### PURPOSE OF REPORT:

That the following statements and reports for the month ended June 2018 be received:

### BACKGROUND:

Under the Local Government (Financial Management) Regulations 1996 the Council is to prepare financial reports outlining the financial operations at the previous month end date.

Listed below is a compilation of the reports that will meet compliance, these are listed under Sections and the relevant regulations below.

### Financial activity statement report

Section 6.4 of the Local Government Act regulation 34.1 of the FMR requires a Local Government to prepare each month a statement of financial activity reporting on the sources and application of funds, as set out in the annual budget containing the following detail:

- Annual budget estimates
- Budget estimates to the end of the month to which the statement relates (known as YTD Budget) Actual amounts of expenditure, revenue and income to the end of the month to which the statement relates (known as YTD Actuals)
- Material variances between the comparatives of Budget v's Actuals
- The net current assets (NCA) at the end of the month to which the statement relates

Regulation 34.2 - Each statement of financial activity must be accompanied by documents containing:-

- An explanation of the composition of the net current assets of the month to which it relates, less committed assets and restricted assets containing the following detail:
- An explanation of each of the material variances
- Such other supporting information as is considered relevant by the local government

Regulation 34.3 - The information in a statement of financial activity may be shown:

- According to nature and type classification
- By program; or
- By business unit

Each financial year a Local government is to adopt a % value, calculation in accordance with AAS5, to be used in reporting material variances.

**Variance Report for June 2018**

The Local Government (Financial Management) Regulations 1996 require that financial statements are presented on a monthly basis to Council. Council has adopted 10% as its threshold for line items on the nature and type report shown on page 1. This report uses a traffic light system to flag those items that are within tolerance and others that fall out of the range. Variances are calculated using a comparison of year to date actual against year to date budget.

Code	Report Section	Comments
	Operating Income	
✘	Operating Grants, Subsidies & Contributions	The Shire has received the 2018/19 first quarter payment of FAGS and Untied Roads Grants in June totalling approx. \$1M. In addition, grant funds that the Shire expected to receive for the Mocardy Dam Project were not received this year. These funds will be received in 2018/19 year.
✘	Non Operating Grants, Subsidies & Contributions	The roads to recovery program is ahead of schedule and funding received for this was greater than estimated in the budget.
✘	Fees & Charges and Service Charges	The shire has received more Income from user fees and charges and housing rental than estimated in the budget.
✘	Other Revenue	The Shire has received re-imburements that were not budgeted for or planned for this financial year. (eg workers compensation). This type of income is offset by expenditure.
	Operating Expenditure	
⊖	Materials & Contracts	There are some individual line items that are under-budget mainly because of the timing of programmed works or activities. There are minor variances within many accounts in this category, adding up to a under budget variance.
✘	Utilities (Gas, Electricity) etc	Standpipe water consumption is over budget. This has been offset by user fees and charges income.
⊖	Interest	The end of financial year accrual for loan interest has not yet occurred. This will happen as part of the preparation of the final accounts for the 2017/18 year.
⊖	Other General	There are some individual line items that are under-budget as expenditure has not occurred as predicted.
⊖	Loss on Asset Disposals	Losses on disposal are under budget due to trade ins being higher than budgeted in the 2017/18 budget. As this is a non-cash item, it has no effect on the final surplus at the end of the year.
⊖	Depreciation	When preparing the 2017/18 budget, depreciation was estimated on the value of the assets at the time (some classes of assets were revalued at the 30 <sup>th</sup> June to reflect their fair value) and with the change in values, and updated depreciation rates the monthly charge is different to the budget. As this is a non-cash item, it has no effect on the final surplus at the end of the year.

	Capital	
0	Land and Buildings	There are items in the Land and Buildings Capital Program that were not be completed in the 2017/18 financial year and have been re-budgeted for the 2018/19 year.
0	Motor Vehicles	The replacement program has been completed for the 2017/18 year and the total acquisitions were less than budget.
0	Plant	This is underbudget due to the savings that were achieved in the purchase of the items of plan. Expenditure on plant will be under budget in the 2017/18 year.
0	Infrastructure Other	This is for the construction of a water pipe to the airport and the purchase of street furniture. These projects have not commenced and are being re budgeted in 2018/19.
0	Infrastructure Roads	The road construction program for 2017/18 was completed as budgeted. Included in this category of expenditure is the Mocardy Dam Project and the majority of the works were not completed in this financial year. The balance of the works have been re-budgeted in 2018/19.
