ATTACHMENTS:	9.1.1.1 Policy – Electronic Attendance at Meetings by Elected Members

PURPOSE OF REPORT:

For Council to adopt a new Council Policy, Electronic Attendance at Meetings by Elected Members.

BACKGROUND:

Under regulation 14C of the *Local Government (Administration) Regulations 1996*, electronic attendance at ordinary and special council meetings and committee meetings is allowable if certain criteria is met and protocols followed.

The Shire of Wongan-Ballidu does not currently have a policy which outlines the protocols for applying for, and being granted approval to attend any of the aforementioned meetings by electronic means.

Having a policy of this nature is best practice, as it allows for a consistent and transparent process to be followed for all elected members when requesting to attend a meeting by electronic means.

COMMENT:

A draft Electronic Attendance at Meetings by Elected Members has been discussed with council at both the February and March forums. Council supported the updated draft policy being brought to the April OCM.

In developing this policy, many other local governments who have adopted the same type of policy were reviewed, to ensure best practice was being maintained.

It is important to highlight that, under regulation 14C(2), outside of a public health emergency or state of emergency, the only way in which an elected member can attend a council or committee meeting by electronic means is by authorisation from the President or council. This policy has thus been developed to ensure that there is a fair process in place for such approvals.

There are no known policy requirements related to this item.

LEGISLATIVE REQUIREMENTS:

- Section 5.25(ba) of the *Local Government Act 1995*

OFFICER RECOMMENDATION

POLICY STATEMENT

Requests for Electronic Attendance at Meetings

Requests for electronic attendance at meetings must be made in accordance with Regulation 14C(2) of the *Local Government (Administration) Regulations 1996*.

“(2) A member of a council or committee may attend a meeting by electronic means —

(a) if —

- (i) a public health emergency or state of emergency exists or a natural disaster has occurred; and
- (ii) because of the public health emergency, state of emergency or natural disaster, the member is unable, or considers it inappropriate, to be present in person at the meeting; and
- (iii) the member is authorised to attend the meeting by electronic means by the mayor, president or council;

or

(b) if the member is otherwise authorised to attend the meeting by electronic means by the mayor, president or council.”

Procedure

1. A r~~R~~Request to attend a Council meeting or Committee meeting electronically:

- a) Must be made in writing sent via email to the Shire President, with a copy provided to the CEO at least 24 hours prior to the relevant meeting. For Committee meetings, a copy should also be sent to the relevant Presiding Member. The preferred method of submitting a request is by email, however, if the Member is unable to do so for any reason, then it may be done via text message (SMS or WhatsApp), and the President must forward this to the CEO. If the Member is unable to submit their request at least 24 hours prior to the meeting, the request is to still be given due regard by the President and can still be accepted.

In the request, the Member is to outline the following:

- i. Location the Member will be attending from;

- ii. Connection method (e.g. Teams or Phone)
 - iii. Confirmation that confidentiality can be maintained;
 - iv. Any declarations of interest that are to be made for the relevant meeting.
- b) The Shire President is to have due regard to the request and determine whether it is appropriate.
 - c) If the request is not accepted by the Shire President, the Member may make a request that it is considered by Council, in which case, the Council must resolve on ~~move and second~~ a motion to decide this. If there is no scheduled Council meeting prior to any Committee meeting in which a Member has requested attendance by electronic means, then the Shire President's determination is final.
 - d) If the request is not supported, then the Member shall provide (in writing) their apologies for the relevant meeting.
 - e) If the Shire President wishes to attend a Council meeting electronically, their request must be made to the Deputy Shire President and a copy provided to the CEO (following clauses 1a) to d) above).

Note: A Committee cannot make a decision on electronic attendance for any Member, it must be the Shire President or the Council by resolution.

2. Where a request **meets** the following criteria, approval will not be unreasonably withheld:

- a) The electronic means of instantaneous communication, and the location and equipment from which the Member seeks to attend the meeting, are determined as suitable for the Member to effectively engage in deliberations and communications throughout the meeting [Admin.r.14C(5)];
- b) The Member has made a declaration prior to the meeting, or that part of the meeting, that will be closed, that confidentiality can be maintained. In the absence of such a declaration, the Member is prohibited from participation in the meeting, or that part of the meeting, that is closed [Admin.r.14CA(5)]; and
- c) The approval does not exceed prescribed limitations for the number of meetings attended by that Member by electronic means [Admin.r.14C(3) and r.14C(4)].

3. Records of requests and decisions about requests must be retained:

- a. Where the Shire President makes the decision, the record is retained as a Local Government record (e.g. email communication) in accordance with the Shire's Recordkeeping Plan, Recordkeeping Policy, and protocols established by the CEO; and
- b. Where Council makes the decision, the decision must be recorded in the minutes [Admin.r.11(d)].

- c. The minutes of the relevant meeting will include a notation stating if a Member attended via electronic means, next to the relevant Member's name in the attendance item of the minutes.
4. The CEO shall ensure that necessary administrative and technological support is readily available to facilitate attendance by electronic means at any meeting, on the basis that approvals may be given at any reasonable time prior to commencement of the meeting by the Shire President or during the meeting itself by Council for a Council meeting.
5. Electronic Means
 - a) The Shire will conduct electronic meetings preferably utilising the platform known as Microsoft Teams.
 - b) All meeting invitations will include a link to join the meeting electronically.
 - c) Members attending electronically are to join the meeting preferably at least 15 minutes prior to allow for sufficient testing of equipment and to resolve any technical issues.
 - d) Members must use a suitable network connection such as private home WiFi or a mobile hotspot from a trusted personal device.
 - e) Due to increased cyber security risks, Members are not permitted to connect via public WiFi (such as connections at cafes, airports, hotels and restaurants).
6. 50% rule
 - a) Members may only attend a Council Meeting or Committee Meeting by electronic means provided they have not attended more than half of the meetings in the previous 12 months by this method ([Admin Reg 14C\(3\)](#):-
 - b) The 50% cap does not apply a member who is a person with a disability as defined in Section 3 of the *Disability Services Act 1993 (WA)*.
7. Declaration of Confidentiality
 - a) If the meeting or part of the meeting for which a Member is attending electronically is to be proposed to be closed or subsequently closed to the public, the Member must make a declaration that they can maintain confidentiality during the meeting or the closed part of the meeting (as the case required).
 - b) The declaration is to be made at the beginning of the meeting and or at the time that the meeting is closed to the public and recorded in the minutes of the meeting

- c) Should the Member make the above declaration and subsequently cannot maintain confidentiality, they must leave the meeting or the closed part of the meeting.

8. Conducting a Meeting by Electronic Means [Administration Regulation 14D and 14E]

- a) Ordinary Council Meetings will primarily be held as in-person meetings.
- b) Where a declared public health or state of emergency, or associated directions, are in effect that prevent an in-person meeting being held, the Shire President or the Council can approve a meeting to be held by electronic means:
 - a. Meetings held by electronic means in these circumstances are not subject to, or included in, the prescribed limitation on the number of meetings held by electronic means [Admin.r.14D(2)(a)(b)].
- c) Where it is otherwise considered expedient or necessary (and there is no declared emergency), the Council may resolve to authorise the meeting to be held by electronic means [Admin.r.14D(2)(c)], subject to:
 - a. The prescribed limitation is not exceeded on the number of electronic meetings allowed [Admin.r.14D(2A)];
 - b. The CEO has been consulted, before the electronic means by which the meeting is to be held is determined by the Shire President or Council resolution [Admin.r.14D(3)(4)];
 - c. The decision has given due regard to whether the location from which each Member seeks to attend the meeting and the equipment each Member intends to use, are suitable to ensure each Member is able to effectively engage in deliberations and communications throughout the meeting; and
 - d. Each Member has made a declaration prior to the meeting, or that part of the meeting, that is closed, that confidentiality can be maintained [Admin.r.14D(6)]. In the absence of such a declaration, a Member is prohibited from participation in the meeting, or that part of the meeting, that is closed.
- d) Where a meeting is authorised to be held as an electronic meeting, the CEO must ensure details are:
 - a. published on the Local Government's Official webpage [Admin.r.12];
 - b. provided in the Notice of Meeting/Agenda; and
 - c. broadly promoted to ensure community awareness, such as through social media, newsletters, on noticeboards, etc.

9.1.2 DPLH REQUEST FOR TRANSFER OF PART OF RESERVE 19044 AND RESERVE 22782

FILE REFERENCE:	Property Files/Reserves
REPORT DATE:	14 April 2026
APPLICANT/PROPONENT:	N/A
OFFICER DISCLOSURE OF INTEREST:	Nil
PREVIOUS MEETING REFERENCES:	Council Forum 25 March 2026
AUTHOR:	Sam Dolzadelli – Chief Executive Officer
ATTACHMENTS:	9.1.2.1 – Land parcels requested for transfer

PURPOSE OF REPORT:

For Council to ratify the Shire’s position in response to a request from Department Planning, Lands and Heritage (DPLH) for the transfer of certain reserve land.

BACKGROUND:

On 3rd March 2026, the Shire received a request for information pertaining to part of Reserve 19044 and Reserve 22782 from DPLH. The intent of DPLH’s request was to look at progressing a request for the transfer of parts of Reserve 19044 and the entirety of Reserve 226782.

This request was discussed with council at the Council Forum held 25 March, and a subsequent meeting was held with the Kondut Sports Council on 31 March to discuss this request.

The Shire should provide a formal response in relation to this request to DPLH, and this report seeks council’s ratification of the position to formulate the response.

COMMENT:

DPLH have requested the Shire consider the transfer of the following parcels of land (map included in attachment 1 to this report):

- Lot 4408 on DP32893 and Lot 44 on DP429306, which both form part of Reserve 19044.
- Lot 31 on DP229963, which forms the entirety of Reserve 22782.

It was confirmed during the meeting with Kondut Sports Council that Reserve 19044 is still being used on an ongoing basis by the group. This was supported by the council’s preliminary view as discussed on 25 March. To this end, the position recommended in relation to the parcels of land on Reserve 19044 is that the Shire does not support the transfer of this land.

Reserve 22782 is a 1,012sqm block of land within the townsite of Kondut, zoned for a children’s recreational playground. There are no future plans to develop this parcel of land, and Kondut Sports Council were supportive of this being transferred, if there was an appetite from the applicant to have this small piece of land without any of Reserve 19044.

DPLH has been requested to provide the justification for the transfer of the aforementioned parcels of land.

It is important to note that this is an early piece of correspondence with DPLH on this matter, and further investigation will take place by DPLH if the Shire informs them any of the land is surplus to the Shire's needs. A formal consultation process would need to be undertaken by DPLH per s.14 of the *Land Administration Act 1997*.

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 31 MARCH 2026

1 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the Local Government Act 1995 read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supplementary information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 14 April 2026

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

MATERIAL ACCOUNTING POLICES

Material accounting policies utilised in the preparation of these statements are as described within the 2024-25 Annual Budget. Please refer to the adopted budget document for details of these policies.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment
 - Infrastructure
- Impairment losses of non-financial assets
- Expected credit losses on financial assets
- Measurement of employee benefits
- Estimation uncertainties and judgements made in relation to lease accounting

KEY INFORMATION

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

KEY INFORMATION

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

KEY INFORMATION

At inception of a contract, the Shire assesses if the contract contains or is a lease. A contract is or contains a lease, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At the commencement date, a right of use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

All contracts classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

This process includes the Shire providing a completed Rates Enquiry Form setting out the annual rates amount and any outstanding amounts, in addition to providing other information on any outstanding orders or requisitions relating to the property.

COMMENT:

For the settlement of A697 in April 2025, a Rates Enquiry Form was completed outlining the outstanding rates amount for the property and was provided to the settlement agent in March 2025. Contrary to this, during the processing of the backlog of transactions due to the change of software, a previous staff member misinterpreted a payment made for rates Assessment 976 and notified the settlement agent by email that the rates on A697 had been fully paid. The outstanding amounts were very similar for the properties and the transposition of the numbers caused the notification to the settlement agent.

The payment was applied to the correct assessment number, with the notification to the settlement agent being the only incorrect component. This resulted in the outstanding rates on the property not being paid to the Shire at settlement and leaving the new owners with an outstanding debt of \$2,111.12. When the 2025/26 Rates Notices were issued, the new owner who is a new Shire employee, alerted the Shire of the outstanding amount to seek clarity on why it wasn't paid at settlement.

As part of the settlement process, the new owner was debited a portion of the rates (10 April 2025 - 30 June 2025), though this amount would have been credited to the previous owner as part of the settlement transaction. No monies were paid to the Shire for rates through the settlement, leaving the outstanding amount on the assessment.

When this was realised, the settlement agents were contacted to see if anything could be done to recoup the money from the seller. Following several communications, it has been established that there is no recourse, or ability to claim the money from the previous owner as the settlement had taken place months before.

To allow for this to be investigated, the new owner paid the 2025/26 rates in full, though interest has been accruing on the outstanding amount, with the current amount owing on the property, as of 14 April 2026, being \$2,214.41.

Section 6.12(c) of the *Local Government Act 1995* provides for the local government to write off debts (by absolute majority of Council). As this was clearly an administrative error it is for Council consideration for the debt to be written off and for this amount to be cleared and not be payable by the new property owner.

POLICY

Council will generally apply the Policies and Standards for Geographical Naming in Western Australia, as adopted by Landgate.

If no suitable name is available from the list of Freeman, Chairmen, Presidents, or Elected Members in that locality, Council may consider a name aligned with the Policies and Standards for Geographical Naming in Western Australia, such as, but not limited to, the surname of the original landowner served by that road.
