Rates

Rates notices were issued with an effective issuance date of 7 August 2023. As at 31 October 2023, the Shire had receipted \$3,171,839 in rates, ESL and rubbish charges. Due date for payment in full, or first instalment was 11 September 2023. As at 31 October 2023, the gross amount of rates, ESL and rubbish charges outstanding (including arrears, legal charges and interest) is **\$647,189** and of this amount \$37,346 is made up of deferred pensioner rates. Total outstanding equates to 17.00% of the brought forward arrears and current year billing.

Final notices were issued on 18 September, giving ratepayers 14 days to pay any amount outstanding if they were not paying by instalments. Any ratepayers who still had not made payment were issued with a final demand on 13 October, with payment terms of 7 days. On the 25th of October any unpaid accounts were sent to the Shire's external debt recovery agent. The total amount owing that is being recovered through the agent as at 31 October 2023 is \$71,856.

Capital Works

As at 31 October 2023 the Shire has incurred \$927,219 in actual expenditure on capital works projects against a current budget of \$8,920,501 representing 10.39% of the budgeted works.

Depreciation

Depreciation for the 2023/24 financial year has not yet been processed as the Shire is awaiting the final audit of the Annual Financial Report to be undertaken. As depreciation is a non-cash item, it does not impact the Shire's surplus position.

Other

Attention is drawn to the actual opening surplus figure for 1 July 2023 of \$2,744,736 against the budgeted opening surplus of \$2,713,397. This is an increase in the budgeted opening surplus of \$31,339. Whilst management is confident in the accuracy of the actual opening surplus, this is still to be audited and as such no additional brought forward surplus will be allocated until the budget review.

VOTING REQUIREMENTS: Simple Majority

Shire of Wongan-Ballidu Variance Report 31 October 2023				
<p>The Local Government (Financial Management) Regulations 1996 require that financial statements are presented monthly to council. Council has adopted 10% as its threshold for line items on the Statement of Financial Activity by nature shown on page 1. This report uses a traffic light system to flag those items that are within tolerance and others that fall out of the range. Variances are calculated using a comparison of year to date actual against year to date budget. It needs also to be noted that the early months of the financial year are a period when variance percentages are volatile and extremely sensitive to small movements in actual income and expenditure.</p>

How are we tracking against our budgeted targets?

Adjusted Operating Surplus

A measure of the Shire's ability to cover its operational costs including depreciation and have funds left over to cover capital expenditure (including principal loan repayments) without relying on debt or reserves.

Minimum Target is 1%

Shire's YTD Performance is 54.28%

Do we measure up? ☒ Yes

- Adjusted operating surplus and self-sufficient ratios are high in the earlier part of the year due to rates being fully billed in August. However, as the year progresses, operating expenditure will continue to draw on this revenue source reducing to target by 30 June 2024.

Asset Sustainability Ratio

Measures if the Shire is replacing or renewing existing non-financial assets at the same rate that its overall asset stock is wearing out.

Minimum Target is 90%

Shire's YTD Performance is N/A

Do we measure up? N/A

- Cannot be calculated until depreciation is processed, which will not occur until December/January once the final audit is completed.
