performance in undertaking their role. The public trust that elected members and officers act in the public interest.

Accountability systems that provide disclosure and review of decision-making processes are integral to good governance and are reflected through –

- Open and transparent government, so that the community can follow decision making processes and outcomes;
- Consultation and engagement, so that the community has confidence that it is being heard; and
- Good communication processes so that the community is kept informed.

The fundamental importance of accountability though comes from the fact that the Shire exists to govern for and on behalf of its community. Systems and values must reflect this accountability. Key systems are outlined in the following sections.

9.1.1 Performance Management

Council is accountable for monitoring the Shire's performance in the achievement of its strategic direction, goals and financial outcomes, which are set through the Strategic Community Plan, Corporate Business Plan, Long Term Financial Plan and Annual Budget.

Managing and reporting the Shire's performance is achieved in several ways.

9.1.2 Strategic Reporting

Key performance indicators, derived from the Strategic Community Plan, help drive the Corporate Business Plan. The Shire's Corporate Planning System captures all Corporate Business Plan projects.

Performance against each of the Strategic Themes in the Strategic Community Plan is reported in the Annual Report.

9.1.3 Financial Reporting

The Shire undertakes its financial reporting as follows:

- The monthly Financial Activity Statement and List of Payments are prepared and presented to Council; and
- The audited Annual Financial Report is considered by the Audit and Risk Committee before being submitted to Council for adoption and inclusion in the Annual Report.

9.1.4 Annual Report

The Shire's *Annual Report* provides detailed information to the community and the Shire's stakeholders about how the Shire intends to operate in a sustainable manner whilst addressing the many challenges it faces. The report reviews the Shire's key achievements and progress made against the many initiatives outlined in the Strategic Community Plan. The Annual Report is reviewed by elected members at a workshop before being adopted by Council for presentation to the electors of the Shire at the Annual Electors' Meeting.

9.1.5 Chief Executive Officer Performance Review

Council is accountable for managing the Chief Executive Officer's performance and is responsible for setting the Chief Executive Officer's performance plan and monitoring the Chief Executive Officer's performance. Council is to communicate its expectations to the Chief Executive Officer's and is required to seek independent professional advice when undertaking the annual performance evaluation of the Chief Executive Officer's.

9.1.6 Employee Performance Review

In accordance with the Act the performance of all employees must be reviewed at least once a year.

5.38. Annual review of employees' performance

- (1) *A local government must review the performance of the CEO if the CEO is employed for a term of more than 1 year.*
- (2) *The CEO must ensure that the performance of each other employee who is employed for more than 1 year is reviewed.*
- (3) *A review under subsection (1) or (2) must be conducted at least once in relation to each year of the person's employment.*

Individual performance reviews and identification of development needs are formally carried out in August each year. The process involves a review of progress against the previous year's targets and plans the setting of new ones for the coming year.

During each performance review, recommendations for training and development programs to either complement existing skills or to develop new skills will be made. In addition, staff will have performance indicators set during the first few months of employment to monitor progress against goals and objectives.

Council has adopted policy *5.25 Model Standards for Chief Executive Officer (CEO) Recruitment and Selection, Performance and Termination*.

9.1.7 Compliance Audit Return

The CAR is completed by the Deputy Chief Executive Officer with input from the Executive Management Group. The completed return is then reviewed by the Audit and Risk Committee and presented for adoption by Council. A certified copy must be forwarded to the Department no later than 31 March of each year.

9.1.8 Audit and Risk Committee

The Act requires Council to establish an Audit Committee to guide and assist Council on matters of internal and external audit, risk management and the Shire's compliance functions. The Shire's Audit and Risk Committee meets regularly and in accordance with Regulation 16 of *Local Government (Audit) Regulations 1996*.

Council and Elected Member Self-Assessment

10.1 Council Self-Assessment and Evaluation

To assess whether the governance principles are being enacted, a self-assessment tool has been included in the Governance Framework. The questionnaire was originally developed by WALGA for use by the WALGA State Council. It is intended that the results are used to develop action plans to improve governance performance.

The self-assessment aims to:

- assess what level of performance has been achieved in the period under review;
- assist in the development of a better understanding of individual Elected Member performance and the Council's objectives;
- focus on strategic goals;
- assist in the developing of a better understanding of performance orientated relationships;
- develop an action plan for improvement;
- encourage a program of ongoing personal and professional development for Elected Members.

The self-assessment tool has two components, being:

1. The Council Self-Assessment
2. Elected Member Self-Assessment.

Elected Members as a group should complete the Council Self-Assessment annually in September/October and the results used to assess the Council's performance as a whole against the governance principles. This should assist the Council in developing an action plan to improve performance (including the ongoing training and development program for Council).

The Elected Member Self-Assessment should also be completed by individual Elected Members to provide an assessment of that individual's contribution to good governance and assist in the development of an individualised training and development program.

Person Responsible	Chief Executive Officer
Date of Adoption	28 April 2021 – Resolution 050421
Date of Last Review	24 July 2024 – Resolution 040724 new attachments

PURPOSE

The purpose of the Model Code is to guide the decisions, actions and behaviours of Elected Members, both in Council and on Council committees, and of candidates running for election as an Elected Member. One of the key changes to the *Local Government (Model Code of Conduct) Regulations 2021* is their application to individuals who have nominated as a candidate in a local government election, as they are also required to demonstrate professional and ethical behaviour during their election campaign.

BACKGROUND

An outline of the amendments to the Act and the new regulations and actions required by Council are set out below:

To enable the Shire to be compliant with the legislation changes and be able to process complaints made under Division 3 of the Model Code of Conduct the Shire must:

- appoint a person to receive and withdraw complaints and
- approve a form for complaints to be lodged.

The form that is proposed to be used (Attachment) has been created using a template provided by the Department of Local Government, Sport and Cultural Industries.

Local Government (Model Code of Conduct) Regulations 2021

On 3rd February 2021, the Local Government (Model Code of Conduct) Regulations 2021 introduced a mandatory code of conduct for Elected Members, committee members and candidates. The Local Government (Model Code of Conduct) Regulations 2021 repeals and replaces the Local Government (Rules of Conduct) Regulations 2007 and also replaces the previous statutory requirement to develop and implement an individual code of conduct for Elected Members and committee members.

The Local Government (Model Code of Conduct) Regulations 2021 are now in effect and Elected Members and Committee Members should familiarise themselves with the principles, behaviours and complaints required to be managed by Council and the rules of conduct, contraventions of which are considered by the independent Local Government Standards Panel (Standards Panel) where appropriate.

Further information and guidelines are available on the DLGSC website.

One of the key changes to the Local Government (Model Code of Conduct) Regulations 2021 is their application to individuals who have nominated as a candidate in a local government election, as they are also required to demonstrate professional and ethical behaviour during their election campaign.

Overview of Division

This Division sets out standards to be observed by the local government in relation to the recruitment of CEOs.

Application of Division

Except as provided in subclause (2), this Division applies to any recruitment and selection process carried out by the local government for the employment of a person in the position of CEO.

This Division does not apply —

- if it is proposed that the position of CEO be filled by a person in a class prescribed for the purposes of section 5.36(5A) of the Act; or
- in relation to a renewal of the CEO's contract of employment, except in the circumstances referred to in clause 13(2).

Determination of selection criteria and approval of job description form

The local government must determine the selection criteria for the position of CEO, based on the local government's consideration of the knowledge, experience, qualifications and skills necessary to effectively perform the duties and responsibilities of the position of CEO of the local government.

The local government must, by resolution of an absolute majority of the council, approve a job description form for the position of CEO which sets out —

- the duties and responsibilities of the position; and
- the selection criteria for the position determined in accordance with subclause (1).

Advertising requirements

If clause 13 applies, the local government must advertise the position of CEO in the manner referred to in the *Local Government (Administration) Regulations 1996* regulation 18A as if the position was vacant.

Establishment of selection panel for employment of CEO

In this clause —

- a council member;
- an employee of the local government;
- a human resources consultant engaged by the local government.

The local government must establish a selection panel to conduct the recruitment and selection process for the employment of a person in the position of CEO.

The selection panel must comprise —

- council members (the number of which must be determined by the local government); and
- at least 1 independent person.

Recommendation by selection panel

Each applicant's knowledge, experience, qualifications and skills must be assessed against the selection criteria by or on behalf of the selection panel.

Following the assessment referred to in subclause (1), the selection panel must provide to the local government —

- a summary of the selection panel's assessment of each applicant; and
- unless subclause (3) applies, the selection panel's recommendation as to which applicant or applicants are suitable to be employed in the position of CEO.

If the selection panel considers that none of the applicants are suitable to be employed in the position of CEO, the selection panel must recommend to the local government —

- assessed the applicant as having demonstrated that the applicant's knowledge, experience, qualifications and skills meet the selection criteria; and
- verified any academic, or other tertiary level, qualifications the applicant claims to hold; and
- whether by contacting referees provided by the applicant or making any other inquiries the selection panel considers appropriate, verified the applicant's character, work history, skills, performance and any other claims made by the applicant.

The local government must have regard to, but is not bound to accept, a recommendation made by the selection panel under this clause.

Application of cl. 5 where new process carried out

This clause applies if the local government accepts a recommendation by the selection panel under clause 9(3)(a) that a new recruitment and selection process for the position of CEO be carried out in accordance with these standards.

Unless the local government considers that changes should be made to the duties and responsibilities of the position or the selection criteria —

- clause 5 does not apply to the new recruitment and selection process; and

- the incumbent CEO has notified the local government that they wish to have their contract of employment renewed upon its expiry.

Before the expiry of the incumbent CEO's contract of employment, the local government must carry out a recruitment and selection process in accordance with these standards to select a person to be employed in the position of CEO after the expiry of the incumbent CEO's contract of employment.

This clause does not prevent the incumbent CEO's contract of employment from being renewed upon its expiry if the incumbent CEO is selected in the recruitment and selection process referred to in subclause (3) to be employed in the position of CEO.

Confidentiality of information

The local government must ensure that information provided to, or obtained by, the local government in the course of a recruitment and selection process for the position of CEO is not disclosed, or made use of, except for the purpose of, or in connection with, that recruitment and selection process.

- iii. decide that the alleged breach has occurred and resolve to adopt an action plan.

6. Written Notice

The Complaints Officer must give the complainant, and the person about whom the complaint was made a written notice of the finding and the reasons for the finding and a copy of Council's decision including any reasons for the decision that were not part of the Council report.

8. Follow up and Further Action

The Complaints Officer is responsible for monitoring the actions and timeframes set out in the action plan adopted by Council.

Where a Member, Committee Member or Candidate does not undertake the actions required by the Council following a breach of the Code, they would be breaking the rule of conduct, which is considered a minor breach, as defined in the Act.

INTRODUCTION

This policy is designed to protect the interests of Elected Member and Shire Officers (including past Members and former Shire Officers) where they become involved in legal proceedings due to their official functions.

s.9.56 of the *Local Government Act 1995* (the Act) provides protection from actions of tort for anything an Elected Member or Shire Officer has, in good faith, done in the performance or purported performance of a function under the Act or under any other written law.

s.3.1 of the Act provides that the general function of a local government is to provide for the good government of persons in its district.

s.6.7(2) provides that money held in the municipal fund may be applied towards the performance of the functions and the exercise of the powers conferred on the local government by the Act or any other written law. Under these provisions, a Council can expend funds to provide legal representation for Members and Shire Officers, as long as it believes that the expenditure falls within the scope of the local government's function.

OBJECTIVE

To provide transparency where Council makes a determination as to whether assistance will be given to Members or Shire Officers with legal costs and other liabilities.

The Shire's approval to pay legal representation costs incurred by an individual Councillor or Shire Officer will rely on the determination that it is reasonably concluded that the expenditure provides for the good governance of the district.

This policy does not apply to legal advice and representation that is obtained by the Shire in the normal course of fulfilling the functions and exercising the powers of a local government.

SCOPE

This policy applies to Council and the Shire; providing guidelines regarding any financial assistance that may be provided by Council or the Shire in making determinations as to whether assistance will be provided to Members and/or Shire Officers for legal representation, including costs and other liabilities.

This policy will:

- clarify what issues Council will offer financial assistance for; and
- ensure that all requests for financial assistance are treated equitably.

5.31- Risk Management

Policy Owner	Audit and Risk Committee Office of CEO
Person Responsible	Chief Executive Officer
Date of Adoption	23 August 2023
Date of Last Review	21 August 2024

PURPOSE

The purpose of this Policy is to state the Shire of Wongan-Ballidu's (Shire's) intention to identify potential risks before they occur, so that impacts can be minimised or opportunities realised; ensuring that the Shire achieves its strategic and corporate objectives efficiently, effectively and within good corporate governance principles. The Policy outlines the Shire's risk management approach and the risk management responsibilities of Council and Administration to ensure that all strategic and operational activities are undertaken in accordance with best practices as per AS/NZS ISO 31000:2018.

OBJECTIVES

The objectives of this Policy are to:

- Provide transparent oversight of risks to enable effective decision making;
- Provide guidance on acceptable risk versus return associated with the Shire's projects, services and programs;
- Embed appropriate and effective controls to manage risk; and
- Ensure that the Shire adheres to its statutory and regulatory obligations.

RESPONSIBILITY FOR IMPLEMENTATION

The Chief Executive Officer is responsible for overseeing the implementation and ensuring organisational adherence to this Policy.

KEY POLICY DEFINITIONS

Risk: The effect of uncertainty on objectives.

Note 1: An effect is a deviation from the expected – positive or negative.

Note 2: Objectives can have different aspects (such as financial, health and safety and environmental goals) and can apply at different levels (such as strategic, organisation-wide, project, product or process).

Risk Management: Coordinated activities to direct and control an organisation with regard to risk.

Risk Management Process: Systematic application of management policies, procedures and

practices to the activities of communicating, consulting, establishing the context, and identifying, analysing, evaluating, treating, monitoring and reviewing risk.

POLICY

The Shire will develop and implement effective risk management systems and processes, as further defined in the Shire's Risk Management Procedure, that:

- Optimises the achievement of the Shire's values, strategies, goals and objectives.
- Aligns with and assists the implementation of Shire Policies.
- Provides transparent and formal oversight of the risk and control environment, enabling effective decision-making.
- Reflects risk versus return considerations within the Shire's risk appetite.
- Embeds appropriate and effective controls to mitigate risk.
- Achieves effective corporate governance and adherence to relevant statutory, regulatory and compliance obligations.
- Enhances organisational resilience.
- Identifies and provides for the continuity of critical operations.

ROLES AND RESPONSIBILITIES

The CEO is responsible for:

- Implementation of this Policy.
- Measurement and reporting on the performance of risk management.
- Review and improvement of this Policy and the Shire's risk management framework at least biennially, or in response to a material event or change in circumstances.

The Shire's risk management framework outlines in detail all roles and responsibilities associated with managing risks within the Shire.

RISK ASSESSMENT AND ACCEPTANCE PROCEDURES

The Shire has quantified its broad risk appetite through the Shire's 'Risk Assessment and Acceptance Criteria' (below). The Criteria are included within the Risk Management Framework and as a component of this Policy.

All organisational risks are to be assessed according to the Shire's Risk Assessment and Acceptance Criteria to allow consistency and informed decision-making.

Whilst these risk criteria are necessarily broad in their guidance, they offer insight to staff about risk areas or activities where Council has set reasonable boundaries.

For operational requirements such as Projects, Events, Work Health and Safety, or in rare instances in which the Shire's Risk Assessment and Acceptance Criteria are unclear in determining a level of risk, alternative risk assessment criteria may be utilised, however these cannot exceed the organisation's risk appetite, and approval for such use must first be obtained from the CEO.

MONITOR & REVIEW

The Shire will implement and integrate a monitor and review process to report on the achievement of risk management objectives, the management of individual risks and the ongoing identification of issues and trends.

This Policy will be kept under review by the Shire's Management Team. It will be formally reviewed triennially.

1. Category One Documents - documents requiring both the CEO and the Shire President to execute

These types of documents will require a specific resolution of Council to enter into an agreement as well as an authority to affix the common seal to that type of document in accordance with s.9.49A (2) of the Act.

The Shire President and CEO will execute documents under the provisions of s.9.49A(3) of the Act.

Documents may be executed by another Shire Officer or an agent of the local government in accordance with s.9.49A(4) provided that there has been authority given by way of a Council Resolution or through an instrument of delegation.

2. Category Two Documents – documents requiring the CEO only to authorise

Under s.9.49A (4) of the Act Council authorises the CEO, listed in the Instrument of Delegation ES2 Execution of Documents, to sign documents and/or deeds on behalf of the Shire.

Documents may be executed by another Shire Officer or an agent of the local government in accordance with s.9.49A(4) provided that there has been authority given by way of a Council Resolution or through an instrument of delegation .

Category 2 documents can be described as documents arising out of a matter that:

- Requires Council approval;
- Arises out of delegated authority from Council; or
- Are operational in nature and due to its significance should only be signed by the CEO, as a delegated representative of the Shire.

The CEO is permitted, through this policy, to execute documents that:

- Have an unlimited \$ value subject to “Budget constraint;”
- Have a commitment period that is specifically resolved by Council or in any other case, no greater than a seven-year period; and/or
- Moderate or lesser level of financial risk, legal complexity or political sensitivity, unless specifically resolved by Council.

3. Category Three Documents - documents within Delegated Authority

Under s.9.49A(4) of the Act Council authorises Delegated Officers, listed in the Instrument of Delegation ES2 Execution of Documents, to sign documents and/or deeds on behalf of the Shire. These Delegated Officers only have authority where the documents are related to their area of responsibility.

Category 3 documents can be described as documents arising out of a matter that:

- Requires Council approval;
- Arises out of delegated authority from Council; or
- Are operational in nature and due to its significance should only be signed by a Senior Employee as defined in the Act.

The positions and document execution limits are to be in: Are to the value of \$250,000 or less;

- On delegation Authority Register
- Have a commitment no greater than a five-year period; and/or
- Moderate or lesser level of financial risk, legal complexity or political sensitivity.

4. Category Four Documents - documents operational in nature.

These types of documents will include correspondence relating to day-to-day routine communications or transactions related to the operations of the Shire. They will include documents that are created in the normal course of business to discharge the duties of an Officer's position in a manner consistent with Shire policies and procedures.

Category 4 documents do not require specific authorisation through Council as they are subject of s.5.41(d) of the Act which provides that it is the function of the CEO to manage the day-to-day operations of the Shire. Shire Officers undertake such duties "acting through" another person, in accordance with s.5.45 of the Act.

Category 4 documents are to be executed by the CEO, a Manager, or a Shire Officer where the authority and accountability has been extended through an authorisation, policy, procedure, or a position description.

It is therefore important to have a good knowledge of the documents that relate to the team that is responsible for the document.

Shire Officers, with the relevant authority are permitted, through this policy, to execute documents that:

Person Responsible	Chief Executive Officer
Date of Adoption	23 August 2023 Resolution 090823 New Policy
Date of Last Review	

OBJECTIVES

To ensure that the Shire of Wongan-Ballidu (the Shire) complies with legislative requirements.

BACKGROUND

A fundamental principle of good public administration is that public officials comply with both the letter and the spirit of the law.

The Shire has an obligation to ensure that legislative requirements are complied with. The community and those working at the Shire have an expectation that the Shire will comply with applicable legislation and that the Shire will take all appropriate measures to ensure that expectation is met.

Regulation 14 of the Local Government (Audit) Regulations 1996 requires local governments to carry out a compliance audit for the period 1 January to 31 December in each year. The Compliance Audit is structured by the Department of Local Government and Communities (DLGC) and relates to key provisions of the Local Government Act 1995.

Regulation 17 of the Local Government (Audit) Regulations 1996 also requires a review of the appropriateness and effectiveness of systems and procedures in relation to legislative compliance at least once every two calendar years and a report to the Audit Committee on the results of that review.

POLICY STATEMENT

The Shire will have appropriate processes and structures in place to ensure that legislative requirements are achievable and are integrated into the operations of the Shire. These processes and structures will aim to:

1. Develop and maintain a system for identifying the legislation that applies to the Shire's activities;
2. Assign responsibilities for ensuring that legislation and regulatory obligations are fully implemented;
3. Provide training for relevant staff, Councillors, volunteers and other relevant people within the legislative requirements that affect them;
4. Provide people with the resources to identify and remain up to date with new legislation;
5. Establish a mechanism for reporting non-compliance;
6. Review accidents, incidents and other situations where there may have been non-compliance; and
7. Review audit reports, incident reports, complaints and other information to assess how the systems of compliance can be improved.

ROLES & RESPONSIBILITIES

1. Councillors & Committee Members

Councillors and Committee Members have a responsibility to be aware of and abide by legislation applicable to their role.

2. Senior Management

Senior Management should ensure that directions relating to compliance are clear and unequivocal and that legal requirements which apply to each activity for which they are responsible are identified.

Senior Management should have systems in place to ensure that all staff are given the opportunity to be kept fully informed, briefed and/or trained about key legal requirements relative to their work within their financial capacity to do so.

3. Employees

Employees have a duty to seek information on legislative requirements applicable to their area of work and to comply with the legislation.

Employees shall report through their supervisors to Senior Management any areas of non-compliance that they become aware of.

4. Implementation of Legislation

The Shire will have procedures in place to ensure that when legislation

changes, steps are taken to ensure that future actions comply with the amended legislation.

LEGISLATIVE COMPLIANCE PROCEDURES

1. Identifying Current legislation

The Shire accesses electronic up to date versions of legislation through the Western Australian State Law Publisher website at www.slp.wa.gov.au.

2. Identifying New or Amended Legislation

Department of Local Government and Communities (DLGC)

The Shire receives regular circulars from the DLGC on any new or amended legislation. Such advice is received and processed through the Shire's Records Department and is distributed to the CEO and other relevant Officers for implementation.

Department of Planning

The Shire receives Planning Bulletins from the Department of Planning on any new or amended legislation. Such advice is received and processed through the Shire's Records Department and is distributed to the CEO and other relevant Officers for implementation.

Western Australian Local Government Association (WALGA)

3. Obtaining Advice on Legislative Provisions

The Shire will obtain advice on matters of legislation and compliance where necessary. Contact can be made with the DLGC, WALGA or the relevant initiating government department for advice.

4. Informing Council of Legislative Changes

If appropriate, the CEO will, on receipt of advice of legislative amendments, advise the Council on new or amended legislation.

The Shire's format for all its reports to Council meetings provides that all reports have a section headed 'Statutory Implications' which shall detail relevant Sections of any Act, Regulation or other relevant and/or applicable legislation.

5. Review of Incidents & Complaints of Non-Compliance

The Shire shall review all incidents and complaints of non-compliance. Such reviews will assess compliance with legislation, standards, policies and procedures that are applicable.

6. Reporting of Non-Compliance

All instances of non-compliance shall be reported immediately to the relevant Manager. The Manager shall then determine the appropriate response and then report the matter to the CEO.

5.37 CEO Performance and Remuneration Review

Policy Owner	Governance
Person Responsible	Chief Executive Officer / Council
Date of Adoption	26 June 2024 - Resolution 050624
Date of Last Review	22 October 2025 - Resolution 141025
Date Next Due for Review	October 2028

OBJECTIVE

Section 5.38 of the *Local Government Act 1995* requires Council to review the performance of the Chief Executive Officer (CEO) at least once each year. Conducting this review is an important function of Council as the CEO is its only employee.

As part of this review, the Council will conduct an annual review of the CEO's remuneration package and Key Performance Indicators (KPIs).

The performance review process is to

- Be objective;
- Be conducted in a fair and reasonable manner based on agreed performance indicators;
- Support and facilitate CEO development; and
- Recognise achievement and support performance improvement.

SCOPE

Application of this Policy is to be in conjunction with all relevant legislation, including the Model Standards for CEO Recruitment, Performance and Termination and the Departmental Guidelines for Local Government CEO Recruitment and Selection, Performance Review and Termination and all other relevant policies, procedures, and processes of the Shire.

The Salaries and Allowances Tribunal (SAT) determines the parameters for local government CEO Total Remuneration Packages, and all components of the CEO's remuneration need to comply with the relevant SAT requirements.

The SAT has classified the Shire of Wongan-Ballidu as a Band 4 local government.

Any changes to the CEO's performance agreement or performance plan, such as changes to the KPIs, must be discussed and agreed by both the Council and the CEO.

This policy also applies to the CEO's probation review.

POLICY

This Policy applies to the annual performance and remuneration review of the Shire of Wongan-Ballidu CEO.

1 Performance Review Process

1. CEO Performance and Remuneration Review Panel

- 1.1 Council is to appoint a CEO Performance and Remuneration Review Panel (the Review Panel) following every local government election.
- 1.2 The Chair of the Review Panel will be the Shire President. The Review Panel will include between three and five elected members (inclusive of the President).
- 1.3 The Council authorises the appointed Review Panel to undertake the CEO Performance and Remuneration Review and report findings and recommendations to the Council.
- 1.4 The primary functions of the Chief Executive Officer Review Panel are to:
 - Support the engagement by the Shire, of an appropriately experienced independent consultant for the purposes facilitating the performance and remuneration review process, in consultation with the CEO.
 - Oversee and conducting the performance and remuneration review process in accordance with this Policy.
 - Endorse the independent consultant's performance appraisal report and a remuneration review recommendation for consideration by Council.
 - Develop the performance agreement and KPIs with the CEO for approval by Council.
 - Meet regularly to discuss and provide feedback if performance issues are identified.
- 1.5. Membership principles and responsibilities of panel members:
 - Be fair, impartial and undertake the process with integrity.
 - Assessment is made free from bias and based on evidence of the CEO's achievements against the agreed performance criteria.
 - Findings and recommendations are impartial and transparent.
 - Any information received or produced by the Review Panel will be kept confidential.
 - The report for the performance and remuneration review to Council will be presented in confidence in accordance with section 5.23 of the Act.
 - Accurate and comprehensive records of the performance management process will be created and registered within the Shire's Electronic Data Record Management System; and

- Manage all records in accordance with the Shire's Record Keeping Plan.
- 1.6 The performance and remuneration review process should commence at least 3 months prior to the required completion date.
 - 1.7 The Review Panel Presiding Member and if applicable, the independent facilitator will coordinate the review process.
 - 1.8 Performance and Remuneration Review Panel Training
 - a. All Council members appointed to the CEO Review Panel must undertake relevant CEO Performance Review training course provided by the Western Australian Local Government Association (WALGA), or similar industry recognised training provider, within six months of appointment to the Review Panel.
 - b. Where external training cannot be sourced within the time frame noted in 1.8(a) above, the Shire will provide in house training to address the processes and skills required for Council members to contribute effectively to the annual appraisal of the CEO.
 - c. The training is valid for five years therefore a re-elected Panel member is only required to undertake the training at every second election.

2. Independent facilitator

- 2.1 In the event that the Panel determines to engage an independent facilitator, the following clauses are applicable to that engagement;
- 2.2 The Shire will engage the Panel supported independent consultant (facilitator) to assist with the process of the CEO performance and remuneration review and the development of a performance agreement (inclusive of KPIs).
- 2.3 The independent consultant will have extensive experience in performance and remuneration reviews of senior executives and local government experience.
- 2.4 The independent consultant should not have any personal interest in, conflict of interest or relationship (other than professional or contractual) with, the Council, the Shire or the CEO. In this policy and for clarity, interest:
 - means an interest that could, or could reasonably be perceived to, adversely affect the impartiality of the person having the interest; and
 - includes an interest arising from kinship, friendship, relationship or membership.
- 2.5 The facilitator may be required to:
 - Collect 360-degree performance evidence (including from all Councillors and direct organisational reports)
 - Write the performance appraisal report
 - Facilitate meetings for the Panel.
 - Assist with the provision of feedback to the CEO

- Formulate plans to support improvement (if necessary)
 - Provide industry/sector remuneration related information to the Panel if requested; and
 - Provide an objective view regarding any performance management-related matters between the concerned parties.
- 2.6 The independent facilitator services must be secured in accordance with the Shire's Purchasing Policy.
- 2.7 Council employees will not be involved in the CEO's performance review, except as part of the 360-degree assessment process or if requested by the Panel or the Council to prepare agendas and take minutes, or to assist the independent facilitator in any relevant administrative matter. Any request will be made through the Chief Executive Officer.

3. Performance criteria

- 3.1 Ongoing permanent performance criteria for the purpose of reviewing the CEO's performance must be as included in the CEO's employment contract [the Act s.5.39(3)].
- 3.2 The Council may agree with the CEO additional performance criteria.
- 3.3 Additional criteria may include performance indicators relating to specific projects, Council priorities and service delivery targets from the Strategic Community Plan and Corporate Business Plan. It is important that these performance indicators relate to the selection criteria used in selecting the CEO (e.g. if the CEO is selected to improve the local government finances, then indicators regarding improved revenue may be appropriate).
- 3.4 The agreement on additional criteria provides flexibility for both the Council and CEO in response to changing circumstances and priorities.
- 3.5 Together the contractual performance criteria and any additional agreed criteria form the Key Performance Indicators (KPI's).
- 3.6 It is important that the agreed KPI's are specific, measurable, achievable, relevant and time based.
- 3.7 The KPI's, how they will be assessed, and any professional development goals of the CEO will form the annual performance agreement between the Council and CEO.
- 3.8 The annual performance agreement must be negotiated, documented and agreed upon by the CEO and the Council. Adjustments may be initiated by either the CEO or the Council throughout the performance review period.

4. Assessment of CEO performance

- 4.1 The CEO's performance is to be measured in an objective manner against the KPI's alone. Reviews must be impartial and not skewed by personal relationships between the Review Panel and the CEO.
- 4.2 Evidence of CEO performance may include:
- Achievement of key business outcomes
 - Interactions with the Council and progress that has been made towards implementing the Council's strategic vision
 - Audit Committee reports
 - Workforce metrics (e.g. the average time to fill vacancies, retention rate, information about why people leave the organisation and staff absence rate)
 - Incident reports (e.g. results of occupational health and safety assessments, the number and nature of occupational health and safety incident reports, and the number and nature of staff grievances)
 - Organisational survey results
 - Relationships (e.g. with relevant organisations, stakeholder groups, and professional networks); or
 - Insights from key stakeholders (by way of survey etc.).
- 4.3 In addition to achievement of the KPI's, as part of the assessment, consideration should also be given to:
- How the CEO has achieved the outcomes. Whether or not their methods are acceptable and sustainable
 - The extent to which current performance is contingent upon current circumstances
 - What the CEO has done to ensure the wellbeing of staff and to maintain trust in the local government.
 - What attention has the CEO given to ensuring:
 - o Equal employment opportunity.
 - o Workplace health and safety.
 - o Privacy.
 - o Managing potential conflicts of interest, and
 - o Complying with procurement process requirements.
- 4.4 It is important that contextual factors, external or otherwise are given appropriate weight. Failure to meet KPI's does not necessarily mean the CEO has performed poorly and, for this reason, performance and outcomes should be considered separately.
- 4.5 Once the CEO's performance has been completed; the review must be endorsed by resolution of an absolute majority of Council and the CEO must be informed in writing of the results of the review.

5. Addressing Performance Issues

- 5.1 Any performance areas that require attention or improvement must be:
- Identified
 - Discussed with the CEO; and
 - A constructive plan agreed and put in place to address the issues.
- 5.2 The plan should outline the actions to be taken, who is responsible for the actions and an agreed timeframe.
- 5.3 Appropriate courses of action in addressing the performance issues may include:
- Professional development courses
 - Training
 - Counselling
 - Mediation
 - Mentoring; or
 - Developing new work routines to ensure specific areas are not neglected.
- 5.4 Regular discussion and ongoing feedback on the identified performance issues should be scheduled to ensure improvements are being made.

6. Misconduct

- 6.1 In the event of any potential wrongdoing (misconduct) or suspected serious misconduct as defined in section 4 of the Corruption Crime and Misconduct Act 2003 are identified, the matter must be referred to the Public Sector Commission or the Corruption and Crime Commission (CCC). This provides an independent process to follow and ensures probity, natural justice and oversight of allegations.

7. Remuneration Review

- 7.1 The Council shall periodically (not less than annually) review the salary for the CEO to assess whether and what increase in salary and allowances are to be made.
- 7.2 The CEO remuneration range is determined by the Salaries and Allowances Tribunal and the remuneration package may not fall outside the band applicable to the Shire of Wongan-Ballidu.
- 7.3 The outcome of the CEO performance review may form part of the considerations for the CEO remuneration review.
- 7.4 The Panel may request the independent facilitator to gather and provide remuneration comparison information to assist in this review process.

8. Further Guidelines

- 8.1 The Council shall refer to relevant publications to guide the review and remuneration process such as the Department of Local Government Sport and Cultural Industries (DLGSC) Guidelines for Local Government CEO Recruitment and Selection, Performance Review and Termination (March 2021).
- 8.2 The Council must also consider legal requirements provided by the Fair Work Commission and the Fair Work Ombudsman.

10.16 Road Naming Within the Shire

Policy Owner	Works Committee
Person Responsible	Chief Executive Officer
Date of Adoption	16 February 2006 Resolution 210206
Date of Last Review	24 March 2021 Resolution 070321

OBJECTIVE

To enable Council to prioritise and determine the allocation of road names to roads that are new or require a new name or named for the first time.

POLICY

The Council will, as a general rule, defer to the guidelines adopted by the Department of Land Information's Geographic Names Committee (**appendix**).

Councils preference, in applying the Geographic Names Committee's guidelines, is to utilise historic surnames of Freeman, Chairman of the Road Board, Shire Presidents and Elected Members, and other worthy community nominated names recommended from time to time, based on the following mutually inclusive principals, in order of priority high to low;

1. Road names should not be duplicated within the Shire;
2. Surnames of Freeman of the Shire;
3. Surnames utilised must be of deceased persons (with the exception of Freeman);
4. Surnames of Chairman / Shire Presidents in priority order of length of service;
5. Surnames of Elected Members in priority order of length of service;
6. Surnames of former pioneers whose property was predominately served by a specific historic road reserve.

The attached of Freeman, Chairman, Shire Presidents and Elected Members serves as the basis for prioritising the selection of names for roads in accordance with the above principles.

Preference where possible will be given to locating the name within the general locality that the individual resided or owned land and if no such Freeman, Chair, President or Elected Member exists that satisfies that criteria then the Council may revert to another suitable name satisfying the general principals of the Geographic Names Committee and based upon the original owners surname of the

property that the particular road predominately or solely served.

Nothing in this policy shall prevent Council from determining the recommendation to the Geographic Naming Committee of an alternative name for a road if Council believes the alternative name selected is more appropriate.

RESPONSIBILITY FOR IMPLEMENTATION

The Chief Executive Officer is responsible for implementation of this policy.

10.26 Vehicle Crossovers

Policy Owner	Works Committee
Person Responsible	Chief Executive Officer
Date of Adoption	16 August 2012 Resolution 080812
Date of Last Review	26 October 2022 Resolution 101022

OBJECTIVE

To specify Council's required Standards on the construction of Crossovers and to administer all matters relating to vehicle crossovers within the district of the Shire of Wongan-Ballidu (the Shire).

POLICY

Rural Crossovers

Council will contribute 50% of the cost of one standard crossover to the main property entrance of each property.

When Council is constructing roads the Manager of Works Committee will liaise with the property owner to include standard crossovers at gateways that are in existence.

Standard Rural Crossover

Width of 6.5metres

Road to the property boundary Gravel surface

Pipes or culvert (if required) Headwalls (if required)

Town site Crossovers

Council will contribute 50% of one standard crossover per lot. Additional costs involved in wider crossovers or additional crossovers to be paid in full by the landowner.

The Manager of Works and Services is to inspect and approve the crossover construction prior to any concrete being poured, pavement sealed, or brick paved.

Crossovers are to be constructed in accordance with Council's specifications (attachment 2) and drawings (CO-01 & CO-02).

Standard Town site Crossover

A standard town site crossover is as stipulated in Council's Standard Crossover Specifications and Standard Crossover Drawings.

A standard town site crossover is deemed to be 3 metres in width, with 1.5 metre wings.

A crossover runs from edge of the road to the property boundary.

General Conditions

Future and ongoing maintenance of the crossover shall be the responsibility of the property owner in accordance with the Local Government (Uniform Local Provisions) Regulations 1996.

Should an applicant require a crossover wider than 3 metres, the Chief Executive Officer is empowered to approve the additional width up to 6 metres subject to consideration being given to location, drainage implications and general aesthetic appeal from other landowners' point of view. Council will only make its contribution towards a 3-metre crossover only.

An application to construct a vehicle crossover is to be made prior to construction.

RESPONSIBILITY FOR IMPLEMENTATION

The Chief Executive Officer is responsible for implementation of this policy.

10.27 Water Crossing on Gazetted Roads

Policy Owner	Works Committee
Person Responsible	Chief Executive Officer
Date of Adoption	17 May 2012 Resolution 060512
Date of Last Review	24 March 2021 Resolution 070321

OBJECTIVE

To ensure that earthworks carried out by landholders does not create water hazards on roads and issues for downstream landowners.

POLICY

It is the responsibility of the landowner to advise the Shire of Wongan-Ballidu of any earthworks near or adjacent to a gazetted road that may contribute in creating water hazard on any part of the gazetted road. Such hazard may be as a result of water being concentrated at a point, or as a result of increased total flow, or a more rapid flow of water.

Where such earthworks are likely to create the need for one or more culverts or floodways to alleviate water hazards, Council will only permit the construction of those earthworks provided:

1. The downstream landowner provides documentation that indicates he or she is willing to accept any water that may cross the road as a result of such earthworks.
2. The upstream landholder agrees to meet all costs associated with the provision of the materials for and the construction of such floodways or culverts, as the Council shall deem necessary;
3. Construction of the culverts or floodways is carried out to an approved design, at the Shire's convenience, and of the landowner, under Shire supervision.

RESPONSIBILITY FOR IMPLEMENTATION

The Chief Executive Officer is responsible for implementation of this policy.

10.28 Lighting Management Policy

Policy Owner	Works Committee
Person Responsible	Chief Executive Officer
Date of Adoption	March 2019
Date of Last Review	26 October 2022 Resolution 101022 No change

OBJECTIVE

The Lighting Management Policy outlines the commitment and objectives regarding management of current and proposed lighting within the Shire as it seeks to develop Astrotourism to diversify the regional economy, grow tourism and create jobs.

BACKGROUND

The inappropriate or excessive use of artificial light is known as light pollution. The International Dark Sky Association (IDA) states that components of light pollution include:

- Skyglow – brightening of the night sky over inhabited areas
- Glare – excessive brightness that causes visual discomfort
- Light trespass – light falling where it is not intended or needed
- Clutter – bright, confusing and excessive groupings of light sources¹

Skyglow impacts the view of the night sky. The International Astronomical Union describes that “wasteful light from artificial sources emitted upward (at horizontal angles and higher) is scattered by aerosols such as clouds and fog or small particulates like pollutants in the atmosphere. This scattering forms a diffuse glow that can be seen from very far away. Skyglow is the most commonly known form of light pollution.”²

Good lighting design principles are important considerations to manage skyglow to enable Astrotourism development.

The Shire acknowledges Astrotourism activities can be of benefit economically and to the wider community. Astrotourism can:

- Increase visitor numbers, overnight stays and visitor spending;
- Diversify and increase employment;
- Increase regional economic development opportunities for Aboriginal Astronomy enterprise, tourism business and private investment in assets such as accommodation;
- Grow community capacity; and
- Raise the awareness within a community to apply for accreditation through the IDA International Dark Sky Places (IDSP) Program, founded in 2001.

POLICY

It is the Shire's policy to implement the following good lighting design principles to maintain and improve the quality of the dark night sky in its efforts to develop Astrotourism within the region.

The principles can be applied to any situation where protection and conservation values of the night sky are important. Application of the principles benefit Astrotourism, astronomy, heritage, human health, safety, energy, wildlife, environment and ecology values.

GOOD LIGHTING DESIGN PRINCIPLES

1. Overview

_____ This part sets out the design principles that must be considered in _____ the preparation, design and assessment of development.

Good lighting design demonstrates adoption of the following principles:

1. Eliminate upward spill light
2. Direct light downwards, not upwards
3. Use shielded fittings
4. Avoid 'over' lighting
5. Switch lights off when not required
6. Use energy efficient bulbs
7. Use asymmetric beams, where floodlights are used
8. Ensure lights are not directed towards reflective surfaces
9. Use warm white colours

2. ³The Design Principles

Principle 1 Eliminate upward spill light

Spill light is light that falls outside the area that is intended to be lit. Spill light from the internal and external lighting of a development can cause glare and wastes energy. Spill light above the horizontal plane contributes directly to artificial skyglow.

All light fittings should be located, aimed or shielded to avoid lighting unintended areas, especially above the horizontal plane of the light fitting (see Figure 1). Light can be prevented from shining above the horizontal plane by:

- installing light fittings with an opaque cover and flat glass, mounted horizontally on both axes, or
- mounting the light under part of a building like an awning, verandah or roof, so that light is blocked from shining above the horizontal plane, and
- designing buildings to internalise light and prevent it from escaping into the night sky.

³ Perth has the highest daily average number of bright sunshine hours in Australia. Its long-term annual average of sunshine is 8.8 hours a day (<http://www.bom.gov.au/wat/sunshine/>)

Figure 1 Common aspects of light pollution

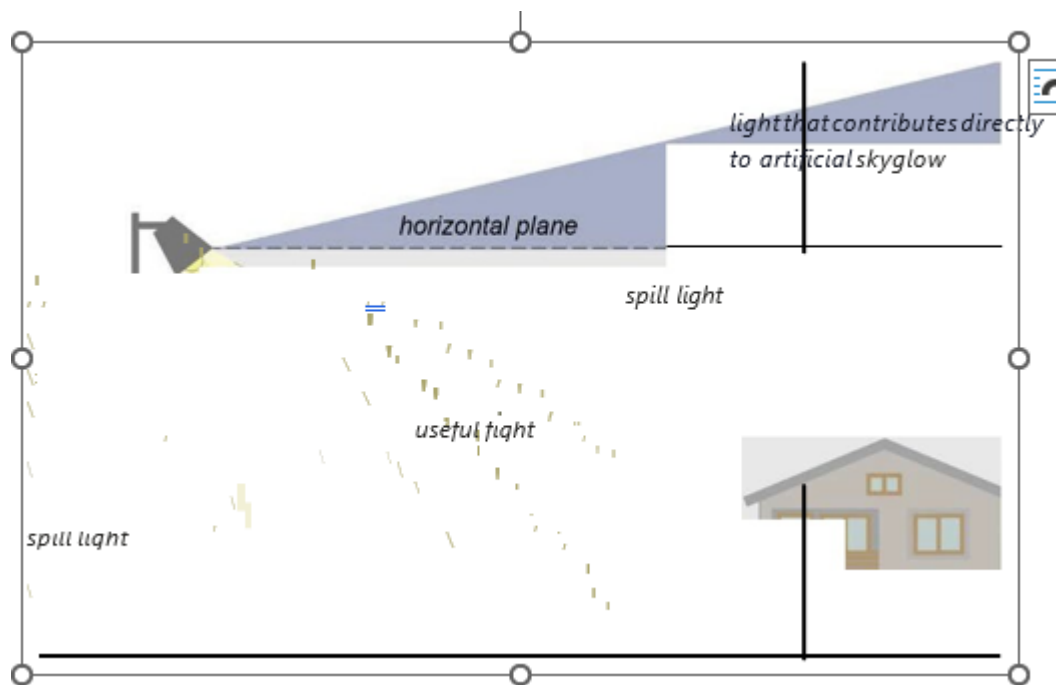

Figure 2 provides design solutions to minimise light spill above the horizontal plane.

a. Installing shielded outside light fittings

b. Installing outside light fittings under a building element (e.g. awning or eave)

c. Using building design e.g. verandahs and block-out blinds to control the spill of internal lighting

Figure 2 Design solutions to minimise interior spill light above horizontal plane

Adequate measures to avoid and minimise interior light escaping through windows, roof windows, sliding doors and skylights include full block-out curtains, blinds or shutters.

Suitable conditions should be imposed to manage the spill of internal light into the night sky.

Principle 2 Direct light downwards, not upwards

Wherever possible, light should be directed downwards, not upwards. This includes light used for roads, public amenities and the vertical lighting of structures such as advertising boards and building facades. If there are extenuating circumstances requiring up-lighting, it must be demonstrated that the light will not spill into the night sky. This may be achieved by using a wide overhang to the building that stops the light shining directly into the night sky or relocating the lights to shine down the building façade to achieve the same effect.

Directional fittings (for example floodlights, spotlights and sign lights) should be installed so that they do not shine directly into a neighbouring residence, onto a roadway, skyward or outside of a property boundary.

To keep glare to a minimum use higher mounting height that allow lower main beam angles that are closer to vertical.

The lighting of all-night operations such as mines, extractive industries and intermodal hubs will need to be downward facing, of a peach colour and shielded. Where strong light is needed or there are gas flares or burning associated with the development, consultation with the Shire is required to assist in identifying an appropriate way to light the development.

Figure 3 shows how mounting height, narrow beam and vertical aiming angle reduces light spill.

(b)

Figure 3 Application of mounting height and vertical aiming angle to control light spill

Principle 3 Use shielded fittings

Light fittings that are specifically designed to minimise light shining near to or above the horizontal plane should be used.

Shielded fittings are those that do not allow any light above the horizontal plane. Figure 4 shows a fitting with a bulb that is completely exposed allowing light to shine in all directions (a); a bulb that is fitted with a partial shield minimising light above the horizontal plane (b); and a shielded fitting which allows only the downward projection of light (c). The shielded fitting is the preferred design.

The effective light distribution or shielding characteristics of a light fitting can be verified by referring to manufacturer's specifications. These are available from the manufacturer or relevant sales outlet.

(a) non-shielded outside light fitting

(b) shielded outside light fitting with bulb fitted to the top

(c) shielded outside light fitting

Figure 4 Shielding characteristics

In some urban locations, particularly within heritage conservation areas, outdoor lights are fitted with a decorative cover. These designs may leave the bulb completely exposed and allow light to shine in all directions. To minimise light spill, the bulb should be fitted into the top of the fitting, allowing only the downward projection of light (see Figure 5).

Lighting suppliers stock a range of shielded light fittings suitable for residential, commercial and industrial applications.

If a supplier is unable to provide a shielded fitting, a shielding device should be applied. Most outside light fittings are equipped with or are capable of being fitted with a baffle, visor or hood to ensure light is appropriately directed. (see Figures 6 and 7).

Figure 5 Exposed bulb that allows light to shine in all directions and a fitting designed to minimise light spill by only allowing downward projection of light.

Figure 6 Floodlight fitted with shielding attachment

Figure 7 Floodlight that incorporates shielding in the fitting design (no attachment necessary)

Principle 4 Avoid over lighting

Lighting levels should be appropriate for the activity. To avoid 'over' lighting, select an appropriate bulb type and light the task, rather than the environment.

Improvements in technology mean that many new bulb types produce significantly greater amounts of light while using equivalent or smaller amounts of energy. Halogen bulbs produce more light than standard incandescent bulbs for the same energy use. LED lights produce between two and five times the amount of light as incandescent bulbs. Careful selection of bulb type will ensure the amount of light produced is appropriate for

the activities.

The amount of light produced (lumen), rather than the amount of energy used (watt) is the most important consideration in ensuring that an area is not over lit.

What is a light fitting?

A light fitting, or luminaire, is the complete lighting unit. It includes the bulb, elements designed to give light output control such as a reflector (mirror) or refractor (lens), the ballast, housing and the attached parts.

(a) One light fitting

(b) Two light fittings

Where multiple light fittings are mounted on a single base, as illustrated in (b) above, these are to be counted as additional light fittings. For example, a dwelling house with seven outside light fittings may have three type (a) light fittings and two type (b) light fittings, of which two must be automatic light fittings.

Principle 5 Switch lights off when not required

Lights should be switched off when not required to light a task or an area for safety or security purposes. The concept of a curfew with further limitations on lighting levels between agreed hours is encouraged. Examples include extinguishing or dimming advertising and decorative lighting after 11:00pm. Light fittings with timers that switch on at dusk and switch off by 11:00pm are also encouraged.

The use of automatic light fittings is recommended. Lights that are activated by a sensor and switch off automatically after a period of time reduce the cumulative amount of light emitted from development and reduce energy waste.

Principle 6 Use energy efficient bulbs

Significantly smaller amounts of energy to Improvements in technology mean that many recently developed bulb types use Energy efficient globes include LEDs, metal, produce the same amount of light. halide, induction bulbs, high pressure sodium, linear and compact fluorescent. High pressure sodium lights emit a peach coloured light and are suitable for a range of applications. They are energy efficient and have a lower impact than white lights.

White lights such as LEDs, modern fluorescent lights and metal halide lights should be used where recognising colour is important, for example at pedestrian crossings, major road intersections and sports grounds. Blue-white mercury bulbs have commonly been used for roadway lighting, but they are no longer permitted in new installations. An Australian Standard (AS/NZS 1158) addresses lighting for roads and public spaces, including parks and gardens and must be applied, where relevant.

Principle 7 Use asymmetric beams (when floodlights are required)

Where floodlights are required, for example sports lighting applications and commercial stock yards, wherever possible use fittings with asymmetric beams that permit horizontal glazing. These are to be kept at or near parallel to the surface being lit, usually the ground and should only light the area that needs to be lit, preventing spill light, see Figure 8.

An asymmetric beam also allows the light fitting to be mounted on the edge of an area.

Figure 8 *Appropriate floodlighting design includes use of an asymmetric beam*

Principle 8 Ensure lights are not directed towards reflective surfaces

At the design stage, it is desirable that surfaces with a low level of reflectivity be installed in the vicinity of outdoor lighting, compatible with the function of the area.

Illuminance is a measure of the amount of light reflected by a surface and is determined by the reflective properties of the surface.

Where a natural grass surface is used the illuminance will be low but may be significant where the surface is relatively light in colour, for example uncoloured concrete, artificial grass with sand infill or light-coloured walls.

Table 2 provides a guide to the reflective properties of common surfaces.

Table 2 Reflective properties of common

and avoids the need for fittings to be tilted upwards. Flat glass light fittings should be installed with the glass horizontal to make efficient use of the brightest part of the beam and to eliminate spill light.

(a) symmetric beam distribution

(b) asymmetric beam distribution

Surface	Reflective properties
Natural grass and vegetation	Low
Painted surface (dark)	Low
Pre-coloured factory metal (dark)	Low
Brick (dark)	Low
Raw or stained timber	Medium
Stone surface	Medium
Uncoloured concrete	High
Painted surface (light)	High
Artificial grass (sand base)	High
Pre-coloured factory metal (light)	High
Brick (light)	High
Zincalume steel (Unpainted)	High

Internally lit signage contributes to the luminance component of artificial skyglow. The internationally accepted limit on illuminated signage should be implemented as provided in Table 3.

Table 3 *Maximum luminance of illuminated signage*

Illuminated area (square metre)	Maximum luminance at any point (candela per square metre)
More than 10	300
2 to 10	600
0.5 to 2	800
Less than 0.5	1000

Principle 9 Use warm white colours

Use warm coloured light bulbs and avoid using cool blue-rich high colour temperature bulbs that are the least sky-friendly.

More information on bulb types and colour temperature is provided in Table 4.

⁴ IES/IDA Model Lighting Ordinance (darksky.org)

⁵ CIE 150:2017 Standard Guide on the limitation of the effects of obtrusive light from outdoor lighting installations, Second Edition

⁶ A brighter sign does not necessarily mean a more visible or readable sign. Informational highway signs have a maximum luminance of 90 cd/m². A survey of hundreds of legacy floodlit billboards in Arizona, USA indicated that most were 50-100 cd/m², with all externally illuminated billboards below 200 cd/m².

Principle 10 Ensure appropriate luminance levels of electronic message boards.

Luminance levels – During Night hours, which commence no later than one hour after sunset luminance levels shall not exceed:

- (a) In urban areas (Lighting Zone 3 and 4 of the illuminated settings. Model Lighting Ordinance⁴ or CIE Environmental Zone E3 or E4⁵): 150 cd/m² as measured under the brightest conditions of a full white display.⁶
- (b) In suburban and rural areas (Lighting Zone 1 and 2, Environmental Zone 2): 50 cd/m² as measured under conditions of a full white display.
- (c) Electronic message boards should never be located in natural areas (Lighting Zone 0 or Environmental Zone E1).

Curfew - Electronic message boards shall be switched off completely after 11pm (or 30 minutes after the close of business for on- premises signs, whichever is later), and remain off until one hour before sunrise.

Electronic message board applications for traffic and safety information shall be exempt from curfew. Luminance is measured by a Luminance Meter in accordance with manufacturer instructions.

Even in bright city areas, IDA tests in urban areas indicate that sign legibility can be maintained at luminance values well below the 300-400 cd/m² that is sometimes cited as lower limit for luminance by the advertising industry. As an everyday reference laptop computer displays can emit up to 100 – 400 cd/m² and are typically operated at 100-200 cd/m² in indoor illuminated settings.

Table 4 Common bulb types and associated colour temperature

Bulb type	Colour temperature	Colour appearance	Best lighting
Full spectrum fluorescent	5000K	Cool	Least preferred
Cool white fluorescent	4100K	Intermediate	
Metal halide	4000K	Intermediate	
Soft white fluorescent	3500K	Intermediate	
Warm white fluorescent, tungsten halogen	3000K	Warm	
Standard incandescent	2700K	Warm	
High pressure sodium	2200K	Warm orange/peach	Most preferred

Note: With LEDs, any colour temperature can be produced, but warm colours are preferred.

Glossary

Artificial skyglow is the part of the skyglow that is attributable to human-made sources of light.

Baffle is an opaque or translucent element to shield a source from direct view, or to prevent light reflecting from a surface like a wall.

Brightness is the strength of the visual sensation on the naked eye when lit surfaces are viewed.

Bulb is the source of electric light and is a component of a light fitting, not a light fitting on its own.

Candela is the unit of intensity of light. A candle emits light with a luminous intensity of approximately one candela

Colour temperature is the perceived colour of a light source ranging from cool (blue) to warm (yellow), measured in Degrees Kelvin (K). A low correlated colour temperature such as 2500K will have a warm appearance whilst 6500K will appear cold.

Horizontal plane, in relation to the light fitting, means the horizontal plane passing through the centre of the light source (for example the bulb) of the light fitting.

Illuminance is the amount of light reflected from a surface.

Incandescent bulb is a bulb that provides light by a filament heated to a high temperature by electric current.

Intensity is the amount of energy or light in a given direction.

Light is the radiant energy that is visible to humans and animals. Light stimulates sight and makes things visible.

Light fitting is the complete lighting unit. It includes the bulb, elements designed to give light output control, such as a reflector (mirror) or refractor (lens), the ballast, housing and the attached parts.

Light pollution means the brightening of the night sky caused by artificial light.

Lumen is the unit of luminous flux which is the light emitted by a bulb. Lumens are a measure of light output a bulb. The quantity of lumens produced by a bulb is independent of the wattage. Some types of bulb are more energy efficient than others and produce more lumens watt.

Luminance meter is a single element detector that measures photometric brightness (the amount of light that strikes a surface) in lumens.

Lux is the unit of measure of illuminance, equal to one lumen per square metre.

Natural sky glow is that part of the sky glow which is attributable to radiation from celestial sources and luminescent processes in the Earth's upper atmosphere.

Mounting height is the height of the fitting or bulb above the ground.

Outdoor lighting is the nighttime illumination of an area by any form of outside light fitting.

Outside light fitting means a light fitting that is attached or fixed outside or on the exterior of a building or structure, whether temporary or permanent.

Reflected light is light that bounces off a surface. Light coloured surfaces reflect more light than darker coloured surfaces.

Shielded light fitting means a light fitting that does not permit light to shine above the horizontal plane. If a fitting is to be used which is not a shielded fitting, some form of permanent physical opaque shield be used to provide the shielding requirement. This can be a cover or part of a building. Care must be taken to also shield adjacent surfaces, if they are lightly coloured, to prevent excessive reflected light from adding to sky glow. The shield should be constructed to minimize emissions in the 10 degrees below horizontal.

Skyglow is the brightness of the night sky caused by the cumulative impact of reflected radiation (usually visible light), scattered from the constituents of the atmosphere in the direction of observation. Skyglow comprises two separate components: natural skyglow and artificial skyglow.

Spill light is light that falls outside the boundaries from the object intended to be lit. Spill light serves no purpose and, if directed above the horizontal plane, contributes directly to artificial skyglow.

Wattage is the amount of electricity needed to light. Generally, the higher the wattage, the brighter the light will be and the more lumens it will produce.

IMPLEMENTATION

The good lighting design principles outlined in this Policy will assist the Shire to consider the impacts of lighting associated with rural, urban or other development including roads, industry and buildings. The Shire may impose conditions in relation to design of light fittings, shielding of light, the design and operation of development and hours of lighting operation to manage contribution to artificial skyglow.

VARIATION TO POLICY

This policy may be cancelled or varied from time to time at the discretion of Chief Executive Officer. All the organisation's employees will be notified of any variation to this policy by the normal correspondence method.

10.29 Verge Management Policy

Policy Owner	Works Committee
Person Responsible	Chief Executive Officer
Date of Adoption	26 August 2020 Resolution 070820
Date of Last Review	

OBJECTIVE

To provide guidelines for the effective management of road verges within the Shire of Wongan-Ballidu.

POLICY

This policy caters for the management of verges under the jurisdiction of the Shire of Wongan-Ballidu. The Shire cannot authorise any private works on road reserves under the control of other authorities (i.e. Department of Main Roads).

Guidelines: -

Scope

This policy applies to road verges located in a dedicated road reserve within the Shire.

Although conservation of roadside vegetation is an objective of this policy, road safety and road asset protection are the principal consideration.

Legislation

This legislation is relevant to the Shire, setting limitations for road infrastructure works, and landowners who wish to undertake work in road reserves.

- *Environmental Protection Act 1986*
- *Environmental Protection (Clearing of Native Vegetation) Regulations 2004*
- *Local Government Act 1995*

Definitions

Designated Maintenance Corridor

Environmental Protection legislation, in particular Regulation 5, Item 22 "Clearing for maintenance in existing transport corridors" of the Environmental Protection (Clearing of Native Vegetation) Regulations 2004, provides that local government can carry out activities to maintain and protect the integrity of road infrastructure within the designated 'maintenance corridor' as shown in Diagram 1.

Diagram 1 Designated Maintenance Corridor

Application of Policy

Road Construction Operations:

All works shall be planned to ensure that there is no damage to any vegetation outside the limits of the designated maintenance corridor. Where necessary, the Shire will make application for the appropriate clearing permits from the Department of Water and Environment Regulation (DWER) prior to undertaking any road construction. If required, as conditions of the permit, special considerations for declared or threatened flora and/or fauna will be made during works.

Rural road widening is to be carried out according to the requirements of the Council and will take into consideration the preservation of roadside vegetation wherever possible by clearing only one side of the road.

Road Maintenance Operations:

The Shire's road maintenance program includes grading, slashing, herbicide application, pruning, drain cleaning, drainage improvements, bitumen resealing, bitumen shoulder grading and gravel re-sheeting. Road maintenance activities will be contained within the 'maintenance corridor', which comprises the running surface, shoulder, table drain and batter/ to the top of the backslope/batter.

If major weed control works are to be undertaken, in areas outside the 'maintenance corridor', consultation will occur with the Department of Biodiversity, Conservation and Attractions (DBCA), DWER and local catchment management groups.

As part of the Shire's annual road program, unsealed shoulders subject to significant traffic will require periodic grading and gravel re-sheeting. During this process all grasses and vegetation within the designated maintenance corridor will be removed and disposed of offsite.

Some maintenance grading requires occasional clearing of vegetation to accommodate the machine and ensure road safety, however, where possible, this will be minimised.

Drains are usually mechanically cleared and maintained using a grader, and/or slashed if covered with grass. Drains inaccessible to mechanical equipment may require maintenance with hand tools or approved herbicides. In the cases where these practices will not provide for an acceptable level of drainage the use of excavation equipment may be used.

The Council will take all care not to damage any portion of the rural road reserve from the batter/backslope to the fence line.

Removal of Dangerous Vegetation:

Occasionally it is necessary to remove a dangerous tree/vegetation that poses a threat to public safety, such as impeding sight along the roadway or a tree that has been subject to storm damage and is threatening to fall over a fence line or a roadway. Following inspection by a Shire Officer, tree removal will be in accordance with the Environmental Protection (Clearing of Native Vegetation) Regulations 2004.

Pruning:

It may be necessary to prune vegetation that impedes sight distances for motorists or impacts on the performance of drainage. The Shire refers to Austroads Engineering Guidelines to determine road visibility and safety requirements.

The Shire will prune/remove trees that:

- impede sight distances for road users, or
- have been subject to storm damage, and
- have an imminent threat to public safety, in accordance with the *Environmental Protection Act 1986*, or
- are impacting on infrastructure.

Services and Utilities:

Alignment of services is to be encouraged to minimise impact on roadside vegetation where possible. Under the Utility Providers Code of Practice for Western Australia, utility providers are to liaise with the Shire regarding the positioning of services and the reinstatement and rehabilitation of disturbed areas. Alignment of services is to be encouraged to minimise impact on roadside vegetation where possible. However, if removal of vegetation is required, it is the responsibility of the service providers to obtain a valid clearing permit from DWER.

All materials are to be removed from the road verge by the utility providers on the completion of works. All trenches, if relevant, are to be backfilled, adequately compacted and trimmed to ensure they are safe.

Gazetted Flora Roads within the Shire currently include Waddington Road. These roads shall be managed to minimise any disturbance to the roadside flora, consistent with the provision of a safe and efficient roadway.

Unauthorised Clearing and/or Activities within Rural Road Reserves:

Clearing of a rural road verge or unmade road reserve without the relevant permits is prohibited. Penalties may also apply in accordance with the Environmental Protection legislation. The *Environmental Protection Act 1986* and Clearing of Native Vegetation Regulations apply to rural residential areas and a permit may be required to remove native vegetation.

Refer to Department of Water and Environmental Regulation for more information or the fact sheet at the following link: https://www.der.wa.gov.au/images/documents/your-environment/native-vegetation/Fact_sheets/fs1_legislation.pdf

No works shall be undertaken in rural road reserves without written approval from the Shire. This includes planting (including native species), drainage work, fencing, spraying, burning off, clearing vegetation or seed collection.

Seed Collection from Road Verges:

Landowners wishing to collect seed from native vegetation in road verges should refer to Council Policy 1.6 – Taking of Wildflowers/Seeds. A permit for seed collection may also be required from the DBCA. It is the responsibility of the landowner to check they have the relevant approvals in place.

Annual Spraying Program

The Shire's annual spraying program is conducted within town sites and on rural road verges to reduce the amount of flammable material whilst targeting weeds.

Landowners should note that the drains to the top of the backslope/batter will be sprayed if considered necessary to maintain the integrity of the drainage system.

RESPONSIBILITY FOR IMPLEMENTATION

The Manager Works and Services is responsible for applying this policy.

10.30b Waste Services and Charging Policy

Policy Owner	Regulatory Services
Person Responsible	Manager Regulatory Services
Date of Adoption	13 June 2022 Resolution 130722
Date of Last Review	

OBJECTIVE

The purpose of this policy is to state Council's position regarding waste management, service requirements and waste charges within the Shire of Wongan-Ballidu.

The community is encouraged to embrace waste minimization principles and maximise the separation of waste into the appropriate collection streams of recycling and general waste.

POLICY

The Shire of Wongan-Ballidu provides a standard 2 bin collection system for residential and commercial properties. There are options for variations to the standard services to meet specific requirements or needs of the user at the discretion of the Shire Officers.

Under the Shire of Wongan-Ballidu Health Local Laws clause 4.2.2 states

An owner or occupier of premises shall –

Ensure the premises are provided with a receptacle for the depositing of rubbish or refuse and maintain the receptacle in a serviceable condition

The following are the key principles of the system:

Kerbside Collection – Wongan Hills and Ballidu Townsites

All residential dwellings within the Shire will be charged for a standard two bin waste service.

The standard two bin collection system is a weekly 240L general waste service, a fortnightly recycling 240L service.

All commercial properties with the Shire will be charged for a standard two bin service.

The standard commercial collection system is a weekly 240L residual waste service and a fortnightly

comingled recycling 240L service.

The standard waste collection system must utilise mobile garbage bins supplied by the Shire. The bins are allocated to and are to remain at the property.

Residents may be granted an additional general waste bin and recycling waste bin where it is assessed that there are additional waste needs.

Additional bins attract an additional charge.

Increase requests will be undertaken on a case-by-case basis.

Additional bin charges are calculated pro-rata based on the number of days that the new service is provided in the financial year.

Where additional bins are requested, an application form must be signed by the property owner or their authorised agents. If an additional bin is no longer required, an application to remove the bin must be made in writing by the property owner or their authorised agent. No refund of the Additional Bin Service Charge will be made.

The Rates Notice to provide separate descriptions for the Waste Charge and Additional Bin Charges.

240L mobile garbage bins, inclusive of contents, must not exceed a total weight of greater than 70 kilograms.

Bins damaged through fair wear and tear, which have been vandalized or damaged by the Collection Contractor will be replaced at no cost to the owner.

Customers may report these issues through the Customer Service Officers.

For stolen bins residents must supply the Shire with a copy of a Police Report and may be requested to provide a Statutory Declaration to secure a new bin free of charge and Council may investigate these instances.

Free Waste Facility Pass – Wongan Hills Residents Only

Council shall provide to residents in the townsite of Wongan Hills four (4) waste facility passes for general and Household Waste.

Hazardous waste will not be accepted with a waste facility pass.

- Poisonous or infectious
- Likely to cause injury to public health
- Contains human tissue or body parts
- Biological waste – septic tank and grease trap waste

- Waste oils
- Other hazardous waste

The following waste is **NOT** accepted at the Wongan Hills waste site.

- Chemicals or chemical containers (except drumMUSTER at Wongan Hills)
- Tyres on the rim
- Gas cylinders

Waste facility passes are only for vehicles as per the following:

- Sedans
- Utilities
- Wagons/vans
- Trailers (maximum 8X6m)
- Trucks (<2 tonne payload)

Verge Side Collection – Wongan Hills and Ballidu Townsites

Council shall provide Wongan Hills and Ballidu townsites verge collections for general and green waste once per year.

Residents shall be advised by way of an advertisement in a newspaper circulating within the district and by public notice board at least two weeks before the collection week.

The advertisement will detail the day of the pickup. All rubbish is to be on the verge by 6.00am of the morning of the pickup.

Occupiers of residential premises disposing of general and green waste on their front verge for collection must comply with the following requirements:

General Waste

- Place rubbish out on street verge in a tidy pile ready for collection.
- Acceptable types of waste that qualify as general waste for the purpose of pick up are old furniture, timber, and general waste, including white goods and scrap metal.

White goods and other scrap metal

- The white goods and other scrap metal should be stacked separately, so this material can be recycled.
- White goods shall have doors removed or be sealed, so children do not get trapped.

Green Waste

Acceptable types of green waste include tree and shrub pruning's, leaves and lawn clippings in bags.

Please stack material neatly so that it can be accessed by the loader.

The maximum length of material should not exceed 1.5 metres, or it may not be able to be loaded and will be left behind.

Material greater than 25 centimeters in diameter should be cut into lengths of 0.5 metres.

Please place loose material e.g. Weeds, leaves in cardboard boxes or paper bags.

Unacceptable types of Waste that will not be removed and should not be placed on the verge for collection are:

- Chemicals, paints, oil etc.
- Commercial business waste
- Bricks, sand, concrete, tiles, gyprock, hardiflex, supersix fencing, etc.

Provision of free general and green waste drop off at the Wongan Hills waste facility – Wongan Hills Residents excludes commercial and industrial properties

Council is to provide the residents of Wongan Hills, Ballidu and Cadoux with two additional delivery passes for general waste and green waste.

Passes will be able to be handed into the Wongan Hills Waste Facility site for delivery of items as per the Verge Side Collection perimeters.

Unacceptable types of Waste that will not be accepted on free days at the waste facility: -

- Chemicals, paints, oil etc.
- Commercial or industrial business waste
- Bricks, sand, concrete, tiles, gyprock, hardiflex, supersix fencing, etc.
- Car bodies, engines, tyres, doors etc.
- Asbestos cement products
- Foodstuff or household waste
- Glass

Public Recycling Area

Council will provide an area for the general public and travelers to dispose of general waste, recycling and cardboard waste.

The location for this service is corner Patterson Street and Northam Pithara Road Wongan Hills. Waste will be collected on a fortnightly rotation in line with Councils verge collection service.

Community Events

Council shall provide additional bins and the rubbish trailer for Harvest Festival and Reynoldson

Reserve Festival.

Pricing

Western Australian Local Governments have the right to impose different types of charges in relation to services beyond the raising of a general rate, including a waste collection rate (section 66) or a receptacle charge (section 67) under the Waste Avoidance and Resource Recovery Act 2007 (WARR Act).

The Local Government Act 1995 deals with fees and charges from sections 6.16 to 6.19.

In summary, a local government may impose a fee or charge for any goods or services it provides.

Recovery of the cost of disposing of waste from collection should preferably be recovered through the waste collection charges. Effective subsidization of waste services by general rates is not seen as equitable.

The Shire sets rubbish service charges based on full cost recovery.

The schedule of fees and charges are calculated, and are to be reviewed annually and adopted by Council as part of the annual budget process.

RESPONSIBILITY FOR IMPLEMENTATION

The Manager Regulatory Services is responsible for implementation of this policy.
