Shire of Wongan-Ballidu Variance Report for September 2018

The Local Government (Financial Management) Regulations 1996 require that financial statements are presented monthly to council. Council has adopted 10% as its threshold for line items on the nature and type report shown on page 1. This report uses a traffic light system to flag those items that are within tolerance and others that fall out of the range. Variances are calculated using a comparison of year to date actual against year to date budget. It needs also to be noted that the early months of the financial year are a period when variance percentages are volatile and extremely sensitive to small movements in actual income and expense.

| Code | Report Section | Comments |
|------|---|---|
| | | Operating Income |
| 0 | Rates | 2018/19 Rates have been raised. The variance to budget is due to 2018/19 Rates being paid and recognised as income in 2017/18 year. This is a timing variance. |
| 0 | Non-Operating Grants, Subsidies & Contributions | The Shire budgeted to receive part of the grant funds for the co- location project and Roads to Recovery. These funds have not been received by the Shire as yet. This is a timing variance |
| | | Operating Expenditure |
| 0 | Materials & Contracts | Many of the monthly budgets are 1/12 of the annual budget, There are some individual line items that are under-budget mainly because of the timing of programmed works or activities. There are minor variances within many accounts in this category, adding up to a under budget variance. |
| 0 | Utilities (Gas, Electricity) etc. | Many of the monthly budgets are 1/12 of the annual budget and as we are only 3 months into the financial year and many of the utilities accounts are bi-monthly, a variance is been reported, this is only a timing issue, when invoices are processed over the next month this variance will be corrected. |
| 0 | Interest | Self Supporting Loan Interest is charged as payments are due. The variance is a timing variance because the monthly budget is 1/12 and many of the loan repayments are six monthly |
| × | Other General | The YTD Budget planned on making the annual donations in October/November of this year. Payments commenced in July and continued in August. This variance is considered a timing variance only. |
| 0 | Loss on Asset Disposals | The Shire has commenced its replacement program and to-date the loss on disposal has been lower than budgeted. |
| 0 | Depreciation | Depreciation for July has not yet been charged due to the annual accounts for the 30 th June not being finalised. |
