## **Item 5. DEPUTATIONS / PRESENTATIONS / SUBMISSIONS / PETITIONS**

### **5.1 JANET LEWIS – DNA CONTAMINATION IN COVID-19 VACCINES**

Ms Lewis asked if all Councillors were supplied with a copy of her email sent earlier in the month. Shire President- confirmed this had been circulated by the CEO.

Ms Lewis gave a detailed presentation (copy as attachment).

Q: Are the Council willing to assist and move a motion similar to the Town of Port Hedland?

A: Shire President acknowledged Ms Lewis' presentation and advised that the Council have taken on concerns and will look into.

## **5.2 SHAUN BOX - HEAVY VEHICLES & RAV NETWORK**

Mr Box gave a deputation and provided the pamphlet "RAV Access Benefits" (copy as attachment) and also requested the Main Roads WA Network Map for RAV 7 access (<https://mrwebapps.mainroads.wa.gov.au/hvsnetworkmap>) be shown on the large screens highlighting some gaps in the Wheatbelt area with some spaces within the Shire of Wongan-Ballidu..

Mr Box described the need to enable some areas to be increased to RAV7 capacity.

He stated that more trailers equate to less passes and safer roads. He said that bigger trucks are safer, not scarier and asked for the Council to look at transitioning to 2.5 trailers, then to 3 trailers thereafter.

This would require work to be done on the roads to bring them up to RAV7 standard.

Q: Have the Council looked at RAV7?

A: CEO advised that the Council is currently looking at a strategy to open up RAV& network.

A: Cr Coad advised that the Works and Services Committee are currently looking at this topic. They will make a plan to consider with costings being collated. There is no timeline as yet as we must get it right.

The Shire President thanked Mr Box for his attendance.

## **5.3 DOUGLAS BASHAM – TELEVISION AND RADIO REBROADCAST SYSTEM**

Mr Basham gave a deputation and provided some written information (copy as attachment) for Councillors to consider.

Due to the recent TV service survey, Mr Basham was spurred to attend and provide information on the history and story behind the original provision of the retransmission service in Wongan Hills.

- Initial cost was \$200,000. The current system is old and well past its use by date.
- When the time comes to turn it off, planning is needed for people who will be impacted (older residents), Need to seek out these people to assist with transition to digital.
- Free to air now only exists in the city. In country areas, you must pay for most streaming services to get regular TV or other TV services.

The Shire President advised that Council also has concerns moving forward as it impacts a large portion of the community. Thank you to Mr Basham for the good information provided which will be taken on board.

3:38pm      *People in the public gallery left the meeting*

3:39pm	<i>Cr Coad left the room</i>
3:40pm	<i>Cr Coad returned to the room</i>

Good afternoon Councillors, CEO, other council members and members of the Gallery,  
My name is Janet Lewis, I am a concerned resident/rate payer in the Shire of Wongan-Ballidu.

**Question:**

**Have the Shire Councillors and the CEO received my letter plus correspondence associated – including links to documents and reports from Port Hedland Shire council and/or Councillor Camilo Blanco, regarding their motion addressing serious concerns about DNA contamination discovered in Covid-19 vaccines sourced from Australia?**

*My aim, is to bring to your attention this urgent matter regarding a motion passed by the Town of Port Hedland Council in Western Australia on the 11<sup>th</sup> October 2024 and ask you to consider following their lead and taking action on this issue too.*

*Detailed documents and evidence supporting the concerns raised at the Town of Port Hedland Council Meeting have been provided and I kindly ask that you review these materials carefully and take the necessary steps to address this matter swiftly.*

*I would appreciate formal acknowledgement of the email I sent to the CEO and Councillors and this opportunity to speak on this subject to be included in the council's records, along with a response either by email or letter to confirm the information was received and is under review.*

**(Background)**

*During a Special Council Meeting held on October 11, 2024, the Town of Port Hedland Council voted in favor of a motion to address serious concerns about DNA contamination discovered in Covid-19 'vaccines' sourced from Australia.*

*Vials of Pfizer and Moderna Australian Covid-19 vaccines have been scientifically tested and found to contain synthetic DNA contamination that exceeds Australia's Therapeutic Goods Administration (TGA) safety limit by up to 145 times. This level of contamination poses significant potential health risks, including genomic integration, the development of cancers, hereditary defects and immune system disruption.*

*The Town of Port Hedland Council, through their CEO, resolved to inform every local council across Australia of these alarming findings, letters sent out on the 23<sup>rd</sup> October 2024. The Town of Port Hedland is urging all councils to formally write to the Prime Minister, the Minister for Health and other relevant authorities to demand an immediate halt to the use of these vaccines and to inform the public and medical professionals in their respective areas about these risks.*

**(State Government)**

Unfortunately, one of the initial responses to the Port Hedland Motion was negative, and flippantly made by our current Premier Rodger Cook (who notably, was Minister for Health during Covid) suggesting councillors should 'stick to their knitting', ridiculing the Port Hedland council, as would a playground bully, showing no sign of concern for this issue and by extension, the people of Western Australia.

If the expert information presented to the Port Hedland Shire Council is not true – where is the State government evidence to prove this, where is Rodger Cook's detailed and evidenced information of rebuttal?

**The State Government is missing in action. After mandating 75% of the workforce to take an experimental vaccination, I imagine they will choose to keep their blinkers on. I don't think they will engage with hard truths without being prodded.**

## **(Federal Government)**

Our Federal government are also 'missing in action' on this issue and obviously do not wish to engage with it. Evidencing this is their failure to support a royal commission to examine Australia's response to the Covid-19 pandemic and its impacts on the community.

As outlined in an article published by ABC News, Wednesday 24<sup>th</sup> April 2024 by political reporter Chantelle Al-Khouri, a Senate committee called for a royal commission into Australia's Covid-19 response.

*“A royal commission has the independence needed, including the power to compel answers from often unwilling governments, to give the public confidence that its final report and any recommendations will be credible and unbiased”.*

Royal Commissions *“have the power to summon witnesses to give evidence, produce documents, penalise those who fail to attend a hearing or give information and can issue search warrants”.*

Even though a Senate committee recommended a royal commission be held into the Covid-19 response, Prime Minister Anthony Albanese said;

*“Quite frankly, a royal commission can take more time and is normally headed by a judge”*

*“What we've appointed is three experts.. The advice that we've received is that this is the best form of inquiry”.*

*An inquiry can still call witnesses and examine the response of Governments, but it does not have the same power as a royal commission.*

One 'expert' is an economist,  
one 'expert' is an epidemiologist (Epidemiologists are public health scientists who investigate patterns, causes, and effects of diseases and other health-related conditions in specific populations. These professionals collect and analyze data to understand the distribution of diseases, injuries, and health outcomes within communities)  
and one 'expert' is a public administration expert.

In essence, our Federal government under the leadership of Anthony Albanese seems to be reviewing what was, not questioning anything at all.

**Alarmingly absent is anyone from the medical profession**, therefore none of the new information that has come to light regarding DNA contamination of mRNA covid 'vaccinations' and the resulting catastrophic health consequences will be disclosed by this inquiry.

How can we trust the top down approach any more?

Without being pushed, our Federal Government has demonstrated their interest is nil and absolutely inadequate – if you don't look, you won't find.

Therefore as Local Government, supported by your community you sit in a very powerful position.

It has been touted in the Western Australian media, Local Government is just responsible for 'roads, rates and rubbish'. As you are aware, your responsibilities under the Local Government Act 1995 are many more.

As one example: Part 3 of the Act outlines the functions of Local Government and in section 3.5 subsection 4 (b) it states

'(4B) Nothing in the *Health (Miscellaneous Provisions) Act 1911* or the *Public Health Act 2016* prevents a local government from making local laws under this Act about matters relating to public health ( as defined in the *Public Health Act 2016* section 4(1)).

This is an issue relevant to and in the jurisdiction of Local Government, especially when it is being ignored at a State and Federal level.

Local government is the closest level of government to the people and on this issue, there is community support, evidenced by the number of people who have turned up to this meeting. This affects us all – and as this information filters more widely into the community, I'm sure interest will swell rapidly.

I recognise that Wongan-Ballidu Shire has put a lot of effort into the health of the community and is made up of capable people who really do care and have taken on the role of councillor because they have knowledge, skills, passion and energy to give.

I'm concerned bureaucrats are now trying to cover their tracks and I believe the Wongan-Ballidu Shire council has good people on it who would want to find the truth. Once the problem has been identified, then we can take steps to rectify the problem and help the vaccine injured, which could be a large portion of our population.

**Following the lead of the Town of Port Hedland, community-supported motions have now been passed through Local Government by West Tamar in Tasmania and Ceduna in South Australia.**

**Concerned community members are approaching local councils all over Australia and many are looking into things further.**

The question for you to answer now is how you are willing to proceed.

If you move forward and action a motion of your own, please know there is wide community support and others who would be willing to speak to this or bring further information forward. This would not just be you sticking your neck out, but would be a community supported motion.

We were conditioned during Covid to 'trust the experts' and the 'vaccines' were 'safe and effective', we were conditioned not to hold any opinion different to the status quo or be blanket labelled an 'anti-vaxer' or 'conspiracy theorist'. Here we are a couple of years later. New information has come to light and needs to be taken very, very seriously. APRA has pushed heavily against people speaking out about vaccines and have made it very difficult for health professionals to express individual opinions. Covid-19 mRNA vaccinations should be suspended immediately as they are not fit for purpose – especially as they are marketed for a disease that kills no one any more.

As expressed by Professor Paul Marik, mRNA as a vaccine technology needs to be banned for everything, as damage is inevitable.

*As a resident of the Shire of Wongan-Ballidu, I am requesting that our council take immediate action to protect the health and safety of its residents by following the example set by Port Hedland council.*

*I strongly urge you to put forward a motion similar or stronger to the one passed by Port Hedland*

*Council, calling for a halt to the administration of Covid-19 mRNA vaccines use and informing the public of the contamination risks* and a please explain to the State and Federal governments. I also suggest that the CEO carry out a relevant risk-assessment, relating to this topic.

**To conclude:**

**Is the council willing to review this matter as a matter of urgency for the health and well being of the local community - recognising there are many residents who hold these concerns - and consider making a community supported motion following the lead of the Shire of Port Hedland (as detailed in the minutes of their Special Council Meeting held 11 October 2024 found on pages 15, 16 and 17), initiate their own relevant risk-assessment and publicly support The Town of Port Hedland in their motions?**

# RAV Access Benefits

## Transport Tasks

Main Roads Heavy Vehicle Services (HVS) is responsible for providing an efficient heavy vehicle network. However, HVS does not approve transport tasks, i.e. HVS does not approve development applications, mining leases, extraction licenses etc.

Generally, these approvals and the transport tasks are already in place before a transport operator requests more efficient heavy vehicle access. So, by approving Restricted Access Vehicles (RAV) access, we are not creating new transport tasks, we are simply improving the efficiency of existing transport tasks.

Similarly, by improving the efficiency of a transport task, we are not increasing the transport task. For example, production of a product and/or demand for a product will not suddenly increase because the transport task associated with that product is more efficient.

## Road Manager & Community Benefits

Where a road is assessed as being safe for a RAV, allowing RAV access not only provides productivity benefits for the transport industry, but it also provides considerable benefits to road managers, other road users and the local community, which are all based around reducing the number of heavy vehicle movements.

Allowing RAV access reduces the number of heavy vehicle movements required for a specific transport task, which consequently reduces:

- **risk exposure** – reducing the number of vehicle interactions, reducing the number of drivers behind the wheel of a heavy vehicle, reducing the risk of human error and the potential for a serious crash.

- **transport costs** – reducing transport costs directly effects the consumer, as any increase to transport costs will be passed on by the transport operator.
- **carbon emissions** – reducing the number of prime movers used for a transport task is key in reducing carbon emissions.

- **heavy vehicle noise** – reducing the number of prime movers used for a transport task is key in reducing heavy vehicle noise, particularly in built-up areas.
- **traffic congestion** – two single trailer combinations (up to 20 metres in length) are not only physically longer than a double road train

(27.5 metres to 36.5 metres in length), but they also take up more road space due to the gap required between vehicles, plus the delays when accelerating in a queue; and

- **road wear** – where the RAV access is not increasing axle group mass limits, allowing RAV access will reduce road wear

## Reducing Road Wear

By approving RAV access, we not only reduce the number of heavy vehicle movements, but we also reduce the axle loadings on the road.

For example, compare two single trailer combinations (general access vehicles) with a double road train, as shown below:

The double road trains:

- has **less** tare mass than the two general access vehicles, meaning it can carry **more** payload;
- has a **lower** total combined mass than the two general access vehicles, meaning it is carrying **more** payload with **less** loading on the road; and
- has **less** steer axles, which are arguably the worst axles for road damage.

This means the double road train can carry the same amount of product in less than half the movements, compared to if the transport task was performed using the two general access vehicles.

## Increasing the RAV Access & Benefits

The previously mentioned benefits increase as the level of RAV access increases. For example, if a transport operator wanted to move 500 tonnes of product using the general access vehicle, this would require approximately 21 movements.

If the operator was able to use a double road train to move the same 500 tonnes of product, this would only require approximately 10 movements, and if the

operator was able to use a triple road train to move the same 500 tonnes of product, this would only require approximately 6 movements.

The comparison is depicted below:

## Shire of Wongan Ballidu Television and Radio Rebroadcast System Operational Life cycle details

Prepared by Douglas Basham, Shire of Wongan Ballidu ratepayer and Member of the Wongan Ballidu Development group, for the benefit of the Councillors of the Shire of Wongan Ballidu, to assist in determining the future of the operation of the free to air television and radio retransmission system owned and operated by the Shire of Wongan Ballidu.

1. Around the year 2005, technological advancement in television transmission saw the preparation to introduce digital broadcasting to replace the old analogue system which had been in place since broadcast began in WA (around 1959)
2. Most homes had existing analogue TV's which had been fed signal from large roof top or freestanding VHF aerials located outside the house. (terrestrial signals)
3. As part of the new digital transmission systems technical phenomena operated by the broadcasters in Perth, the new signal would not travel as far over land(terrestrial) from the transmitters located in Perth. Shires like Wongan and the people within had become impacted by the need to rethink what residents could do to continue to enjoy free to air television
4. One option offered by the Australian government of the day, to provide ongoing TV services to regional communities such as Wongan Hills, was to fund the development of self help transmitters using the satellite signal feed from the Optus satellite as the source of the new UHF signal.
5. The Wongan Ballidu Development Group in support of The Shire of Wongan Ballidu became partners in progressing the development of the retransmission system gaining funding for 4 television channels and four fm stereo radio stations. The WBDG took on the responsibility of building the infrastructure and liasing with the successful technical service provider to create the infrastructure for the community. No cost for WBDG members time was ever charged. The system was commissioned and provided free to air channels 7, 9, 10, and SBS, plus the four FM radio stations, JJJ, Triple M Avon Valley, SBS and ABC Perth. The TV broadcasts were not without its problems in the early days due to issues associated with the new technology and the need for affordable suitable broadcast equipment that could be constantly upgraded in line with developments in the new digital system.
6. Some may contest the council's final reasoning behind providing the rebroadcast facility, however as a member of the partnered Development Group it was my understanding that rebroadcasting allowed for many of the Wongan residents to make minor alterations to their existing antennae and TV sets while not requiring an additional Optus free to air satellite install which at the time was valued at about \$700 per household. A local translator only required the use of one remote control (TV). Good for seniors and those technologically challenged. Caravanner tourists who
7. began to frequent our region were able to receive TV and radio broadcasts in their caravans from our local transmitter.

8. During this period of time, digital streaming did not exist commercially so decisions were made for best practice at the time to continue to receive free to air television without incurring major cost to individuals within the community. It is my understanding that only ratepayers from within the townsite of Wongan Hills were levied for a contribution to the system over the initial three years of operation.
9. The ABC television channel was broadcast from Mount Obrien initially however the site operators, Broadcast Australia, contacted the Shire and arranged to shift its entire operation into the town broadcast site with a rental paid to council, the value of which I have not been privy to.
10. Between that initial town broadcast set up and now, developing optic fibre technology now brings NBN digital streams to our town and house. Satellite broadcasts provided by Optus and Foxtel also deliver digital streams carrying virtually all options of television viewing. Further we have Eion Musks Starlink low orbital satellite system allowing for connection to the internet 24/7 accessing every option of data streaming the consumer could want.
11. With all of the above, what we must consider going forward is that television viewing is no longer free. Unless you live in an area where the broadcasters still operate transmitters and support free to air, we have now entered the realm of pay TV. Downloads may be unlimited now, but you must still pay a subscription to someone to access the stream. Plus it is necessary to use a SMART TV, computer or digital device to interpret the data in a way that the human eye and ears understand.
12. I see the biggest problem for those who don't yet use data streaming to access television services is understanding how it works. I have a 92 year old mum who struggles with most things technologically based but I will have to persevere and gently aid her in accepting the new world without frightening her. She is lucky, she has me. Are there others similar in the town who don't have anyone to support them? Perhaps council can provide an appropriate responder to educate and assist residents who are unable to resolve the TV issue when and if the rebroadcast system is shut down?
13. It is not my intention to use the above to influence how the council responds to their responsibility in determining what happens with the town retransmission system, but I felt it important to note that in less than 20 years, technology has made what was once new, seem very old. The Shire of Wongan Ballidu has always been a progressive community leading the way for many of its neighbours. I wish the council well in making the appropriate decision.

<b>ATTACHMENTS:</b>	01 Amended Council Policy 5.1

#### **PURPOSE OF REPORT:**

The purpose of this report is to present the amended Council Policy 5.1 – Citizen, Young Citizen, Community Event and Community Group of the Year Awards to Council for adoption.

#### **BACKGROUND:**

Council Policy 5.1 was adopted in February 2022, and subsequent to being adopted, this Policy has been reviewed with amendments discussed with Council at the Informal Council Meeting on 23 October 2024.

#### **COMMENT:**

It was noted that the adopted Policy was missing details of important protocols in particular in relation to the selection panel and determination of winners of the awards. It was deemed necessary that this Policy was amended to reflect the proper process in order to ensure the consistency of transparency into the future of these awards.

## 5.1 Citizen, Young Citizen, Community Event and Community Group of the Year Awards

<b>Policy Owner</b>	<b>Governance</b>
<b>Person Responsible</b>	<b>Chief Executive Officer and Shire President</b>
<b>Date of Adoption</b>	<b>23 February 2022 – Resolution 040222</b>
<b>Date of Last Review</b>	<b>27 November 2024 - Resolution 031124</b>

### OBJECTIVE

To outline the criteria for the annual recognition of individuals, groups and events in the Shire of Wongan-Ballidu who have made a noteworthy contribution to the community and development of the Shire. The Policy also provides the protocols around nominations and selection of award winners.

### POLICY

#### Eligibility

The Wongan-Ballidu Citizen of the Year Award shall be open to any person who has resided in the district for a period of not less than twelve months. Shire Councillors shall be ineligible while holding office.

The Wongan-Ballidu Young Citizen Award shall be open to any person under the age of 36 on the closing of the nominations who has resided in the district for a period of not less than twelve months. Shire Councillors shall be ineligible while holding office.

Any person who has made a noteworthy contribution to the district during the current year and/or given outstanding service to the local community over several years shall be eligible.

#### Process

The Shire Council shall invite nominations for the Award in the first week of October, with a closing date no later than the first Friday in December. The opening of the Award nominations shall be published through the Boomer, all social media platforms, the Shire website, all townsite noticeboards, and by direct circular to substantial organisations.

Individuals as well as organisations may submit nominations. Only one person or event may receive each Award.

The Selection Panel reserves the right not to present an award if there are insufficient nominations or nominations received are not of a sufficient standard.

The Award is to be announced at the Australia Day Breakfast held on January 26, each year.

### **Selection Panel**

The Selection Panel shall be determined by the Shire President and Deputy President. The Panel shall consist of five (5) community representatives, who will vote to determine the award winners. There shall be two (2) proxy community representatives who are to replace a primary voting representative in the instance whereby a primary voting representative is unable to participate. The Shire President and Deputy President shall not participate in the voting. The community representatives will be selected jointly by the Shire President and Deputy President upon the closure of the nomination period to avoid conflicts of interest between the Panel and nominees.

There shall be no set assessment criteria for determining the Award winners. Notwithstanding this, quality of service will be more important than duration of service.

Nominations shall be kept confidential.

### **Awards Ceremony**

In addition to the official announcement of award winners at the Australia Day Breakfast held on January 26 each year, Council will host a Community Awards Ceremony event no later than 30 April of each year. All winners of the current year's award will be invited, and winners of the Citizen and Young Citizen of the Year will have the opportunity to extend this invitation to family and friends, with numbers limited.

Previous winners will also be invited to this event, however representation for previous winners of the Community Event and Community Group of the Year awards will be limited to one. If a previous winner has become deceased then a partner/spouse will be invited, this is not extended to general family.

### **RESPONSIBILITY FOR IMPLEMENTATION**

The Chief Executive Officer, in conjunction with the Shire President, is responsible for implementing this Policy.

## SUSPENSION OF STANDING ORDERS

### 9.1.2 WONGAN HILLS TELEVISION RETRANSMISSION SERVICE

<b>FILE REFERENCE:</b>	Council, Committees and Meetings
<b>REPORT DATE:</b>	15 November 2024
<b>OFFICER DISCLOSURE OF INTEREST:</b>	Nil
<b>PREVIOUS MEETING REFERENCES:</b>	HBP Committee Meeting – 12 November 2024 Informal Council Meeting – 23 October 2024
<b>AUTHOR:</b>	Sam Dolzadelli – Chief Executive Officer

#### **PURPOSE OF REPORT:**

The purpose of this report is to present the recommendation from the Health, Building and Planning Committee that Council decommission the Wongan Hills television retransmission service on 23 June 2026.

#### **BACKGROUND:**

The Shire of Wongan-Ballidu has been providing a digital free-to-air television retransmission service to the residents of the Wongan Hills townsite since 2008. Due to the increase in faults and failures with this service, which are out of the Shire's control, Council have been discussing the future of this service.

Since the inception of this service, it has cost on average per annum over \$14,000 to maintain, and over \$21,000 in capital replacement and upgrades. This is the equivalent to 1% of the Shire's annual rate revenue. In total, it has cost the Shire \$626,265, which was offset in earlier financial years by \$190,400 with the separate service charge to Wongan Hills townsite ratepayers. The net cost to date to the Shire since inception is \$435,865. The maintenance and upgrade costs are factored into the annual balanced budget, and thus all ratepayers are contributing towards this service.

In order to best gauge the utilisation of this service, a survey of the Wongan Hills townsite properties was conducted in relation to their current choice of free-to-air television service. Out of the 518 properties eligible to respond, 75 responded stating that they only utilised the Shire's retransmission service and nothing else. As of the adoption of the 2024-25 budget, the Shire has 905 rateable properties within the district. This means that only 8.3% of rateable properties are utilising this service and the remaining 91.7% of rateable properties are subsidising this service.

At the Health, Building and Planning Committee Meeting held on 12 November 2024, the Committee resolved the following:

#### **Committee Recommendation:**

That Council resolve to:

1. Decommission the Wongan Hills TV re-transmission service on 23 June 2026.
2. Instruct the CEO to provide all Wongan Hills townsite residents with a letter explaining the decision and advertise this accordingly.
3. Instruct the CEO to schedule an information session for all residents to attend to explain the decision and provide details on alternative options.
4. Investigate options for Shire owned properties.

**COMMENT:**

Below is the historical breakdown of income and expenditure specific to the television retransmission service.

<b>FY</b>	<b>Income</b>	<b>Operating Cost</b>	<b>Capital Cost</b>	<b>Total Cost</b>	<b>Surplus/(Deficit)</b>
07/08	\$29,500	\$1,600	\$130,600	\$132,200	(\$102,700)
08/09	\$30,000	\$5,025		\$5,025	\$24,975
09/10	\$30,000	\$38,950		\$38,950	(\$8,950)
10/11		\$4,500		\$4,500	(\$4,500)
11/12		\$9,100		\$9,100	(\$9,100)
12/13	\$25,000	\$5,150	\$99,800	\$104,950	(\$79,950)
13/14	\$25,000	\$9,400		\$9,400	\$15,600
14/15	\$25,500	\$9,150		\$9,150	\$16,350
15/16	\$25,400	\$11,250	\$17,400	\$28,650	(\$3,250)
16/17		\$15,900		\$15,900	(\$15,900)
17/18		\$28,500		\$28,500	(\$28,500)
18/19		\$15,500	\$59,100	\$74,600	(\$74,600)
19/20		\$18,160	\$12,100	\$30,260	(\$30,260)
20/21		\$14,220	\$12,100	\$26,320	(\$26,320)
21/22		\$16,855		\$16,855	(\$16,855)
22/23		\$18,505	\$18,000	\$36,505	(\$36,505)
23/24		\$17,700	\$23,200	\$40,900	(\$40,900)
24/25 (YTD)		\$14,500		\$14,500	(\$14,500)
<b>Total</b>	<b>\$190,400</b>	<b>\$253,965</b>	<b>\$372,300</b>	<b>\$626,265</b>	<b>(\$435,865)</b>

As the above figures show, since the inception of this service, the cumulative net cost to the Shire to provide this service is \$435,865. As Council adopts a balanced budget each financial year, this cumulative net cost has been effectively covered by general rate revenue. The Shire does not receive any external funding towards the provision of this service.

In addition to the financial implications, the service provider who has serviced all of these re-transmission systems throughout WA since the inception of the service is located in Queensland. This adds an additional layer of complexity with ensuring the effectiveness of the service, as they provide ad hoc remote support, operate in a different time zone, and are required to travel to undertake any major maintenance. However, they are the best-priced provider that is available, with the most knowledge of this system.

The current broadcasting retransmission licences the Shire hold with the Australian Communications and Media Authority (ACMA) expire on 22 June 2026. It has been agreed upon by Council previously that an eighteen (18) month notice period for effected residents is satisfactory. Subject to the decision of this agenda item recommendation, the timeline for providing notice and the expiration of the broadcasting retransmission licences aligns very closely.

Council has previously provided in principle support for decommissioning this service.

<b>AUTHOR:</b>	Melinda Lymon – Deputy Chief Executive Officer
<b>ATTACHMENTS:</b>	9.2.2.1 Monthly Financial Report September 2024

### PURPOSE OF REPORT:

The purpose of this report is to present to Council the Monthly Financial Report (containing the Statement of Financial Activity by Nature) for the month ended 30 September 2024. The Capital Works report has been incorporated into this.

### BACKGROUND:

Under section 6.4(1) of the *Local Government Act 1995*, a local government is required to prepare an annual financial report for the proceeding financial year and such other financial reports as are prescribed. Part 4 of the *Local Government (Financial Management) Regulations 1996* prescribes the minimum contents of the Monthly Financial Report.

Below is the prescribed contents of the Monthly Financial Report.

### Regulation 34 - Statement of Financial Activity

- (1) A local government is to prepare each month a statement of financial activity reporting on the revenue and expenditure, as set out in the annual budget under regulation 22(1)(d), for the previous month (relevant month) in the following detail:
  - (a) annual budget estimates; and
  - (b) budget estimates to the end of the relevant month (YTD Budget); and
  - (c) actual amounts of expenditure, revenue and income to the end of the relevant month (YTD Actual); and
  - (d) material variances between the comparable amounts (YTD Actual – YTD Budget); and
  - (e) the net current assets at the end of the relevant month and a note containing a summary explaining the composition of net current assets.
- (2) Each statement of financial activity is to be accompanied by documents containing –
  - (a) (removed)
  - (b) an explanation of each of the material variances referred to in subregulation (1)(d); and
  - (c) such other supporting information as is considered relevant by the local government.
- (3) The information in a statement of financial activity must be shown according to nature

classification.

- (4) A statement of financial activity, and the accompanying documents referred to in subregulation (2), are to be –
  - (a) Presented at an ordinary meeting of the council within 2 months after the end of the relevant month; and
  - (b) Recorded in the minutes of the meeting at which it is presented.
- (5) Each financial year, a local government is to adopt a percentage or value, calculated in accordance with the AAS, to be used in statements of financial activity for reporting material variances.

### **Regulation 35 – Statement of Financial Position**

- (1) A local government must prepare each month a statement of financial position showing the financial position of the local government as at the last day of the previous month (the **previous month**) and –
  - (a) The financial position of the local government as at the last day of the previous financial year; or
  - (b) If the previous month is June, the financial position of the local government as at the last day of the financial year before the previous financial year.
- (2) A statement of financial position must be –
  - (a) Presented at an ordinary meeting of the council within 2 months after the end of the previous month; and
  - (b) Recorded in the minutes of the meeting at which it is presented.

### **COMMENT:**

## **Rates**

Rates notices were issued 26 August 2024, with a due date for payment in full or first instalment of 30 September 2024. As at 30 September, the gross amount of rates, ESL and rubbish charges outstanding (including arrears, legal charges and interest) was **\$1,330,081.60** and of this amount \$47,369 is made up of deferred pensioner rates.

## **Capital Works**

As at 30 September 2024 the Shire has incurred \$630,096 in actual expenditure on capital works projects against an adopted budget of \$9,808,214 representing 6.42% of the budgeted works.

## **Depreciation**

Depreciation for September 2024 has not yet been processed in the accounting system as the asset register is to be finalised first as part of the 2023/24 FY and audit purposes.

## **Closing surplus actual vs estimate**

The closing surplus position as shown in this monthly financial report is subject to change based on EOFY accounting entries to be processed. The closing surplus that has been included in the 2024/25 annual budget is \$3,065,879 versus the brought forward surplus shown in the September 2024 financial reports of \$3,140,175. There are EOFY accounting entries being finalised and it is anticipated that the actual closing position for 30 June 2024 once audited will be closer to the figure built into the 2024-25 budget.

Shire of Wongan-Ballidu Variance Report 30 September 2024				
<p>The Local Government (Financial Management) Regulations 1996 require that financial statements are presented monthly to council. Council has adopted 10% or \$10,000, whichever is greater, as its threshold for line items on the Statement of Financial Activity by nature shown on page 1. This report uses a traffic light system to flag those items that are within tolerance and others that fall out of the range. Variances are calculated using a comparison of year to date actual against year to date budget. It needs also to be noted that the early months of the financial year are a period when variance percentages are volatile and extremely sensitive to small movements in actual income and expenditure.</p>

#### PURPOSE OF REPORT:

The purpose of this report is to present to Council the Monthly Financial Report (containing the Statement of Financial Activity by Nature) for the month ended 31 October 2024. The Capital Works report has been incorporated into this.

#### BACKGROUND:

Under section 6.4(1) of the *Local Government Act 1995*, a local government is required to prepare an annual financial report for the proceeding financial year and such other financial reports as are prescribed. Part 4 of the *Local Government (Financial Management) Regulations 1996* prescribes the minimum contents of the Monthly Financial Report.

Below is the prescribed contents of the Monthly Financial Report.

#### Regulation 34 - Statement of Financial Activity

- (1) A local government is to prepare each month a statement of financial activity reporting on the revenue and expenditure, as set out in the annual budget under regulation 22(1)(d), for the previous month (relevant month) in the following detail:
  - (a) annual budget estimates; and
  - (b) budget estimates to the end of the relevant month (YTD Budget); and
  - (c) actual amounts of expenditure, revenue and income to the end of the relevant month (YTD Actual); and
  - (d) material variances between the comparable amounts (YTD Actual – YTD Budget); and
  - (e) the net current assets at the end of the relevant month and a note containing a summary explaining the composition of net current assets.
- (2) Each statement of financial activity is to be accompanied by documents containing –
  - (a) (removed)
  - (b) an explanation of each of the material variances referred to in subregulation (1)(d); and
  - (c) such other supporting information as is considered relevant by the local government.
- (3) The information in a statement of financial activity must be shown according to nature classification.

- (4) A statement of financial activity, and the accompanying documents referred to in subregulation (2), are to be –
  - (a) Presented at an ordinary meeting of the council within 2 months after the end of the relevant month; and
  - (b) Recorded in the minutes of the meeting at which it is presented.
- (5) Each financial year, a local government is to adopt a percentage or value, calculated in accordance with the AAS, to be used in statements of financial activity for reporting material variances.

### **Regulation 35 – Statement of Financial Position**

- (1) A local government must prepare each month a statement of financial position showing the financial position of the local government as at the last day of the previous month (the **previous month**) and –
  - (a) The financial position of the local government as at the last day of the previous financial year; or
  - (b) If the previous month is June, the financial position of the local government as at the last day of the financial year before the previous financial year.
- (2) A statement of financial position must be –
  - (a) Presented at an ordinary meeting of the council within 2 months after the end of the previous month; and
  - (b) Recorded in the minutes of the meeting at which it is presented.

## **Rates**

Rates notices were issued 26 August 2024, with a due date for payment in full or first instalment of 30 September 2024. As at 31 October, the gross amount of rates, ESL and rubbish charges outstanding (including arrears, legal charges and interest) was **\$1,044,505.50** and of this amount \$47,369 is made up of deferred pensioner rates.

## **Capital Works**

As at 31 October 2024 the Shire has incurred \$1,651,067 in actual expenditure on capital works projects against an adopted budget of \$9,808,214 representing 16.83% of the budgeted works.

## **Depreciation**

Depreciation for October 2024 has not yet been processed in the accounting system as the asset register is to be finalised first as part of the 2023/24 FY and audit purposes.

## **Closing surplus actual vs estimate**

The closing surplus position as shown in this monthly financial report is subject to change based on EOFY accounting entries to be processed. The closing surplus that has been included in the 2024/25 annual budget is \$3,065,879 versus the brought forward surplus shown in the October 2024 financial reports of \$3,088,391. There are EOFY accounting entries being finalised and it is anticipated that the actual closing position for 30 June 2024 once audited will be closer to the figure built into the 2024-25 budget.

Shire of Wongan-Ballidu Variance Report 31 October 2024				
<p>The Local Government (Financial Management) Regulations 1996 require that financial statements are presented monthly to council. Council has adopted 10% or \$10,000, whichever is greater, as its threshold for line items on the Statement of Financial Activity by nature shown on page 1. This report uses a traffic light system to flag those items that are within tolerance and others that fall out of the range. Variances are calculated using a comparison of year to date actual against year to date budget. It needs also to be noted that the early months of the financial year are a period when variance percentages are volatile and extremely sensitive to small movements in actual income and expenditure.</p>

<b>REPORT DATE:</b>	20 November 2024
<b>APPLICANT/PROPONENT:</b>	Wongan Hills Sport and Recreation Council Inc
<b>OFFICER DISCLOSURE OF INTEREST:</b>	Nil
<b>AUTHOR:</b>	Melissa Marcon – Manager of Regulatory Services

#### PURPOSE OF REPORT:

To seek Councils permission to approve improvements within the bowling club area at the Wongan Hills Sports Pavilion 100 Ninan Street, Wongan Hills.

#### BACKGROUND:

The Shire entered into a Management Agreement with the Wongan Hills Sports and Recreation Council Inc in 2008.

In 2023 the bowling club moved to the new facility at the Wongan Hills Sports Pavilion.

#### COMMENT:

The applicant is requesting permission from Council for the following improvements –

- Installation of a servery roller door east of the blue shed at the bowling rink to allow for bar sales.
- Installation of a hot water system and water filter in bowls kitchen/office building.
- Upgrade power to 1 x 3ph power point and cord to run bowls sweeper.
- Installation of signs to show unruly behaviour is not accepted.

Proposed location of servery

Current servery at main pavilion

The servery door will be like that of the main pavilion.

Following discussions with the current President of the Wongan Hills Community Club, they are in support of this.

Alcohol that is being sold is provided from the main pavilion.

The area is a licensed area under the club's permit.

#### PURPOSE OF REPORT:

To seek Councils permission to approve the installation of a patio on Reserve 28594, Lot 460 on Deposited Plan 169325 Wongan Road, Wongan Hills, known as the Arboretum.

#### BACKGROUND:

The Shire has a recently been granted Management Order over Reserve 28594, Lot 460 on Deposited Plan 169325 Wongan Road, Wongan Hills, known as the Arboretum since May 2024.

Tidy Towns comes under the umbrella of The Keep Australia Beautiful Council and has managed and cared for the Arboretum since 2016.

#### COMMENT:

The proposed patio is 4m wide x 8m long x 2.4m high to the (eaves) with a roof pitch of 15 degrees. The colour will be Colorbond Eucalyptus green. The patio will be of steel fabrication with has two bays, open sided.

*Position of outbuilding looking west from Wongan Road, Wongan Hills*

*Outbuilding*

The patio will be built in a clear area where there will be minimum disruption to the surroundings and the picnic tables will be placed underneath once built. The floor will be woodchipped.

This would allow Tidy Towns and tourists alike, to call in and sit in a covered space free from the elements and enjoy the view of Arboretum.

Tidy Towns will meet the cost of the patio and propose to erect the patio as a group. They have requested the Shire provide the installation of the footings.
