5.1 PRESENTATION BY CARAVEL MINERALS

Update provided with a brief history of the site and an overview of timeline and process moving forward. The slide show presentation provided to Councillors.

With extensive work in the area of environmental surveys and a report now submitted to the regulator, the schedule is to include a public environment review late 2024/early 2025.

Sited an awareness of environmental values issues such as; nearby black cockatoo/spider/scorpion habitat/s and associated native flora, with avoidance and harm minimisation strategies being formulated. Interest in planning for contributing to further native plantings within the Lake Ninan reserve area.

There are also plans for methods to conquer dust reduction and extensive tree planting for the benefit of minimalisation of light pollution, preserving much of the visual amenity and protection of rare flora and the vulnerable "western minnow".

Other future upgrades to also be of benefit the greater town of Wongan Hills;

- catalyst to complete the Wongan Hills sub-station, with improved reliable electricity service for town and surrounds, and
- construction of 100-200 bed worker accommodation, with the potential for a portion to be available for tourism and business visitors of town.

Questions raised by Cr Chambon;

1. How could this affect the view of Lake Ninan on approach from Calingiri?

A: Native tree/shrub plantings planned for the buffer that commences from the road should not impede the visibility of the approach as it is from an elevated section of the road travelling towards Wongan Hills.

2. Power from Wongan/Moora line;

Will it be sufficient capacity? Or will it require upgrading?

A: yes, there will be some upgrades required. Looking at assuring good capacity to around 133Kv.

Meeting between Council Executive and Caravel Management Team has been scheduled for August.

3:58pm *All Public left the meeting – both in person and by ceasing their video link*

PURPOSE OF REPORT:

The purpose of this report is to present the CEO Performance and Remuneration Review Policy to Council for adoption.

BACKGROUND:

Under section 5.38 of the *Local Government Act 1995*, the Council of a local government is required to review the performance and remuneration of the CEO. The Shire does not currently have a policy which outlines a guide and best practice for this substantial process and thus it is recommended Council adopts a Council Policy for this review process.

POLICY REQUIREMENTS:

Council Policy 5.25 – Model Standards for CEO Recruitment and Selection, Performance and Termination.

LEGISLATIVE REQUIREMENTS:

- *Local Government Act 1995* – Section 5.38
- *Local Government (Administration) Regulations 1996* – Regulation 18FA

STRATEGIC IMPLICATIONS:

Without clear KPIs being determined for the CEO and performance reviewed, there is a risk that the Shire is not achieving strategic and operational outcomes as identified in the Strategic Community Plan and Corporate Business Plan.

SUSTAINABILITY IMPLICATIONS:

- **Environment**
There are no known environmental impacts associated with this proposal.
- **Economic**
There are no known economic impacts associated with this proposal.

➤ **Social**

There are no known social implications associated with this proposal.

FINANCIAL IMPLICATIONS:

The CEO Performance and Remuneration Review Policy states that an independent consultant (facilitator) will be engaged to undertake the review and setting of KPIs. This will have a budgetary requirement on an annual basis.

COMMENT:

To ensure proper performance management of the CEO and fair and equitable remuneration to the CEO, it is recommended that the CEO Performance and Remuneration Review Policy is adopted to serve as guidelines for this process.

VOTING REQUIREMENTS: Simple Majority.

5.37 CEO Performance and Remuneration Review

Policy Owner	Governance
Person Responsible	Chief Executive Officer
Date of Adoption	TBA
Date of Last Review	TBA

OBJECTIVE

Section 5.38 of the *Local Government Act 1995* requires Council to review the performance of the Chief Executive Officer (CEO) at least once each year. Conducting this review is an important function of Council as the CEO is its only employee.

As part of this review, the Council will conduct an annual review of the CEO's remuneration package and Key Performance Indicators (KPIs).

The performance review process is to

- Be objective;
- Be conducted in a fair and reasonable manner based on agreed performance indicators;
- Support and facilitate CEO development; and
- Recognise achievement and support performance improvement.

SCOPE

Application of this Policy is to be in conjunction with all relevant legislation, including the Model Standards for CEO Recruitment, Performance and Termination and the Departmental Guidelines for Local Government CEO Recruitment and Selection, Performance Review and Termination and all other relevant policies, procedures, and processes of the Shire.

The Salaries and Allowances Tribunal (SAT) determines the parameters for local government CEO Total Remuneration Packages, and all components of the CEO's remuneration need to comply with the relevant SAT requirements.

The SAT has classified the Shire of Wongan-Ballidu as a Band 4 local government.

Any changes to the CEO's performance agreement or performance plan, such as changes to the KPIs, must be discussed and agreed by both the Council and the CEO.

This policy also applies to the CEO's probation review.

POLICY

This Policy applies to the annual performance and remuneration review of the Shire of Wongan-Ballidu CEO.

1 Performance Review Process

1. CEO Performance and Remuneration Review Panel

- 1.1 Council is to appoint a CEO Performance and Remuneration Review Panel (the Review Panel) following every local government election.
- 1.2 The Chair of the Review Panel will be the Shire President. The Review Panel will include between three and five elected members (inclusive of the President).
- 1.3 The Council authorises the appointed Review Panel to undertake the CEO Performance and Remuneration Review and report findings and recommendations to the Council.
- 1.4 The primary functions of the Chief Executive Officer Review Panel are to:
 - Support the engagement by the Shire, of an appropriately experienced independent consultant for the purposes facilitating the performance and remuneration review process, in consultation with the CEO.
 - Oversee and conducting the performance and remuneration review process in accordance with this Policy.
 - Endorse the independent consultant's performance appraisal report and a remuneration review recommendation for consideration by Council.
 - Develop the performance agreement and KPIs with the CEO for approval by Council.
 - Meet regularly to discuss and provide feedback if performance issues are identified.
- 1.5 Membership principles and responsibilities of panel members:
 - Be fair, impartial and undertake the process with integrity.
 - Assessment is made free from bias and based on evidence of the CEO's achievements against the agreed performance criteria.
 - Findings and recommendations are impartial and transparent.
 - Any information received or produced by the Review Panel will be kept confidential.
 - The report for the performance and remuneration review to Council will be presented in confidence in accordance with section 5.23 of the Act.
 - Accurate and comprehensive records of the performance management process will be created and registered within the Shire's Electronic Data Record Management System; and
 - Manage all records in accordance with the Shire's Record Keeping Plan.
- 1.6 The performance and remuneration review process should commence at least 3 months prior to the required completion date.

- 1.7 The Review Panel Chair and independent facilitator will coordinate the review process.
- 1.8 Performance and Remuneration Review Panel Training
- a. All Council members appointed to the CEO Review Panel must undertake relevant CEO Performance Review training course provided by the Western Australian Local Government Association (WALGA), or similar industry recognised training provider, within six months of appointment to the Review Panel.
 - b. Where external training cannot be sourced within the time frame noted in 1.8(a) above, the Shire will provide in house training to address the processes and skills required for Council members to contribute effectively to the annual appraisal of the CEO.
 - c. The training is valid for five years therefore a re-elected Panel member is only required to undertake the training at every second election.

2. Independent facilitator

- 2.1 The Shire will engage the Panel supported independent consultant (facilitator) to assist with the process of the CEO performance and remuneration review and the development of a performance agreement (inclusive of KPIs).
- 2.2 The independent consultant will have extensive experience in performance and remuneration reviews of senior executives and local government experience.
- 2.3 The independent consultant should not have any personal interest in, conflict of interest or relationship (other than professional or contractual) with, the Council, the Shire or the CEO. In this policy and for clarity, interest:
- means an interest that could, or could reasonably be perceived to, adversely affect the impartiality of the person having the interest; and
 - includes an interest arising from kinship, friendship, relationship or membership.
- 2.4 The facilitator may be required to:
- Collect 360-degree performance evidence (including from all Councillors and direct organisational reports)
 - Write the performance appraisal report
 - Facilitate meetings for the Panel.
 - Assist with the provision of feedback to the CEO
 - Formulate plans to support improvement (if necessary)
 - Provide industry/sector remuneration related information to the Panel if requested; and
 - Provide an objective view regarding any performance management-related matters between the concerned parties.

- 2.5 The independent facilitator services must be secured in accordance with the Shire's Purchasing Policy.
- 2.6 Council employees will not be involved in the CEO's performance review, except as part of the 360-degree assessment process or if requested by the Panel or the Council to prepare agendas and take minutes, or to assist the independent facilitator in any relevant administrative matter. Any request will be made through the Chief Executive Officer.

3. Performance criteria

- 3.1 Ongoing permanent performance criteria for the purpose of reviewing the CEO's performance must be as included in the CEO's employment contract [the Act s.5.39(3)].
- 3.2 The Council may agree with the CEO additional performance criteria.
- 3.3 Additional criteria may include performance indicators relating to specific projects, Council priorities and service delivery targets from the Strategic Community Plan and Corporate Business Plan. It is important that these performance indicators relate to the selection criteria used in selecting the CEO (e.g. if the CEO is selected to improve the local government finances, then indicators regarding improved revenue may be appropriate).
- 3.4 The agreement on additional criteria provides flexibility for both the Council and CEO in response to changing circumstances and priorities.
- 3.5 Together the contractual performance criteria and any additional agreed criteria form the Key Performance Indicators (KPI's).
- 3.6 It is important that the agreed KPI's are specific, measurable, achievable, relevant and time based.
- 3.7 The KPI's, how they will be assessed, and any professional development goals of the CEO will form the annual performance agreement between the Council and CEO.
- 3.8 The annual performance agreement must be negotiated, documented and agreed upon by the CEO and the Council. Adjustments may be initiated by either the CEO or the Council throughout the performance review period.

4. Assessment of CEO performance

- 4.1 The CEO's performance is to be measured in an objective manner against the KPI's alone. Reviews must be impartial and not skewed by personal relationships between the Review Panel and the CEO.
- 4.2 Evidence of CEO performance may include:
 - Achievement of key business outcomes

- Interactions with the Council and progress that has been made towards implementing the Council's strategic vision
 - Audit Committee reports
 - Workforce metrics (e.g. the average time to fill vacancies, retention rate, information about why people leave the organisation and staff absence rate)
 - Incident reports (e.g. results of occupational health and safety assessments, the number and nature of occupational health and safety incident reports, and the number and nature of staff grievances)
 - Organisational survey results
 - Relationships (e.g. with relevant organisations, stakeholder groups, and professional networks); or
 - Insights from key stakeholders (by way of survey etc.).
- 4.3 In addition to achievement of the KPI's, as part of the assessment, consideration should also be given to:
- How the CEO has achieved the outcomes. Whether or not their methods are acceptable and sustainable
 - The extent to which current performance is contingent upon current circumstances
 - What the CEO has done to ensure the wellbeing of staff and to maintain trust in the local government.
 - What attention has the CEO given to ensuring:
 - o Equal employment opportunity.
 - o Workplace health and safety.
 - o Privacy.
 - o Managing potential conflicts of interest, and
 - o Complying with procurement process requirements.
- 4.4 It is important that contextual factors, external or otherwise are given appropriate weight. Failure to meet KPI's does not necessarily mean the CEO has performed poorly and, for this reason, performance and outcomes should be considered separately.
- 4.5 Once the CEO's performance has been completed, the review must be endorsed by resolution of an absolute majority of Council and the CEO must be informed in writing of the results of the review.

5. Addressing Performance Issues

- 5.1 Any performance areas that require attention or improvement must be:
- Identified
 - Discussed with the CEO; and
 - A constructive plan agreed and put in place to address the issues.
- 5.2 The plan should outline the actions to be taken, who is responsible for the actions and an agreed timeframe.
- 5.3 Appropriate courses of action in addressing the performance issues may include:
- Professional development courses

- Training
- Counselling
- Mediation
- Mentoring; or
- Developing new work routines to ensure specific areas are not neglected.

5.4 Regular discussion and ongoing feedback on the identified performance issues should be scheduled to ensure improvements are being made.

6. Misconduct

6.1 In the event of any potential wrongdoing (misconduct) or suspected serious misconduct as defined in section 4 of the Corruption Crime and Misconduct Act 2003 are identified, the matter must be referred to the Public Sector Commission or the Corruption and Crime Commission (CCC). This provides an independent process to follow and ensures probity, natural justice and oversight of allegations.

7. Remuneration Review

7.1 The Council shall periodically (not less than annually) review the salary for the CEO to assess whether and what increase in salary and allowances are to be made.

7.2 The CEO remuneration range is determined by the Salaries and Allowances Tribunal and the remuneration package may not fall outside the band applicable to the Shire of Wongan-Ballidu.

7.3 The outcome of the CEO performance review may form part of the considerations for the CEO remuneration review.

7.4 The Panel may request the independent facilitator to gather and provide remuneration comparison information to assist in this review process.

8. Further Guidelines

8.1 The Council shall refer to relevant publications to guide the review and remuneration process such as the Department of Local Government Sport and Cultural Industries (DLGSC) Guidelines for Local Government CEO Recruitment and Selection, Performance Review and Termination (March 2021).

8.2 The Council must also consider legal requirements provided by the Fair Work Commission and the Fair Work Ombudsman.

Shire of Wongan-Ballidu Variance Report 31 May 2024				
<p>The Local Government (Financial Management) Regulations 1996 require that financial statements are presented monthly to council. Council has adopted 10% as its threshold for line items on the Statement of Financial Activity by nature shown on page 1. This report uses a traffic light system to flag those items that are within tolerance and others that fall out of the range. Variances are calculated using a comparison of year to date actual against year to date budget. It needs also to be noted that the early months of the financial year are a period when variance percentages are volatile and extremely sensitive to small movements in actual income and expenditure.</p>

Asset Sustainability Ratio

Measures if the Shire is replacing or renewing existing non-financial assets at the same rate that its overall asset stock is wearing out.

Minimum Target is 90%

Shire's YTD Performance is 49.04%

Do we measure up? **×** **No**

- Due to infrastructure revaluation, roads and drainage fair values have increased significantly as well as depreciation rates.

9.3 WORKS AND SERVICES

9.3.1 RAV NETWORK – REQUEST LGA SUPPORT

REPORT DATE:	12 June 2024
APPLICANT/PROPONENT:	HVS Services
OFFICER DISCLOSURE OF INTEREST:	Nil
PREVIOUS MEETING REFERENCES:	NIL
AUTHOR:	Stephen Casey – Manager of Works & Services
ATTACHMENTS:	AMMS - Tandem Drive Prime Mover, Trailer Combinations

PURPOSE OF REPORT:

The purpose of this report is to present to the Council a request from Heavy Vehicle Services (HVS) to evaluate and comment on the proposed inclusion of Waddington-Wongan Hills Road into the AMMS (Accredited Mass Management Scheme) Level 3. The Council is asked to review and provide feedback on any potential impacts related to road conditions, planning conflicts, and development issues that may arise from incorporating these roads into the AMMS Level 3.

BACKGROUND:

Auhls Transport has applied to Main Roads Western Australia (HVS) seeking to amend the classification of the Wongan-Hills-Waddington Road (Wongan Hills, Lake Hinds) from Northam Pithara Road & Wongan Road SLK 0.00 to Wongan Hills & Waddington Road SLK 30.21, upgrading it from AMMS Level 1 to AMMS Level 3.

The Accredited Mass Management Scheme (AMMS):

- Allows approved tandem drive and tri drive combinations to operate at three (3) concessional mass levels.
- Does not prescribe specific loading methods nor restrict commodity types. Instead, AMMS permits the use of any product and any proven loading control method.

COMMENT:

The fundamental differences between AMMS Level 1 and AMMS Level 3 within the Accredited Mass Management Scheme (AMMS) primarily pertain to the concessional mass limits allowed for heavy vehicles. Here's a detailed comparison:

1. Concessional Mass Limits:

- **AMMS Level 1:** Provides a lower concessional mass limit for approved heavy vehicles. Total 93.5t.
- **AMMS Level 3:** Allows for a higher concessional mass limit, enabling vehicles to carry heavier loads compared to Level 1. Total 100t.

2. Vehicle Combinations:

- Both AMMS Level 1 and AMMS Level 3 accommodate approved tandem drive and tri drive combinations, but Level 3 supports these configurations at higher mass levels. This application deals with RAV 4 Tandem Drive ONLY.

3. Operational Flexibility:

- **AMMS Level 1:** Offers basic concessional mass limits, suitable for less demanding transport operations.
- **AMMS Level 3:** Provides greater flexibility for transport operators, allowing them to maximise load capacities within the safety parameters established by the scheme.

4. Infrastructure Impact:

- Higher mass limits under AMMS Level 3 may have more significant impacts on road infrastructure compared to AMMS Level 1, necessitating thorough assessment of road conditions and potential planning conflicts.

In summary, the primary difference between AMMS Level 1 and AMMS Level 3 is the permissible mass limit for heavy vehicles, with Level 3 offering higher limits and thus greater operational capacity for transport operators.

The Waddington-Wongan Hills Road is a significant tourist route. A breakdown of the Vehicle Classes can be seen below:

Large Combination Over 33.0m	> 6	> 6	Triple Road Train Triple road train, or Heavy truck and three trailers	12	groups > 6 and axles > 6	

Definitions:
Group: Axle group, where adjacent axles are less than 2.1m apart
Groups: Number of axle groups
Axes: Number of axles (maximum axle spacing of 10.0m)

$d(1)$: Distance between first and second axle
 $d(2)$: Distance between second and third axle

Based on the Class Matrix above, it is evident that a significant number of smaller vehicles utilize the Waddington-Wongan Hills Road. The increase in permissible mass will elevate the risk for these road users in the form of Pavement Deterioration. Heavier vehicles will cause accelerated wear and tear on the road surface, leading to potholes, ruts, and cracks. This deterioration poses hazards for smaller vehicles, increasing the likelihood of accidents.

SUSTAINABILITY IMPLICATIONS:

➤ **Environment**

There are no known Environmental implications associated with this policy.

➤ **Economic**

Increased Efficiency: Transport operators can carry more cargo per trip under AMMS Level 3, potentially reducing the number of trips needed and leading to overall cost savings in logistics and transportation.

➤ **Social**

There are no known social implications associated with this policy.

FINANCIAL IMPLICATIONS:

Increased Wear and Tear: Upgrading Wongan Hills-Waddington Road to accommodate AMMS Level 3 will lead to increased wear and tear due to higher mass limits, necessitating more frequent and potentially more costly maintenance and repairs.

Estimated Pothole Repair:

Year	Minimum Cost per m ²	Maximum Cost per m ²
2025-2026	\$50	\$100
2026-2027	\$51.75	\$103.50
2027-2028	\$53.56	\$107.12
2028-2029	\$55.42	\$110.87

Note: The cost per square meter is adjusted each year for a CPI increase of 3.5% from the initial cost of \$50/m² for a minimum cost and \$100/m² for a maximum cost.

Seal Preservation

A 10mm S45R Crumbed Rubber Seal, which would be recommended for such an application is currently approximately \$7.00/m².

Phased upgrades are outlined in the table below:

Phase	Year	Length (km)	Area (m ²)	Cost per m ²	Total Cost (adjusted for CPI)
1	2029-30	2.5	20,000	\$7.00	\$140,000
2	2030-31	2.5	20,000	\$7.24	\$144,800
3	2031-32	2.5	20,000	\$7.49	\$149,800
4	2032-33	2.5	20,000	\$7.74	\$154,960

10	2038-39	2.5	20,000	\$9.40	\$190,452
11	2039-40	2.5	20,000	\$9.70	\$197,201
12	2040-41	2.5	20,000	\$10.00	\$204,208

Total Estimated Cost (Adjusted for CPI): \$2,100,267

Note: The cost per square meter is adjusted each year for a CPI increase of 3.5% from the initial cost of \$7.00/m². The total cost is then calculated based on the length of the road to be sealed in each phase. Since the total area to be sealed is 240,000 square meters, it will take 12 years to complete the project, with 20,000 square meters sealed each year.

This road is eligible for Regional Road Group Funding, which allows for Preservation.

Upgrades to Infrastructure: Parts of Wongan Hills-Waddington Road require upgrades, such as strengthening pavement and improving drainage, to support the heavier loads permitted under AMMS Level 3, leading to significant capital expenditures.

FIGURE 8.4 DESIGN CHART FOR GRANULAR PAVEMENTS WITH THIN BITUMINOUS SURFACING

The thickness of the pavement is contingent upon the California Bearing Ratio (CBR) values obtained on-site, ranging from 100mm to 1000mm or more. Generally, we observe subgrade CBR values in the range of 10% to 20%. However, over salt affected areas like those found along the Waddington-Wongan Hills Road, these values can significantly decrease to 2%.

The potentially low subgrade condition necessitates extensive work on the subbase. Introduction of cement can substantially reduce the depth of the subbase. Additional laboratory testing is imperative for both the proposed gravel and the gravel-cement mixture to ascertain CBR results and determine the appropriate subbase thickness.

Current widening is approximately \$230,000 per kilometre. There is approximately 4 kilometres of standard road widening to 8m carried out with another 4.5 kilometre to be carried out over salt affected areas.

Standard Road Widening

Year	Length Widened (km)	Total Length (km)	Cost per km	Total Cost (adjusted for CPI)
2027-28	2	2	\$245,218	\$490,436
2028-29	2	4	\$253,005	\$506,010

Note: The cost per kilometre is adjusted for a CPI increase of 3.5% each year, starting from the initial cost of \$230,000 per kilometre.

Cement Stabilised Road Widening

Year	Length Widened (km)	Total Length (km)	Cost per km	Total Cost (adjusted for CPI)
2025-26	2	2	\$305,000	\$610,000
2026-27	2	4	\$315,175	\$630,350

Note: Based on shoulder stabilise & overlay stabilise. The cost per kilometre is adjusted for a CPI increase of 3.5% each year, starting from the initial cost of \$305,000 per kilometre.

The Estimated Total Investment is \$4,337,063 over 16 years or \$271,066 per annum.
